

Maryland Community Health Resources Commission

Consortium and FY 2024 Request for Applications

Edward J. Kasemeyer, Chair

Mark Luckner, Executive Director

March 19, 2024

1

Overview of FY 2024 Request for Applications

- Approximately \$7 million available for new grant funding
- CHRC staff recommends the strategic priorities and areas of focus remain similar to the FY 2023 Call for Proposals.
- Strategic Priority 1: Advance health equity by addressing health disparities and adverse social determinants of health... *supporting place-based initiatives aligned with the Advancing All-Payer Health Equity Approaches and Development (AHEAD) model.*
- Strategic Priority 2: Promote the efficient and strategic delivery of integrated health and social services... *and promote genuine community engagement.*

FY 2024 Request for Applications Potential Areas of Focus

1. Addressing chronic disease prevention and disease management.
2. Promoting maternal and child health
3. Providing dental care to support Medicaid dental benefit
4. Addressing Behavioral Health, including Mental Health, substance-use disorder and opioid and overdose crisis

3

3

Questions for Commissioners to Consider

1. Should the CHRC's FY 2024 RFA for Behavioral Health Services offer a funding opportunity that is wholly different than projects supported by the Consortium? **CHRC staff recommends yes.**
2. If the answer to number 1 is yes, Commissioners may consider limiting funding opportunities to projects that serve adults and older adolescents only.
3. Should HERC applicants not recommended for funding be encouraged to apply under the CHRC's FY 2024 RFA?

4

4
