**Specimen Deliveries to the MDH Laboratories on the
Martin Luther King, Jr. (MLK) Holiday**

The MDH Laboratories will be operating on an abbreviated holiday schedule over the upcoming holiday to receive *Newborn and Clinical* specimens for testing. Our Holiday schedule is as follows:

MDH Central Laboratory

Monday, January 16, 2023	<i>Open for Clinical and NBS specimens 7:30am-3:00pm</i>
--------------------------	--

MDH Eastern Shore Regional Laboratory (ESRL)

Monday, January 16, 2023	CLOSED
--------------------------	---------------

MDH Western Maryland Regional Laboratory (WMRL)

Monday, January 16, 2023	CLOSED
--------------------------	---------------

Specimens collected for COVID-19 and Mpox testing can be stored and transported on cold packs refrigerated (2-8°C) for up to 72 hours after collection before delivery to the MDH Central Laboratory for testing.

Specimens that cannot be delivered for testing at the MDH Central Laboratory within 72 hours after collection must be frozen and stored at < -70°C and transported frozen on dry ice. Therefore, please plan the COVID-19 and Mpox specimen collection accordingly over the holiday.

For urgent rabies exposure testing and other after hour emergency testing requests see instructions on page 7 of the Guide to Public Health Laboratories Services on the MDH Laboratory's homepage:
