

# **Maryland Consortium on Coordinated Community Supports**

## **Data Collection/Analysis & Program Evaluation Subcommittee**

**Larry Epp, Chair**

November 10, 2022

# Consortium Timeline (Provisional)

# Process for Public Comment Period (visual)

---

# Re-Cap: Data Workgroup Presentations

---

## MSDE Data Sets

- attendance, discipline, school survey, academic measures, teacher retention

## SHAPE System

- school mental health infrastructure and quality (not student-level data)

# Re-Cap: Data Workgroup Presentations

---

## Shannon Hall, Community Behavioral Health

- Measurement Based Care
- Standardization
- Actionable Analytics
- Library of validated assessments
- Learning collaborative/TA

# To Discuss: Potential key outcomes for grant activities

---

1. Expand access to:
  - behavioral health services and supports, care for children with depression and/or anxiety, screenings and referrals, etc. (process measures)
2. Improve student wellbeing:
  - Reduce substance use, reduce suicidality, reduce interactions with youth serving agencies, address stressors beyond the classroom including SDOH, etc.
3. Improve engagement in education:
  - Reduce exclusionary disciplinary events, reduce absenteeism, reduce drop-out rate, improve school climate, close achievement gaps

# Presentation

---

Jay Yoe, Behavioral Health Administration
