Testing Availability Plan

Test Observer Hiring Efforts

We are currently focusing our efforts on the eastern parts of the state to ensure adequate coverage. At this time, we are confident that our current Test Observer coverage is sufficient to meet our testing needs.

As we anticipate testing volume to increase over the next few months, we will hire additional observers in specific areas of the state as needed. Our goal remains to ensure full coverage for all training programs that choose to test with Headmaster.

Testing Locations

We currently have regional testing sites available in Hunt Valley, Cumberland, Riverdale Park, Rockville, Northeast, Laurel, Windsormill, Burtonsville, and Grantsville.

We also have several closed test sites throughout the state. These locations are reserved exclusively for candidates who completed their training at those specific programs. Some of the closed test events will open 48 hours prior to the scheduled test date to the public if any seats remain open. Please contact us to inquire on any closed test dates opening up.

We have recently opened a test site in Windormill hosting regional testing for in person knowledge testing and skills testing. We also have added several dates for skills testing in Rockville for November.

We are doing our best to establish more regional test sites in the state and hope to have more options for regional testing on the calendar as soon as possible. we are working everyday to secure more testing as test sites are onboarded with Headmaster.

*If you are interested in working with us as a testing site, we are always looking for more. Please apply at md.tmutest.com/apply/9 or contact us if you have any questions.
