On or about November 14, 2024, the Board held a Case Resolution Conference ("CRC") with the Respondent. Following the CRC, the Board and the Respondent agreed to enter into this Consent Order to resolve the Charges issued in this case.

FINDINGS OF FACT

The Board finds the following facts.

1. At all times relevant, the Respondent was originally licensed to practice chiropractic in Maryland on May 13, 2013, under License Number S03751. The Respondent's license status is active and is set to expire on September 1, 2025.

2. On or about August 11, 2023, the Board received an incident report from a local governmental agency which noted it received a complaint about the Respondent alleging he failed to maintain professional boundaries with two patients and inappropriately touched one patient.

3. Based upon the incident report, the Board initiated an investigation of the Respondent.

4. As part of the investigation, the Board obtained documents including text messages, screenshots from social media, and interviewed witnesses including a local chiropractor ("Chiropractor 1"), Patient A, Patient B, and the Respondent.

5. On September 14, 2023, the Board's Investigator interviewed Chiropractor 1 under oath. Chiropractor 1 stated, in part:

- a. She made a complaint with the local governmental agency in March 2023. She was contacted by a patient ("Individual 1") who advised that her friend, Patient A, visited a chiropractor and was in a bra and underwear without a gown on. Individual 1 said that Patient A was really upset. Chiropractor 1 was taken aback and told Individual 1 that she could give her number to Patient A.
- b. Chiropractor 1 was contacted by Patient A. Patient A was a patient of the Respondent. Patient A told Chiropractor 1 that she was with the Respondent in her bra and underwear and that it was really odd because the Respondent would be with her for over an hour. He would do a lot of treatment on soft

tissue and a lot of it was in the glute area. Patient A told Chiropractor 1 that the Respondent found her on Facebook and added her as a friend. The Respondent privately messaged a topless picture of himself in bed to Patient A.

6. On February 5, 2024, the Board's Investigator interviewed Patient A under oath. Patient A, stated, in part:

- a. She saw the Respondent for chiropractic treatment off and on since 2020. She was diagnosed with spinal stenosis and a bulging disc in the cervical spine and saw the Respondent for chiropractic treatment before having cervical spine surgery in 2022.
- b. In January 2022, she saw the Respondent at his office for a chiropractic appointment. She was in an exam room with the Respondent and the door was closed. While in the room at the end of her appointment, the Respondent told her to come over here and get on your knees. She refused and was getting ready to leave. The Respondent then put his hand in her underwear and put her hand on his genitals. She was in shock and in tears and remembered it being awkward and leaving. After the incident, the Respondent called Patient A, apologized to her, and stated this would never happen again. After this incident, Patient A returned to the Respondent's office for treatment on February 1, 2022 and February 8, 2022, and thereafter requested his advice until on or March 2023.
- c. She communicated with the Respondent using a social media application regarding treatment. The Respondent sent her a picture of himself with his shirt off in bed through the social media application prior to the incident that occurred in January 2022.

7. As part of the investigation, the Board obtained messages sent through a social media application between the Respondent and Patient A. In a series of messages dated January 28, 2022, the Respondent stated, "I feel like a scumbag[,] and, "knowing how much I affected you makes me sick to my stomach worse than I already felt about it." The Respondent also stated, "[w]hat happened is a first and last time. I'm glad it didn't go further, but I wish it never happened."

8. On November 8, 2023, the Board's Investigator interviewed Patient B under oath. Patient B, stated, in part:

- a. She was the Respondent's patient at least eight years ago and saw him for no more than two months at his office in Montgomery County, Maryland. She saw the Respondent for treatment for her broken knee. Patient B alleged the Respondent made statements to her during the course of treatment and acted in a way that made her uncomfortable.

9. On November 14, 2023, the Board's Investigator interviewed the Respondent, with counsel present, under oath. The Respondent, stated, in part:

- a. He has been licensed since 2009 and own and operates a facility in Montgomery County, Maryland.
- b. He denied making explicit comments to patients.
- c. He was familiar with the complaint from Patient A. He saw her in the office seven times from October 2021 to February 2022. He admitted that on one instance, he crossed a professional boundary with Patient A. During a visit, while in a room, Patient A touched his genitals and he grabbed her butt. Patient A put her hands down his pants and that's when she started to kiss his neck and went for his mouth. She was not forced into it, and he did not bully her or tell her to do it. They had been flirting for two months prior to this unfolding. There were moments that Patient A was flirtatious with him in the office but most of the conversations occurred on a social media application. He did not see her after this encounter but did correspond with her regarding referring her to other medical providers for the pain and discoloration in her leg she was experiencing.
