Strategies to Improve Utilization of Incentives

• Increased Marketing of Incentives (social media, marketing materials, one on one’s, etc.)
• Ensuring that Providers know that incentives are available and understand them (i.e. presentations and webinars)
• Utilization of the correct incentives
• Clarity around tax credits (letters of support)
Additional HEZ Incentives

• HEZ funds can be used to support incentive payments (hiring bonuses)

• Payments can be supported by re-allocating existing budget (via a grant modification request) or request in future HEZ budgets (years three and four)

• Grant modification must be approved by CHRC

• HEZ Practitioners will be held to statutory requirements (i.e. Cultural competency, must accept Medicare/Medicaid etc.)
Next Steps

• DHMH and CHRC are happy to facilitate a technical assistance call with each zone to understand incentive usage and concerns.

• Do the HEZ’s have any new innovative ways to recruit and retain providers?

• DHMH and CHRC are open to potential new ideas!
