Continuing Education Requirements During the COVID-19 Catastrophic Health Emergency

The COVID-19 pandemic has affected continuing education requirements since there are virtually no live course presentations.

During the pandemic dentists and dental hygienists are still required to complete 30 hours of continuing education as a requirement for license renewal. During the pandemic, licensees may complete all course requirements on-line. Thus, all live courses, webinar courses, and self-study courses will be considered equally for this requirement. Please keep in mind that as in the past, all course work must be Board-approved.

Virtual CPR coursework may also be considered as the equivalent of live CPR.

The Board will continue to monitor this protocol and promptly inform our licensees of any modifications.

Thank you.
