Introduction

The Maryland Department of Health Developmental Disabilities Administration (DDA) supports participants' rights to self-determination and choice to self-direct their Medicaid waiver services.

Self-determination means making your own choices, learning to effectively solve problems, and taking control and responsibility for your life. Practicing self-determination also means you are responsible for making decisions and managing your services.

People with intellectual and developmental disabilities have the same right to self-determination as all people and are entitled to the freedom, authority, and supports to exercise control over the things in life that are important to them, to the degree that they desire.

Self-direction, sometimes called consumer-direction or participant-direction, gives you the freedom to choose the services and supports you need to live independently. The core functions of self-direction are **choice** and **control** over how your services are provided and who is being paid to provide these services.

This is a manual for people who are interested in self-directing their Medicaid waiver services using the Self-Directed Services delivery model. It is also a resource for people who are currently self-directing their services. This manual will help you understand the ways you can receive services and the DDA's guidance and standards related to those services.

The version of this manual was published on October 24, 2024. The most recent version of the manual can be found on the DDA's website at <https://health.maryland.gov/dda/Pages/sdforms.aspx>.

I. Self-Directed Services

- A. Self-Directed Services give Medicaid waiver participants greater control over the services they receive, how they receive them, and who provides them. At the same time, people who self-direct must be willing to take on the responsibility of managing their services.

► Revised Date: May 16, 2025
► Effective Date: May 16, 2025

For services you choose to self-direct, you have additional responsibility including:

1. Participants are the common law employer for the employees who deliver and oversee their services;
2. Participants are in control of an allocated budget which is a fixed dollar amount for the purchase of services and supports available under the DDA-operated Medicaid waiver programs;
3. Participants select employees, vendors and providers and arrange for services and supports as authorized in the Person-Centered Plan;
4. Participants set wages within a reasonable and customary range and the DDA-approved budget;
5. Participants are accountable for using their service budget to effectively meet needs and efficiently use public dollars; and
6. Participants hire, train, supervise, and fire employees.

B. These kinds of supports are available to participants who self-direct:

1. Participants will work with a Coordinator of Community Services to guide them through the process of self-directing their services;
2. Participants have the option of utilizing a Support Broker to assist with employer responsibilities; and
3. Participants will work with a Financial Management and Counseling Services provider to assist with budget and payment responsibilities (required for participation in the Self-Directed Services model).

C. Self-Directed Services are offered in the DDA-operated Medicaid waiver programs:

1. Community Pathways Waiver;
2. Community Supports Waiver; and

► Revised Date: May 16, 2025 ► Effective Date: May 16, 2025

3. Family Supports Waiver.

D. In order to self-direct, the participant must:

1. Be enrolled in a DDA-operated Medicaid waiver program, which include the Family Supports, Community Supports, and Community Pathways Waivers;
2. Explore and understand the responsibilities to be the employer of record and have budget and employer authorities. This process will also allow the participant to determine the supports they may need to use these authorities;
3. Be willing to participate in the planning process to determine service needs and estimated budget;
4. Be able to participate in the self-direction option without a lapse or decline in the quality of the participant's care or increased risk to their health and welfare;
5. Understand the rights, roles, and responsibilities of being the employer for services and managing the budget according to the Person-Centered Plan; and
6. Be able to manage their own budget and employees and/or identify one person or more than one person who can assist them to make decisions, or make decisions on their behalf, based on what is best for the participant. The participant can get assistance with this from the Coordinator of Community Services.

II. Self-Directed Services Training

A. DDA's Self-Directed Services webinars are training for all people interested in Self-Directed Services.

1. The purpose of these trainings is to support individuals and families to make an informed choice on the service delivery

► Revised Date: May 16, 2025
► Effective Date: May 16, 2025

model and fully understand their role and responsibilities under Self-Directed Services.

2. Current participants may also attend.

- B. Additional training will be provided for Coordinators of Community Services, Support Brokers, Financial Management and Counseling Services providers, vendors, DDA Providers, and Department staff.

III. **Choosing Self-Directed Services**

A. Once a participant has chosen to self-direct their services, they should alert their Coordinator of Community Services and enroll with a Financial Management and Counseling Services provider.

B. Following this communication with the Coordinator of Community Services:

1. A Self-Directed Services Person-Centered Plan must be submitted by the Coordinator of Community Services in *LTSSMaryland*.
2. The Coordinator of Community Services will complete a **Financial Management and Counseling Services Referral** in *LTSSMaryland* based on the Financial Management and Counseling Services provider the participant has chosen.

IV. **Financial Management and Counseling Services Providers**

A. Financial Management and Counseling Services providers are required to support participants using the Self-Directed Services model. The Financial Management and Counseling Services provider assists the participant in using their budget authority and, if applicable, employer authority. Services provided by Financial Management and Counseling Services providers include, but are not limited to:

► Revised Date: May 16, 2025
► Effective Date: May 16, 2025

- 
1. Processing claims for payment for Medicaid waiver program services in accordance with the participant's self-directed budget allocation; and
 2. Verifying that DDA providers, vendors, or direct support staff meet all qualifications to provide the Medicaid waiver program service.
- B. All participants who self-direct their services may choose which Financial Management and Counseling Services provider to use.
- C. The DDA has a dedicated webpage for Financial Management and Counseling Services providers for participants and their teams to review: [Financial Management and Counseling Services](#)
- D. Each Financial Management and Counseling Services provider has information about their services on their website:
1. [GT Independence](#)
 2. [Public Partnerships, LLC](#)
 3. [The Arc Central Chesapeake Region](#)
- E. New and updated information will also be posted to the DDA and Financial Management and Counseling Services webpages.
- F. Financial Management and Counseling Services Referral
1. Once a participant chooses a Financial Management and Counseling Services provider, the Coordinator of Community Services must complete the *LTSSMaryland* Financial Management and Counseling Services Referral.
 2. A Financial Management and Counseling Services Referral is required in *LTSSMaryland* when a participant chooses a Financial Management and Counseling Services provider for the first time and when a participant changes Financial Management and Counseling Services providers.
 - a) The Coordinator of Community Services will indicate the participant's choice in the *LTSSMaryland*

Self-Direction Referral form along with the effective date.

Reference: [Financial Management and Counseling Services Training Guide for Self Direction - Assigning an Financial Management and Counseling Services Provider to a Client](#)

- b) The service referral is sent to the Financial Management and Counseling Services provider once the LTSS *Maryland* Self-Direction Referral form is saved and submitted.
- c) For participants changing Financial Management and Counseling Services providers:
 - (1) The participant may request a change in Financial Management and Counseling Services provider at any time.
 - (2) The Financial Management and Counseling Services provider change effective date must give the outgoing and incoming Financial Management and Counseling Services providers at least 30 calendar days' notice of the change in Financial Management and Counseling Services provider.
 - (a) In order to minimize possible delays of employee payroll, participants should consider transferring to a new Financial Management and Counseling Services provider on the date at the beginning of a new pay period.
 - (b) The DDA may support participants and their teams to transition in fewer than 30 calendar days in emergency circumstances.

▶ Revised Date: May 16, 2025 ▶ Effective Date: May 16, 2025

- (c) The new Financial Management and Counseling Services provider will request a "Transition File" directly from the previous Financial Management and Counseling Services provider for the participant and their employees. The Transition File will allow the participant and their employees to be set up with the new Financial Management and Counseling Services provider. This means that most tax forms and documents will not need to be re-created with the new Financial Management and Counseling Services provider. All previous approved Wage Exception Forms must be included during a Financial Management and Counseling Services provider transfer.
- (d) The new Financial Management and Counseling Services provider will make sure all paperwork required for onboarding the participant and their employees is on file, and if paperwork is missing, the new Financial Management and Counseling Services provider will reach out to the participant and team.

d) For participants new to self-direction:

- (1) The initial LTSS*Maryland* Self-Direction Referral form should be completed as soon as the participant indicates their choice.

3. Financial Management and Counseling Services Effective Date

- a) The Financial Management and Counseling Services provider selection effective date must be the same date as the date of the service referral in LTSS*Maryland*.

► Revised Date: May 16, 2025
► Effective Date: May 16, 2025

- b) Therefore, the effective date can be any day during the year. See the screenshot below:

The screenshot shows a web form titled "Referral". Under the "Referred To Information" section, the "Referred To" dropdown is set to "Self-Direct". The "FMCS Selection" section contains the following fields: "Create Date" (1/27/2022), "Create by" (Quinones, Nicolas), "Reason for Selection" (a text area), "FMCS Provider Agency" (Test Training Agency 1), "Effective Date" (01/24/2022), and "End Date" (empty). At the bottom, there is an "Attestation" section with a statement: "I have confirmed with the participant and other MDH HCBS programs' assigned case managers of the participant's FMCS Provider of choice". The "Yes" radio button is selected.

Note: After enrollment in Self-Directed Services, future changes of Financial Management and Counseling Services provider can be completed at any time. The LTSS Maryland Financial Management and Counseling Services provider assignment should be made at least 30 calendar days from the new Effective Date.

- c) If the Coordinator of Community Services inputs an effective date less than or equal to the current system date, the transfer will take effect immediately. The system will assign an expiration date to the previous Financial Management and Counseling Services provider one day less than the effective date of the new Financial Management and Counseling Services provider to avoid overlap.
- d) If the effective date for the new assignment is set to a future date, then the record will be listed as Pending as seen in the screenshot below:

► Revised Date: May 16, 2025
► Effective Date: May 16, 2025

xvi. Completing Self-Directed Services Forms

A. Self-Directed Services Budget Sheet

► Revised Date: May 16, 2025
► Effective Date: May 16, 2025

1. The Self-Directed Services Budget Sheet should be completed by the participant and their team.
2. Creation of the Self-Directed Services Budget Sheet must be facilitated by the participant's Coordinator of Community Services.
3. The Self-Directed Services Budget Sheet is a fillable Microsoft Excel spreadsheet that captures information related to the Person-Centered Plan's approved services and amount and the chosen rates of pay within the established [reasonable and customary](#) ranges. The sheet is designed to help a participant develop and stay within their allocated budget. Yellow spaces within the sheet may be filled in. White spaces will auto calculate and cannot be changed.
4. It is important to note that participants are not required to allocate their entire budget. Presently, the DDA is paying for administrative costs associated with Coordinators of Community Services, which will not come out of the participant's budget. The cost associated with Financial Management and Counseling Services monthly services fees will come from the participant's approved budget allocation. Therefore, participants should consider their current assessed needs as authorized in their Person-Centered Plan and [reasonable and customary](#) rates when developing their Self-Directed Services Budget Sheet and may decide to offer future pay increases or benefits.
5. Completing the Self-Directed Services Budget Sheet

I and my representative understand that this is an unpaid position, and that the acceptance of this position will prohibit this representative from working for me in a paid capacity under any waiver service category. We further understand that if this designated representative is a relative (i.e., my parent, stepparent or sibling) no other relative (parent, stepparent or sibling) can work as paid staff for me under self-direction, per the rules outlined in DDA's waiver programs. Individuals who will assist me under Option 3 with specific tasks are noted on page 5 of the document.

(1) The Coordinator of Community Services cannot be an individual who assists with any of these tasks.

8. A participant may have a legal guardian who does not have the authority to make these types of decisions for that person (i.e., a participant may have a legal guardian for certain financial purposes but may still retain their right to make employer and budget decisions for Medicaid waiver services). Current best practices in guardianship are to allow people to make decisions which they have the capacity to make, so all options and choices should be explored.
