

# THE IAC/S BULLETIN

Updates from the Office of Internal Controls, Audit Compliance & Information Security

## IAC expands to IAC/S

MDH has further expanded the Secretary's Office of Internal Controls and Audit Compliance to include Information Security (InfoSec). As of June 2022, the Office of Internal Controls, Audit Compliance & Information Security (IAC/S) includes the following units: Audit Follow-Up, Audit Liaison, Compliance and Privacy, the Institutional Review Board, Strategic Data Initiative (added in 2021), Information Security, and Operations, Technology, and Risk Assessment. By aligning these units under the IAC/S, MDH will be able to better respond to all risks to MDH data and systems. This adds to the current IAC/S responsibilities of helping to ensure that MDH operational units comply with legal, regulatory, and policy requirements, and promptly address internal control weaknesses identified in audits or other reviews.

## What is information security?

Stay tuned for our next bulletin to learn all about the MDH Information Security (InfoSec) Program!
