Introduction

The Maryland Department of Health Developmental Disabilities Administration (DDA) supports participants' rights to self-determination and choice to self-direct their Medicaid waiver services.

Self-determination means making your own choices, learning to effectively solve problems, and taking control and responsibility for your life. Practicing self-determination also means you are responsible for making decisions and managing your services.

People with intellectual and developmental disabilities have the same right to self-determination as all people and are entitled to the freedom, authority, and supports to exercise control over the things in life that are important to them, to the degree that they desire.

Self-direction, sometimes called consumer-direction or participant-direction, gives you the freedom to choose the services and supports you need to live independently. The core functions of self-direction are **choice** and **control** over how your services are provided and who is being paid to provide these services.

This is a manual for people who are interested in self-directing their Medicaid waiver services using the Self-Directed Services Delivery Model. It is also a resource for people who are currently self-directing their services. This manual will help you understand the ways you can receive services and the DDA's guidance and standards related to those services.

The version of this manual was published on May 11, 2026. The most recent version of the manual can be found on the DDA's website at https://health.maryland.gov/dda/Pages/sdforms.aspx.

I. Self-Directed Services

A. Self-Directed Services give Medicaid waiver participants greater control over the services they receive, how they receive them, and who provides them. At the same time, people who self-direct must be willing to take on the responsibility of managing their services. For services you choose to self-direct, you have additional responsibility including:

1. Participants are the common law employer for the employees who deliver and oversee their services;

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026

2. Participants are in control of an allocated budget which is a fixed dollar amount for the purchase of services and supports available under the DDA-operated Medicaid waiver programs;

3. Participants select employees, ~~vendors~~ individual providers, and providers and arrange for services and supports as authorized in the Person-Centered Plan;

4. Participants set wages within a reasonable and customary range and the DDA-approved budget;

5. Participants are accountable for using their service budget to effectively meet needs and efficiently use public dollars; and

6. Participants hire, train, supervise, and fire employees.

B. These kinds of supports are available to participants who self-direct:

1. Participants will work with a Coordinator of Community Services to guide them through the process of self-directing their services;

2. Participants have the option of utilizing a Support Broker to assist with employer responsibilities; and

3. Participants will work with a Financial Management and Counseling Services provider to assist with budget and payment responsibilities (required for participation in the Self-Directed Services model).

C. Self-Directed Services are offered in the DDA-operated Medicaid waiver program, the Community Pathways Waiver. All participants have access to an array of support services, meaningful day services, and residential services based on assessed need.

D. In order to self-direct, the participant must:

1. Be enrolled in the DDA-operated Medicaid waiver program (Community Pathways).

2. Explore and understand (with or without support) the responsibilities to be the employer of record and have budget and

employer authorities. This process will also allow the participant to determine the supports they may need to use these authorities;

3. Be willing to participate in the planning process to determine service needs and estimated budget;

4. Be able to participate in the self-direction option without a lapse or decline in the quality of the participant's care or increased risk to their health and welfare;

5. Understand the rights, roles, and responsibilities (with or without support) of being the employer for services and managing the budget according to the Person-Centered Plan; and

6. Be able to manage their own budget and employees and/or identify one person or more than one person who can assist them to make decisions, or make decisions on their behalf, based on what is best for the participant. The participant can get assistance with this from others.

II. Self-Directed Services Training

A. DDA's Self-Directed Services webinars are training for all people interested in Self-Directed Services.

   1. The purpose of these trainings is to support individuals and families to make an informed choice on the service Delivery Model and fully understand their role and responsibilities under Self-Directed Services.

   2. Current participants may also attend.

B. Additional training will be provided for Coordinators of Community Services, Support Brokers, Financial Management and Counseling Services providers, ~~vendors~~ individual providers, DDA Providers, and Department staff. All training resources will be updated and available based on policy and guidance change.

C. Self-Directed Services Orientation

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026

1. The Self-Directed Services Orientation will make sure participants, their families, and other team members understand the rights and responsibilities of the Self-Directed Services Delivery Model. The orientation helps participants and teams be as prepared as possible to begin self-direction.

2. DDA Self-Directed Services Orientation is required for all new applicants interested in self-directing their services and participants using the Provider Managed Service Delivery Model interested in the Self-Directed Services Delivery Model.

    a) Participants enrolled in the Medicaid waiver with an effective date of October 6, 2025 through December 31, 2025, must complete the orientation by or before March 31. If not completed by March 31, 2026, the participant will be transitioned to the Provider-Managed Service Delivery Model.

3. Participants enrolled in the waiver with an effective date of January 1, 2026 or later must complete the orientation before beginning self-directed services.

4. This DDA Self-Directed Services Orientation must be completed before enrollment in the Self-Directed Services Delivery Model.

5. The DDA Self-Directed Services Orientation consists of the first three modules of the Self-Directed Services Training Series:

    a) Module 1: Self-Direction Overview;

    b) Module 2: The Self-Directed Services Team; and

    c) Module 3: Person-Centered Planning.

6. When a participant is interested in the Self-Directed Services model, they must notify their Coordinator of Community Services.

7. The Coordinator of Community Services will schedule a meeting to complete the orientation with the participant.

    a) The participant may invite any team member they would like to be present for the orientation.

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026

b) The participant will choose if the orientation meeting will be in-person or virtual. In-person meetings are highly recommended.

c) The meeting should be scheduled for at least 2 hours. This time allows participants to have breaks between the modules.

d) The DDA Self-Directed Services Orientation must be scheduled within 10 business days of the participant's request.

8. During the orientation meeting, the Coordinator of Community Services will:

    a) Play the video of each module;

    b) Review the Orientation Frequently Asked Questions Tool;

    c) Share the contact information of the DDA Regional Office Self-Directed Services staff in the participant's region so that the team may contact them with any outstanding questions they may have; and

    d) Complete a Self-Directed Services Orientation Checklist with the participant to show that the orientation was completed.

9. After the orientation meeting, the participant can contact the DDA Regional Office Self-Directed Services staff in their region via email or phone to ask any questions they have about the Self-Directed Services model.

10. After the orientation meeting, the Coordinator of Community Services will upload the completed Self-Directed Services Orientation Checklist into *LTSSMaryland* in the "FMCS Documents Client Attachments - Self-Direction Documents" section for the participant. Note: Effective October 6, 2025, "FMCS Documents" will be renamed to "Self-Direction Documents".

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026

III. Choosing Self-Directed Services

A. Once a participant has chosen to self-direct their services, they must alert their Coordinator of Community Services and enroll with a Financial Management and Counseling Services provider.

B. Following this communication with the Coordinator of Community Services:

1. The Self-Directed Services Orientation must be completed with the participant, chosen team members, and the participant's Coordinator of Community Services.

2. A Self-Directed Services Person-Centered Plan must be submitted by the Coordinator of Community Services in LTSS*Maryland*.

3. The Coordinator of Community Services will complete a **Financial Management and Counseling Services Referral** in LTSS*Maryland* based on the Financial Management and Counseling Services provider the participant has chosen.

IV. Financial Management and Counseling Services Providers

A. Financial Management and Counseling Services providers are required to support participants using the Self-Directed Services model. The Financial Management and Counseling Services provider assists the participant in using their budget authority and, if applicable, employer authority. Services provided by Financial Management and Counseling Services providers include, but are not limited to:

1. Processing claims for payment for Medicaid waiver program services in accordance with the participant's self-directed budget allocation; and

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026

2. Verifying that DDA providers, ~~vendors~~ individual providers, or direct support staff meet all qualifications to provide the Medicaid waiver program service.

B. All participants who self-direct their services may choose which Financial Management and Counseling Services provider to use.

C. The DDA has a dedicated webpage for Financial Management and Counseling Services providers for participants and their teams to review: Financial Management and Counseling Services

D. Each Financial Management and Counseling Services provider has information about their services on their website:

1. GT Independence
2. Public Partnerships, LLC
3. Fello.

E. New and updated information will also be posted to the DDA and Financial Management and Counseling Services webpages.

F. Financial Management and Counseling Services Referral

1. Once a participant chooses a Financial Management and Counseling Services provider, the Coordinator of Community Services must complete the LTSS*Maryland* Financial Management and Counseling Services Referral.
2. A Financial Management and Counseling Services Referral is required in LTSS*Maryland* when a participant chooses a Financial Management and Counseling Services provider for the first time and when a participant changes Financial Management and Counseling Services providers.
    a) The Coordinator of Community Services will indicate the participant's choice in the LTSS*Maryland* Self-Direction Referral form along with the effective date.

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026

Reference: Financial Management and Counseling Services Training Guide for Self Direction - Assigning an Financial Management and Counseling Services Provider to a Client

b) The service referral is sent to the Financial Management and Counseling Services provider once the LTSS*Maryland* Self-Direction Referral form is saved and submitted.

c) For participants changing Financial Management and Counseling Services providers:

(1) The participant may request a change in Financial Management and Counseling Services provider at any time.

(2) The Financial Management and Counseling Services provider change effective date must give the outgoing and incoming Financial Management and Counseling Services providers at least 30 calendar days' notice of the change in Financial Management and Counseling Services provider.

(a) In order to minimize possible delays of employee payroll, participants should consider transferring to a new Financial Management and Counseling Services provider on the date at the beginning of a new pay period.

(b) The DDA may support participants and their teams to transition in fewer than 30 calendar days in emergency circumstances.

(c) The new Financial Management and Counseling Services provider will request a "Transition File" directly from the previous Financial Management and Counseling Services provider for the

participant and their employees. The Transition File will allow the participant and their employees to be set up with the new Financial Management and Counseling Services provider. This means that most tax forms and documents will not need to be re-created with the new Financial Management and Counseling Services provider. All previous approved Wage Exception Forms must be included during a Financial Management and Counseling Services provider transfer.

(d) The new Financial Management and Counseling Services provider will make sure all paperwork required for onboarding the participant and their employees is on file, and if paperwork is missing, the new Financial Management and Counseling Services provider will reach out to the participant and team.

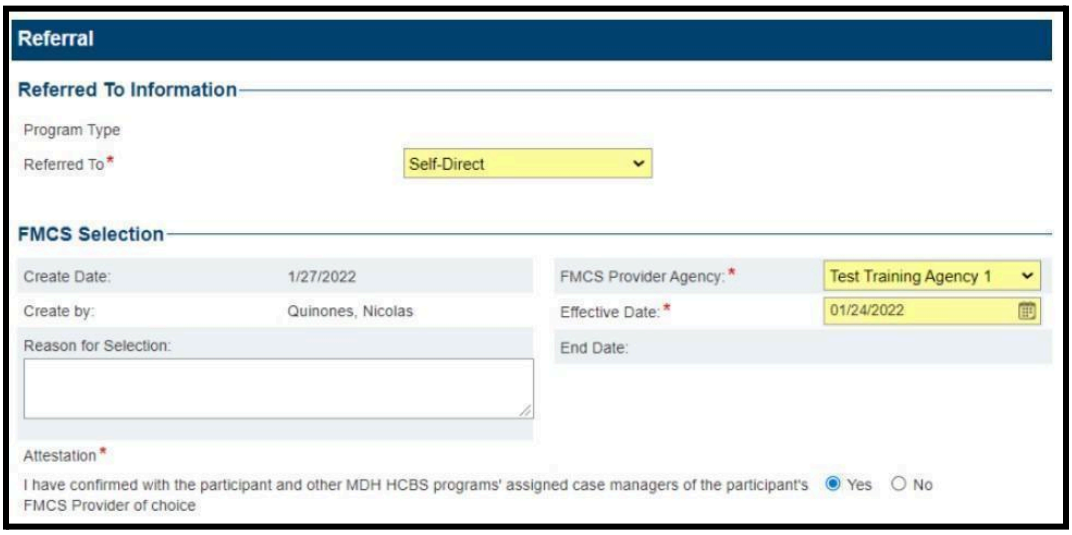
d) For participants new to self-direction: The initial LTSS*Maryland* Self-Direction Referral form should be completed as soon as the participant indicates their choice.

3. Financial Management and Counseling Services Effective Date

a) The Financial Management and Counseling Services provider selection effective date must be the same date as the date of the service referral in LTSS*Maryland*.

b) Therefore, the effective date can be any day during the year. See the screenshot below:

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026

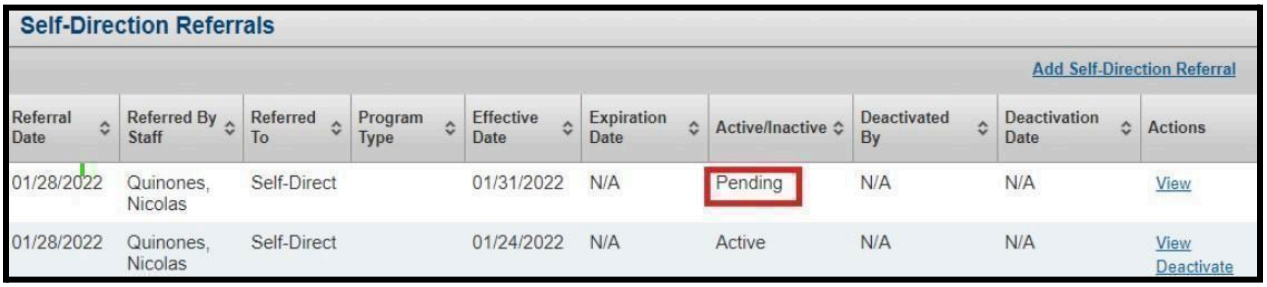


Note: *After enrollment in Self-Directed Services, future changes of Financial Management and Counseling Services provider can be completed at any time. The LTSSMaryland Financial Management and Counseling Services provider assignment should be made at least 30 calendar days from the new Effective Date.*

c) If the Coordinator of Community Services inputs an effective date less than or equal to the current system date, the transfer will take effect immediately. The system will assign an expiration date to the previous Financial Management and Counseling Services provider one day less than the effective date of the new Financial Management and Counseling Services provider to avoid overlap.

d) If the effective date for the new assignment is set to a future date, then the record will be listed as Pending as seen in the screenshot below:

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026



e) If the effective date for the new Financial Management and Counseling Services provider is set to a future date, and the participant changes their mind, the Coordinator of Community Services can discard the transfer request prior to it becoming effective.

4. Financial Management and Counseling Services Provider LTSS*Maryland* Alert

a) When the LTSS*Maryland* Self-Direction referral is submitted, staff of the selected Financial Management and Counseling Services provider will receive an alert letting them know that their agency has been selected.

b) The Financial Management and Counseling Services provider will get a single alert on the date of the service referral.

c) The Financial Management and Counseling Services provider will be able to access information about the participant immediately through the alert message.

G. Financial Management and Counseling Services Provider Transfer Process

1. During a Financial Management and Counseling Services provider transfer, certain forms and documents need to be shared with the new Financial Management and Counseling Services provider.

3. Self Directed Budget Sheet

a) For the Financial Management and Counseling Services provider transfer, participants must complete the most current version of the Self-Directed Services Budget Sheet.

b) If the participant's current Budget Sheet uses an outdated version, a new Budget Sheet must be completed.

4. The Financial Management and Counseling Services provider that the participant is currently using must send the participant's newly chosen Financial Management and Counseling Services provider the following documentation:

- Revised Date: May 11, 2026
- Effective Date: May 11, 2026

c) All previous approved Wage Exception Forms must be included during a Financial Management and Counseling Services provider transfer.

5. The new Financial Management and Counseling Services provider is responsible for orienting the participant to its processes and setting up the participant's employees for clearance to work. The Financial Management and Counseling Service provider will keep working with the participant and team after the 24 hours to resolve any issues.

participants by directly managing the receipt of authorized services and making sure providers are qualified.

This process must begin with any new service, good, or item that needs to be bought for a participant on or after October 6, 2025. This means that the Financial Management and Counseling Services providers may not reimburse family members or other team members for Individual and Family Directed Goods and Services (Other Goods and Services) after October 6, 2025.

XVI. Completing Self-Directed Services Forms

A. Self-Directed Services Budget Sheet - The Self-Directed Services Budget Sheet was updated with changes beginning on October 6, 2025. It should be used when a new or updated budget sheet is needed.

1. The Self-Directed Services Budget Sheet should be completed by the participant and their team.

2. Creation of the Self-Directed Services Budget Sheet must be facilitated by the participant's Coordinator of Community Services.

3. The Self-Directed Services Budget Sheet is a fillable Microsoft Excel spreadsheet that captures information related to the Person-Centered Plan's approved services and amount and the chosen rates of pay within the established reasonable and customary ranges. The sheet is designed to help a participant develop and stay within their allocated budget. Yellow spaces within the sheet may be filled in. White spaces will auto calculate and cannot be changed.

4. It is important to note that participants are not required to allocate their entire budget. Presently, the DDA is paying for administrative costs associated with Coordinators of Community Services, which will not come out of the participant's budget. The cost associated with Financial Management and Counseling Services monthly services fees will come from the participant's approved budget allocation. Therefore, participants should consider their current assessed needs as authorized in their Person-Centered Plan and reasonable and customary rates when developing their Self-Directed Services Budget Sheet and may decide to offer future pay increases or benefits.

1. The Self-Directed Services Participant Agreement documents both the participant's request for assistance in self-directing their services, and the team members' agreement to assist and support with the specific work or tasks described in the Agreement.

2. The agreement begins and lasts (or is in use) for 12 months, or up to one calendar year, from the date of last signature by the participant and all team members named in the document.

3. The agreement may be ended or terminated at any time by the participant along with their team. The participant or their team must provide written notice, such as a letter or email, to the participant's Coordinator of Community Services and team members, if the agreement is ended or terminated.

4. The participant must meet all of the requirements listed in the agreement.

    a) The participant's Coordinator of Community Services must assist the participant and their team to complete this agreement per the participant's preferences and best interests.

c) The Coordinator of Community Services must review this document with the participant on a quarterly basis to:

(1) Make sure that the team members are those that the participant chooses, and

(2) Confirm that each team member's agreement to assist and support the participant as stated in the document is current.

d) The Coordinator of Community Services must make sure that the participant's team roles and responsibilities do not conflict with program requirements and rules.

    a) Option 1: I, the participant, choose myself as the primary person responsible for managing my employer authority and budget authority under the Self-Directed Services Delivery Model. (This option is available for anyone over the age of 18 years old).

    b) Option 2: I, the participant, choose to appoint a designated representative. My representative will be responsible for ALL of the items in this agreement. I and my representative understand that this is an unpaid position, and that the acceptance of this position will prohibit this representative from working for me in a paid capacity under any waiver service category. We further understand that if this designated representative is legally responsible person, legal guardian, or relative (natural/adoptive parent, step-parent, grandparent, step-grandparent, child stepchild, sibling, step-sibling, aunt, uncle, niece, or nephew), no other legally responsible person, legal guardian, or relative may provide waiver services under self-direction, per the rules outlined in DDA's waiver programs. The individual who will be serving as my designated representative under this option is: [the participant must list their Designated Representative]; or

**Note: A Designated Representative is required for all participants under the age of 18.* This option is available for anyone over the age of 18 years old.

    c) Option 3: I, the participant, choose to appoint the following individuals, who are part of my Person-Centered Plan team (including paid and unpaid team members), to assist me with specific tasks related to my roles and responsibilities under self-direction. No individual listed below shall in any way be considered as my Designated Representative, and their assistance with these tasks will in no way restrict their ability to work for me in a paid capacity under any waiver service

category. Additionally, this option also allows me to hire other relatives in a paid capacity even if a relative is listed as my support for one or more of the following tasks. Individuals who will assist me under Option 3 with specific tasks are noted on page 5 of the document. (This option is available for anyone over the age of 18 years old).

(1) The Coordinator of Community Services cannot be an individual who assists with any of these tasks.

8. A participant may have a legal guardian who does not have the authority to make these types of decisions for that person (i.e., a participant may have a legal guardian for certain financial purposes but may still retain their right to make employer and budget decisions for Medicaid waiver services). Current best practices in guardianship are to allow people to make decisions which they have the capacity to make, so all options and choices should be explored.
