Attach agenda with topics covered _____

Determine the Applicability of course /training to EHS Certification

"Practice as an environmental health specialist" means, as a major component of employment, to apply academic principles, methods and procedures of the environmental, physical, biological, and health sciences to the inspections and investigations necessary to collect and analyze data and to make decisions necessary to secure compliance with federal, State, and local health and environmental laws and regulations specifically relating to control of the public health aspects of the environment. The environmental health specialist is required to obtain 20 hours of approved training for licensure renewal and submit proof to the board of said acquisition. **Important: All training must be submitted to the Board within 90 days of completion to be considered for CEU approval and credit.**

Check the appropriate topic matter this course is applicable to:
