

CTO Comparison Tool

The following graphs contain performance data for organizations participating in the MDPCP-AHEAD Program as Care Transformation Organizations (CTOs). The data is based on performance of each CTO's partner practices on key program metrics including: Inpatient and Emergency Department utilization, PQI-like events, and Per Member Per Month cost for 2019 vs. 2025. Practices are encouraged to use this information when selecting a CTO partner for future program years.

- CTOs are arranged from left to right in order of largest (best) to smallest (worst) percent change on each metric.
- To protect practice and patient privacy, CTOs with fewer than 5 partner practices have been excluded. This includes: Atlantic General Hospital Corporation CTO, CareVio, Healthcare Dynamics International (HCDI), Healthlincs CTO, Holy Cross Health Care Transformation Organization, Prime CTO, PHS Doctors CTO and Western Maryland Physician Network.
- For additional information, please email mdh.pcmodel@maryland.gov.

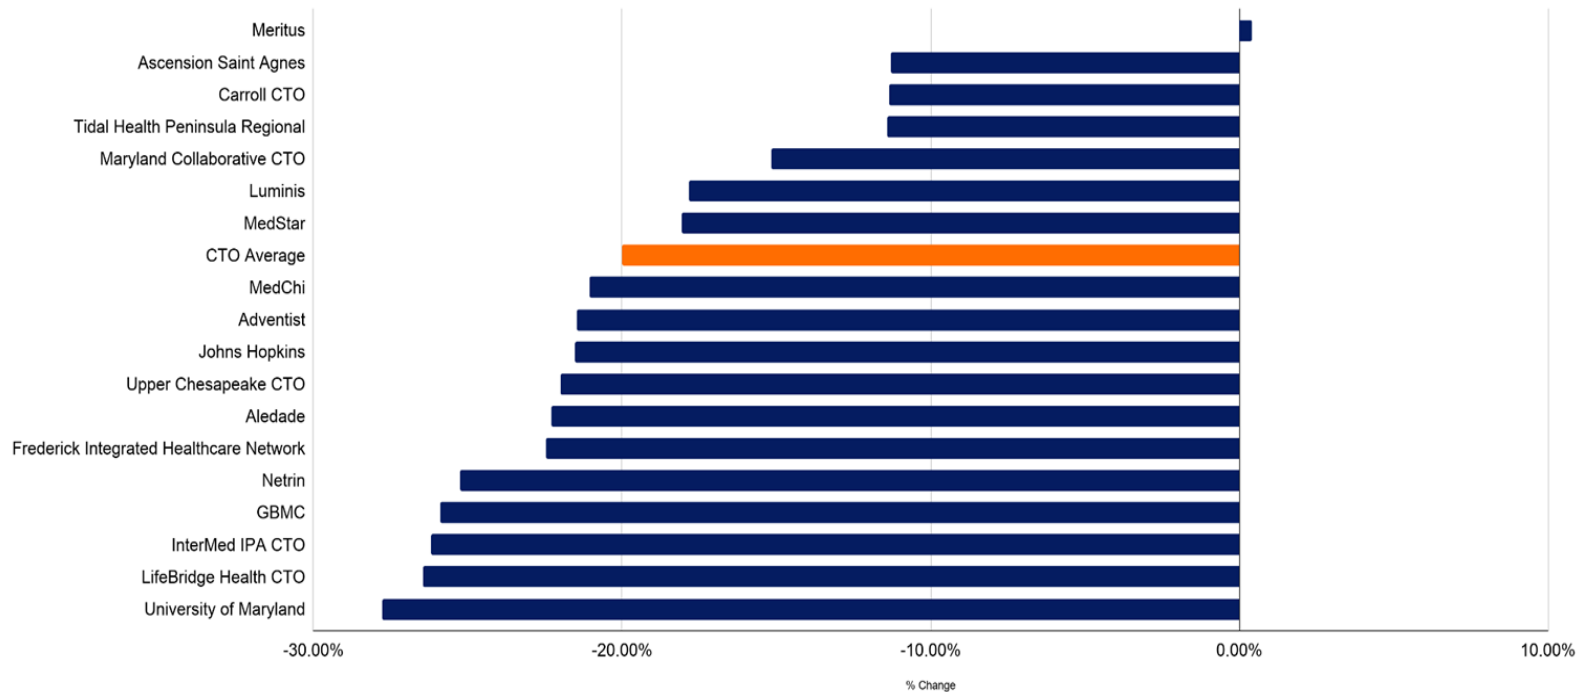

Inpatient Utilization Per K (HCC Risk-adjusted) 2019 vs. 2025

CTOs arranged from top to bottom in order of smallest to largest percent change in IP utilization per K from 2019 to 2025

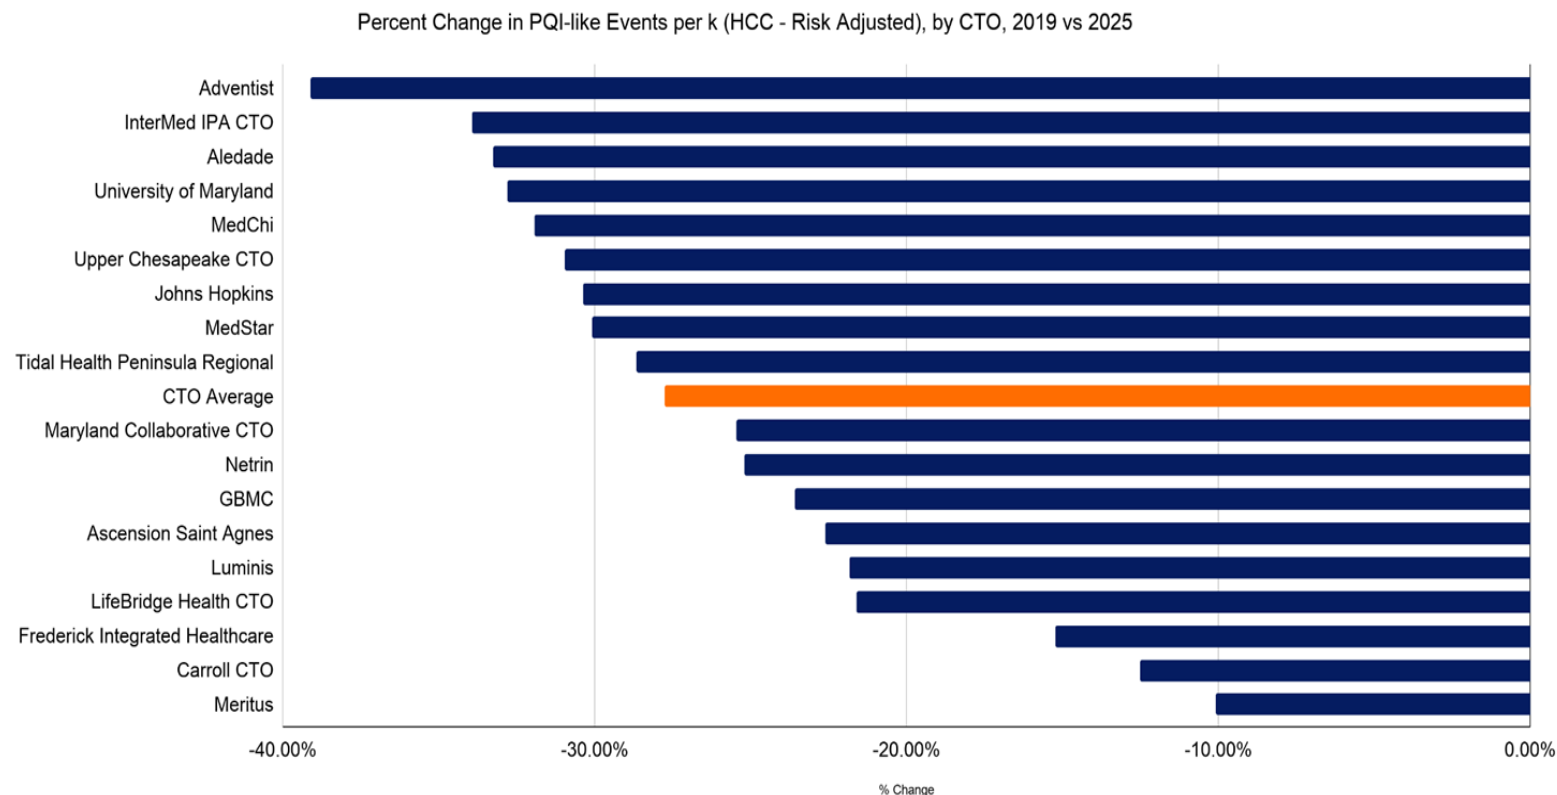

Emergency Department Utilization Per K (HCC Risk-adjusted) 2019 vs. 2025

Percent Change in ED Utilization per k (HCC - Risk Adjusted), by CTO, 2019 vs 2025

CTOs arranged from top to bottom in order of smallest to largest percent change in ED utilization per K from 2019 to 2025

PQI-Like Events* Per K (HCC Risk-adjusted) 2019 vs. 2025

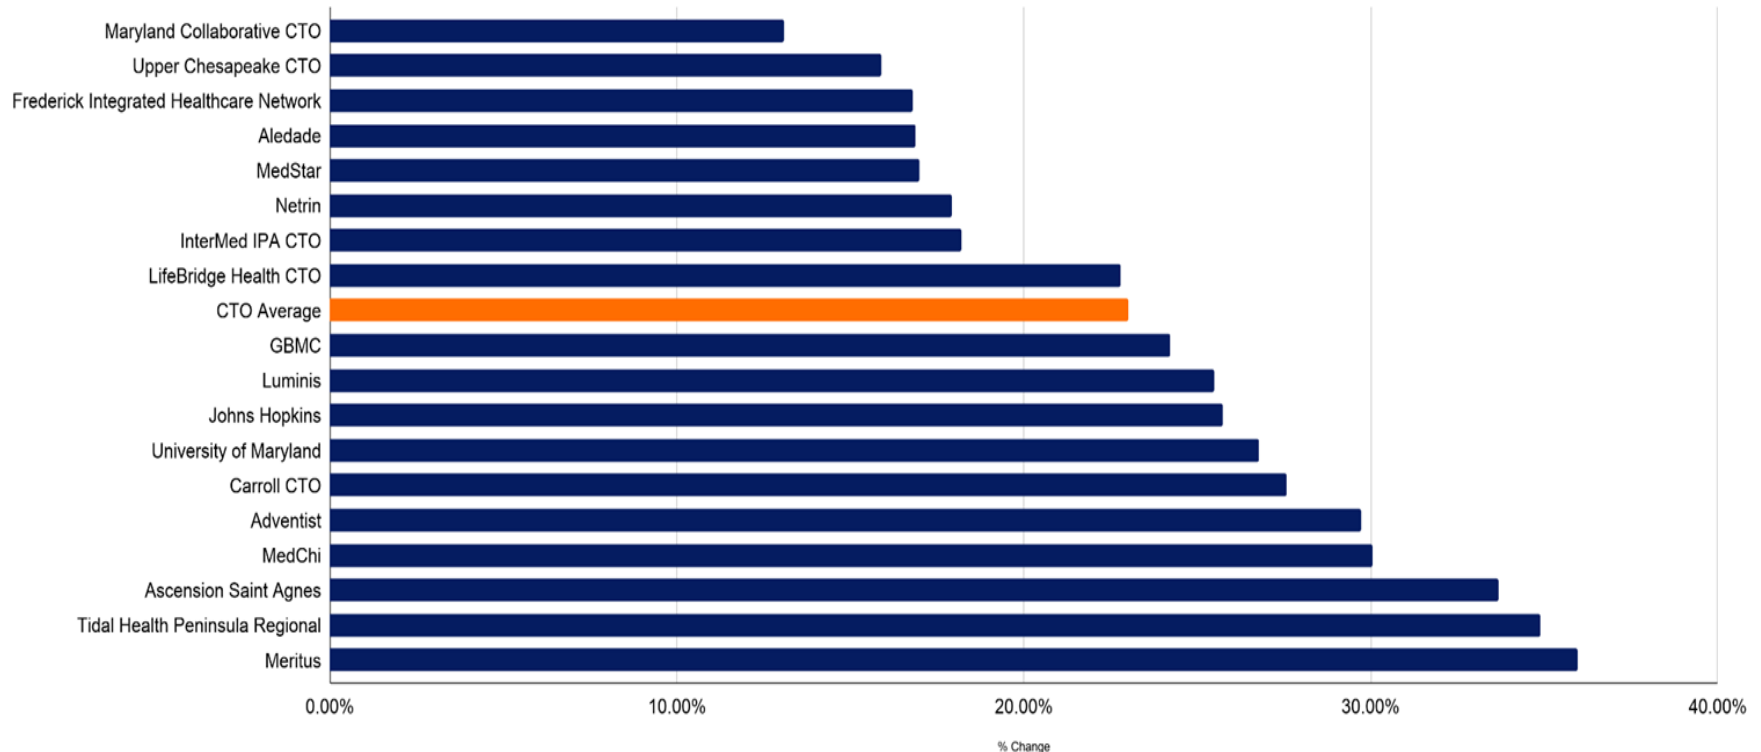

CTOs arranged from top to bottom in order of largest to smallest percent change in PQI-Like Events per K from 2019 to 2025

*Chart displays utilization for IP admissions or ED visits that fall into one of 10 PQI categories using 2020 AHRQ specification

Total Per Beneficiary Per Month (PBPM) (HCC Risk-adjusted) 2019 vs. 2025

Percent Change in PBPM (HCC - Risk Adjusted), by CTO, 2019 vs 2025

CTOs arranged from top to bottom in order of smallest to largest percent change in PBPM from 2019 to 2025
