Join the mission to end veteran suicide

The Trained Military Assistance Provider Program (TMAP) is a new initiative to reduce suicides and increase lethal means safety for service members, veterans and their families.

Developed by the Maryland Governor's Challenge to Prevent Suicide Among Service Members Veterans and their Families, this advanced training in military culture, risk assessment and safety planning is **free to Maryland-based nurses, doctors and all primary care staff** as well as those that support Maryland's population.

EVERYONE NEEDS TRAINING

People who die by suicide are more likely to have seen a PCP in the month prior to their death than any other healthcare provider.
