#### Q. Virtual supports

- 1. Virtual supports is an electronic method of service delivery.
- 2. The purpose of virtual supports is to maintain or improve a participant's functional abilities, enhance interactions, support meaningful relationships, and promote his/hertheir ability to live independently, and meaningfully participate in their community.
- 3. Direct support can be provided via virtual <u>_</u>Remote support/supports provided however that the virtual supports meet all of the following requirements:
  - a. The virtual supports ensure the participant's rights of privacy, dignity and respect, and freedom from coercion and restraint.
  - b.The virtual supports do not isolate the participant from the community or interacting with people without disabilities.
  - c. The participant has other opportunities for integration in the community via the other Waiver program services the participant receives and are provided in community settings.
  - d.The use of virtual supports to provide direct support has been agreed to by the participant and their team and is outlined in the Person-Centered Plan;
    - i. Participants must have an informed choice between in person and virtual supports;
    - ii. Virtual supports cannot be the only service delivery provision for a participant seeking the given service; and
    - iii. Participants must affirmatively choose virtual service provision over inperson supports

- e. Virtual supports is not, and will not be, used for the provider's convenience. The virtual supports must be used to support a participant to reach identified outcomes in the participant's Person-Centered Plan;
- f. The use of virtual supports must be documented appropriately, just like any inperson direct supports, and identify the service delivery method (e.g., Skype, Zoom, Facetime, telephonic, or direct care), name of staff person providing service, and start and end times.
- g. The virtual supports must be delivered using a live, real-time audio-visual connection that allows the staff member to both see and hear the participant. Text messaging and e-mailing do not constitute virtual supports and, therefore, will not be considered provision of direct supports under this Waiver program service.
- h.The virtual supports must comply with the requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), as amended by the Health Information Technology for Economic and Clinical Health (HITECH) Act, and their applicable regulations to protect the privacy and security of the participant's protected health information.
- i. This Waiver program service may not be provided entirely via virtual supports. Virtual supports may supplement in-person direct supports.
- j. Virtual supports, including use of phones, cannot be used to assess a participant for a medical emergency. The provider must develop and maintain written policies, train direct support staff on those policies, and advise participants and their personcentered planning team regarding those policies that address:
  - i. Identifying whether the participant's needs, including health and safety, can be addressed safely via virtual supports;
  - ii. Identifying individuals to intervene (such as uncompensated caregivers present in the participant's home), and ensuring they are present during

 Processes for requesting such intervention if the participant experiences an emergency during provision of virtual supports, including contacting 911 if necessary.

k.The virtual supports meets all federal and State requirements, policies, guidance, and regulations.

<u>Personal Supports overnight supports cannot be provided virtually.</u>

a. How the provider will ensure the participant's rights of privacy, dignity and respect, and freedom from coercion and restraint;

b.How the provider will ensure the virtual supports used meets applicable information security standards; and

e.How the provider will ensure its provision of virtual supports complies with applicable laws governing individuals' right to privacy.

5. Providers furnishing this Waiver program service via virtual supports must include these virtual supports as a service delivery method in their provider Program Service Plan, required by COMAR Title 10, Subtitle 22. Current providers must submit an amendment to their current Program Service Plan to the DDA Regional Office and receive approval prior to implementing virtual supports outside of the Appendix K authority.

4. The Waiver program will not fund any costs associated with the provider obtaining, installing, implementing, or using virtual supports, such as equipment, internet, software applications, and other related expenses. These costs, in the delivery of new business models, are part of the provider's operating cost;

- N. Prior to accessing DDA funding for this service, all other available and appropriate funding sources, including but not limited to those offered by Maryland Medicaid State Plan, Division of Rehabilitation Services ("DORS"), State Department of Education, and Department of Human Services, must be explored and exhausted to the extent applicable. These efforts must be documented in the participant's file.
  - <u>1. These efforts must be documented in the participant's file.</u>
  - 2. If these services are deemed by the participant's person-centered planning team to be inappropriate to meet the specific needs of the participant, the exploration efforts and reasons that these services do not meet the participant's needs shall be documented in the participant's person-centered plan. The DDA has authority to determine if further efforts must be made, and documented, prior to authorization of funding for the service under the Waiver program.
- O. For participants enrolled in the self-directed services delivery model, this Waiver program service includes:

This section describes the minimum background check and investigation requirements for providers under applicable law. A provider may opt to perform additional checks and investigations as it sees fit.

**Criminal Background Checks** 

State:	
Effective Date	

Page 457 of 487

The DDA is seeking to update its regulations regarding Criminal Background Checks, as provided in this Section a, with a target date of July 2023. The draft regulations, will be subject to notice and comment and other applicable requirements as provided in Maryland's Administrative Procedure Act, codified in Title 10, Subtitle 1 of the State Government Article, prior to finalization. Therefore, the draft regulations, set forth below, may be amended to comply with those requirements.

In the meantime, the current regulations will remain in effect and continue to apply to services covered under this Waiver. The draft regulations, as amended, will apply to services covered under this Waiver once they are effective.

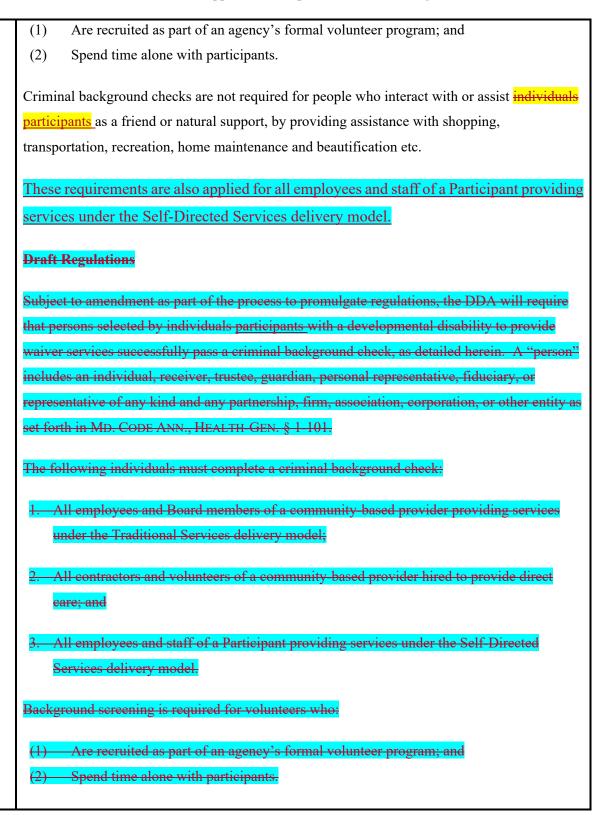

#### **Current Regulations**

The DDA's regulation requires specific providers have criminal background checks prior to services delivery. DDA's regulations also require that each DDA-licensed and DDA-certified community-based providers complete either: (1) a State criminal history records check via the Maryland Department of Public Safety's Criminal Justice Information System; or (2) a National criminal background check via a private agency, with whom the provider contracts. If the provider chooses the second option, the criminal background check must pull court or other records "in each state in which [the provider] knows or has reason to know the eligible employee [or contractor] worked or resided during the past 7 years." The same requirements are required for participants self-directing services as indicated within each service qualification.

The DDA-licensed and certified provider must complete this requirement for all of the provider's employees and contractors hired to provide direct care. If this background check identifies a criminal history that "indicate[s] behavior potentially harmful" to <u>individuals</u>-participants receiving services, then the provider is prohibited from employing or contracting with the individual. See Code of Maryland Regulations (COMAR) 10.22.02.11, Maryland Annotated Code Health-General Article § 19-1901 et seq., and COMAR Title 12, Subtitle 15. <u>COMAR</u> 10.22.02.11B also provides the DDA discretion to prevent individuals from providing services.

Background screening is required for volunteers who:

<mark>Р</mark> т	blic Safety and Correctional Services; or
2. Be	e performed by a private agency, meeting certain criteria regarding, their qualifications,
<mark>th</mark>	e scope of the background check, and whether alerts will be required.
Please	note the DDA is in discussion regarding criteria for appropriate private agency(ies)
require	ement(s) for performing criminal background checks, which will be promulgated in the
update	ed regulations.
An inc	lividual will have successfully passed his or her criminal background check if he or she

to a felony, crime of moral turpitude (including fraud), theft, financial crimes against a vulnerable adult, or abuse or neglect of a child or vulnerable adult and such final judgment was not entered 10 years ago or less from the date of the individual's application.

If an alert later notifies the community-based provider or Fiscal Management Services<u>Financial Management and Counseling Services</u> provider that the individual has received subsequently a final judgment that does not meet the requirements to successfully pass a criminal background check, then: (1) he or she must be removed immediately from direct contact with an individual with a developmental disability; and (2) his or her employment, contract, or Board membership must be terminated promptly.

If an individual knowingly submits false information for his or her criminal background check, then he or she will be disqualified automatically from serving an individual with a developmental disability and will not be permitted to apply again for a period of five years from the date of the initial application containing the false information.

Participants enrolled in DDA's Self-Directed Services delivery model may request that DDA waive these criminal background check requirements. DDA may permit waiver of the criminal background check requirements *only if* the criminal background check indicates behavior that would not be potentially harmful to an individual with a developmental disability.

#### **Child Protective Services Background Clearance**

The State also maintains a Centralized Confidential Database that contains information about child abuse and neglect investigations conducted by the Maryland State Local Departments of Social Services. Staff engaging in one-to-one interactions with children under the age of 18 must have a Child Protective Services Background Clearance.

#### State Oversight of Compliance with These Requirements

The DDA, OLTSS, and OHCQ review providers' records for completion of criminal background checks, in accordance with these requirements, during surveys, site visits, and investigations. Annually the DDA will review Fiscal Management ServicesFinancial Management and Counseling Services providers' records for required background checks of
