The Maryland Department of Health is the Single State Medicaid Agency authorized to administer Maryland's Medical Assistance Program. Maryland Department of Health's Office of Long-Term Services and Supports is the Medicaid unit within the State Medicaid Agency that oversees the Community Pathways Waiver. In this capacity, the Office of Long-Term Services and Supports oversees the performance of the DDA, which is the Operating State Agency (OSA) for the Waiver program. The Office of Long-Term Services and Supports serves as the point of contact with the Centers for Medicare and Medicaid Services (CMS) with programmatic expertise and support provided by the DDA.

The DDA is responsible for the day-to-day operations of administering this Waiver program, including, but not limited to, facilitating the waiver application process to enroll into this Waiver program, reviewing and approving applications for potential providers, reviewing and monitoring claims for payment, and assuring participants receive quality care and services, based on the assurance requirements set forth in this waiver. The DDA is responsible for collecting, trending, prioritizing, and determining the need for system improvements.

The Office of Long-Term Services and Supports will meet regularly with the DDA to discuss waiver performance and quality enhancement opportunities with respect to this Waiver program. The DDA will provide the Office of Long-Term Services and Supports with regular reports on program performance. In addition, the Office of Long-Term Services and Supports will review all policies issued related to this Waiver program. The Office of Long-Term Services and Supports will continually monitor the DDA's performance and oversight of all delegated functions through a data-driven approach. The Office of Long-Term Services and Supports and the DDA meet monthly and more frequently on topic specific items. If any issues are identified, the Office of Long-Term Services and Supports will work collaboratively with the DDA to remediate such issues and to develop successful and sustainable system improvements. Office of Long-Term Services

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the state's quality improvement strategy, provide information in the following fields to detail the state's methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the state will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver for all persons except where approved reserved capacity is designated for specific regions or circumstances
- Compliance with HCB settings requirements and other **new** regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the state to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the state to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the state's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction and the state's method for analyzing information from individual problems, identifying systemic deficiencies, and implementing remediation actions. In addition, provide information on the methods used by the state to document these items.

The Maryland Department of Health's Office of Long-Term Services and Supports within the State Medicaid Agency is responsible for ensuring that the DDA performs its assigned operational and administrative functions in accordance with the Waiver program's requirements. To this end, the Office of Long-Term Services and Supports has developed communication and reporting mechanisms to track performance measures as detailed herein.

The DDA submits an Annual Quality Report to the Office of Long-Term Services and Supports. It is a report on the status of the Waiver program's performance measures and includes discovery findings, remediation strategies, challenges, and system improvements associated with each waiver assurance including Level of Care, Service Plan, Qualified Providers, Health and Welfare, Financial Accountability, and Administrative Authority. The report includes any barriers to data collection and remediation steps.

The Office of Long-Term Services and Supports, upon review of the report, will meet with the DDA to address challenges and barriers. Guidance from the Office of Long-Term Services and Supports to the DDA regarding changes in policies, procedures, or other system changes will be dependent upon the challenges or barriers identified.
