Dear Parents and Guardians,

This afternoon, JLG RICA experienced a false alarm involving an active shooter report. Montgomery County Police Department (MCPD) responded to the facility, arriving on site within minutes to ensure the safety of all students, residents, and staff. As soon as JLG RICA administrators were apprised of the threat, safety protocols were initiated to further ensure security.

MCPD completed a full assessment and confirmed that there was no threat to the campus. Once the situation was cleared, normal operations resumed and therapists were asked to check-in on their students.

We recognize that incidents like this—even when they are false alarms—can be unsettling. Our treatment teams will continue offering support to any student who may need additional reassurance or follow-up.

Thank you for your trust in us and for your partnership in keeping our community safe. If you have any questions or would like to speak with a member of our leadership or clinical team, please contact us directly. You may dial 301-251-6800 and the operator will direct your call.

Sincerely,
JLG-RICA Leadership Team
