00:27:53 Hafeezah Muhammad-Backpack Healthcare(formerly Youme): What happens if we don't receive support from a school district? Can we still participate? If we receive support from a school district, can our proposal still be denied? If so, why? If approved, when will the funding be distributed? Is it a lump sum distribution or do we invoice overtime? Is the state providing the EPB trainings listed? Or do we need to find a vendor? Can funding be used to help train teachers on mental health for kids? Our software can support the entire state and assess 100% of the kids, how can we get a blanket approval?

00:44:41 **shameka habersham: What specifics are expected to "demonstrate collaboration with their LBHA, LMB and/or other local child serving agencies?"**

00:45:09 **meysers: Question - when talking with local they said they are still determining their priorities which cuts time frame down on rfp response...**

00:48:07 Natalie Ferguson:nferguson@wellcheck.us

00:48:34 **Eric Smith: Question - Can you apply for this grant if you are a county employee within the schools (not teaching, but related to mental health), but also offer mental health training and consultation under a non-profit?**

00:51:34 **Mark Donovan: Question, we plan to use the grant to provide SUD early intervention groups in schools. We are working on being able to bill MA. We currently bill commercial insurances for these services provided in our offices. However commercial insurances allow telehealth or in person sessions - our contracts do not allow "on site" services. Does the consortium understand we can not bill insurances for services provided on site in the schools.**

00:52:17 **Shane O'Neill: Will we be allowed to submit hard copies in person?**

00:52:31 **Elizabeth Hymel: Can we hand deliver the Full proposal?**

00:53:05 Jen Clatterbuck: You may submit the proposal in person - 45 Calvert Street, Room 336, Annapolis, MD 21401. You will need to sign-in at the guard station and present a photo ID.

00:53:24 Karen Duffy (she/her): The RFP indicate the cover sheet is due October 10th, not October 11th.

00:53:25 Wunmi Adediji, LCPC- Hope Health Systems: Question - Electronic proposals should be scanned or can be Word/PDF? We have websites we use with schools and families and would like it to be clickable for viewing.

00:53:47 Jen Clatterbuck: Proposals may be submitted via PDF.

00:54:24 Bob Stephens: Can an entity submit an application that has several strategies and initiatives? Or, must they be distinct applications?

00:54:33 Jen Clatterbuck: Also, please be sure to press send before 12:00 pm (noon).

00:54:58 Jackie Ward (she/they): How quickly will these slides and recordings be available? I would greatly appreciate them as soon as possible so I can best support our service providers who are interested in applying, but weren't able to attend. I work with the Worcester County LMB and LBHA. Thanks! Jackie.ward@maryland.gov

00:55:14 Elizabeth Hymel: unduplicated served so you want only children?

00:55:22 meyers: Individuals served are only talking about grant funds I assume

00:55:31 Mark Donovan: Question: We are planning to provide SUD early interventions groups. as this is early intervention, not all members will have a diagnosis to bill. We can request funding from the consortium to bill per group or per client. Is there a concern with billing per group? obviously there would be no diagnosis for the entire group.

00:55:54 Jackie Ward (she/they): Replying to "unduplicated served ..."

Good question. ^ I second this since some programs serve families as well as children.

00:56:45 Erin Clark: If multiple agencies are planning to submit an application for one jurisdiction, should we coordinate together, or can we each apply separately?

00:56:56 Jen Clatterbuck: The recording and PPT will be posted later today - before 2:00 pm.

00:57:12 meyers: Can you list multiple EBP in the EBP line or do we need separate cover sheet for each EBP as each one would have different staff trained etc

00:57:43 rmurphy1: What is the maximum # of pages for the proposal?

00:58:32 Jackie Ward (she/they): Reacted to "What is the maximum ..." with 👍

00:58:34 Fleur Gedamke: Fleur Gedamke - Grants Manager EveryMind. Questions:

Can we include multiple tiers of support in one application?

Local Priorities: Confirming that it is per jurisdiction or Per school ?

If you have more than one program /models to propose. Do we submit one application per program per jurisdiction? Or do we submit one application for both programs?

Will we be able to invoice costs (like recruiting, computer purchases, etc.) made before January 1 or will all spending need to begin Jan 1?

Are they looking at start up costs separately from ongoing operating costs, or is that all included in the 18 month budget?

00:58:52 Abila Tazanu, M.D.: Will there be technical services and supports to help grantees bill Medicaid and/ or linkages to those with expertise in Medicaid billing. This would be great to assist with sustainability. Thanks

00:59:04 Jen Clatterbuck: Link to call for proposals:
<https://health.maryland.gov/mchrc/Pages/notices.aspx> - How to apply begins on page 19

00:59:09 Wunmi Adediji, LCPC- Hope Health Systems: Question - How would the unduplicated individuals be tracked? Student ID?

00:59:15 Jackie Ward (she/they): Reacted to "Fleur Gedamke - Gran..." with 👍

00:59:26 Adrienne Mickler: Can an application be made if the service is not an EBP?

00:59:34 Jackie Ward (she/they): Reacted to "Question - How would..." with 👍

01:01:43 Elizabeth Hymel: Can we add lines? Also do we have to name persons or just licenses, positions?

01:02:43 Amse Heck, EveryMind: If an entity applies as a spoke, is it also able to apply as a Hub when that RFP is released?

01:02:49 meyers: is school year only 9 months - what happens with staff funding during the 6 week summer break

01:02:49 Adrienne Mickler: Where would funding go if a program existed over the summer months?

01:03:18 Steven Flynn: Questions:

1 Is it permissible for companies operating for profit to submit applications?

2) Where does CHRC funding for this grant come from?

01:03:27 Mark Donovan: In my brief review of the application, in the spreadsheet, it appears that you are asking us to bill as a percentage of staff salary. - not per client or per service. I am confused.

01:03:39 Naomi Eisen: what is the program start date in December 2023? (for the budget) Dec 1?

01:03:44 kim: Will this be a cost reimbursable budget, per diem or other format?

01:04:00 Donna@Lighthousemd.org: We do not have FTE employees how do we indicate that

01:04:07 Dr. Michael C. Samuel, PsyD, EdD, LCPC: How will private school access the support from the grant funds?

01:04:38 Dee Miles: 1. Does the local school system need to see the proposal before providing the letter of support

01:04:42 Karen: Can both for profit and non profit companies apply for the indirect costs of the budget?

01:04:50 Naomi Eisen: Will the webinar PPT be posted on the CHRC website?

01:05:14 Dee Miles: 2. Is this a reimbursable grant or upfront and, if reimbursable, what is the general turn around time once invoices are submitted (monthly?)

01:05:21 Bill Leary: I'm a bit confused, you've stated there can only be one awardee per jurisdiction, however each applicant is supposed to get the Superintendents signature and sign off on a proposed program. Is

the Superintendent actually deciding on which proposed application a jurisdiction will be forwarding, or can they sign off on multiples and then the state will decide which they prefer?

01:05:31 MFR Conference: We are a Medicaid provider for our clinic & PRP, but are currently not billing Medicaid for school-based services (different funding source). Which drop down would be most applicable to us on the cover sheet when it asks about Medicaid billing?

01:05:33 Dee Miles: 3. Are there any special considerations for proposals that are focused on peer support

01:05:44 Brianne Hahn: 1. If extension of services and requesting for new funds in those jurisdictions, do we need two separate proposals? 2. For extension, if grant funding it has been exhausted and is running out at a certain time, is this considered an extension or a continuation?

01:48:16 Dee Miles - Tree of Hope Association: If an organization uses SBIRT or one of the other priority EBP's, are you saying that we have to use a specific named program (from the list) or are we able to be trained in the EBP but then just indicate in the proposal how we intend to implement the methods and practices of that EBP. For instance, if we are very motivational interview focused (as is part of SBIRT) will speaking to how we implement that be sufficient?

02:41:35 Catherine Smithmyer, she/her: Does the Consortium see any opportunity for increasing how well Medicaid will cover mental health services provided to students? For example, it won't cover CPT code 90837 when provided by a private practice. It won't cover services provided by LMSWs, LGPCs, or psychology associates in private practice. At least in private practice, it won't cover services provided by graduate students completing clinical internships. These are significant limitations in coverage that will lead to grant funds being used up much more rapidly than they would be if Medicaid covered these services.
