

COVID-19 Resource Guide for Primary Care Practices

HIGH PRIORITY ACTION ITEMS [TRIAGE]

- ☐ Reach out to your <u>high risk patients</u>: check on their status and advise on how to prevent transmission of COVID-19; check on potential issues related to social isolation and reduction of access to care (<u>COVID-19 Practice Process Map</u>)
 - Use your EMR to identify high risk patients
 - Use <u>CRISP Pre-AH</u> tool risk scores to identify MDPCP-attributed high risk patients
- ☐ Develop Triage process (Patient Flow Guide)
- ☐ Develop process to prioritize testing (Links: <u>3/26/20 MDH Letter to Clinicians</u>;

BMI Remote Assessment)

☐ Reschedule in-person non-essential medical and surgical procedures (e.g. Annual Wellness Visits) per MD State Order; CMS Guidelines

CAPACITY BUILDING

- ☐ Set up capacity for Telemedicine (Vendor List) (CMS Toolkit)
- ☐ Develop Telemedicine process (Guide) *New
- ☐ Reschedule non-essential medical visits per MD State Order
 - Traditional office visits like AWVs and TCM Visits can be completed via Telemedicine with a –GT/95 modifier
 - Any patient who has access to Telemedicine tools that is not scheduled for essential-to-life procedures should be evaluated through Telemedicine as priority
- ☐ Conduct and track inventory of <u>Personal Protective Equipment (PPE)</u> and Test Kits
- ☐ Ensure staff is properly trained in <u>nasopharyngeal swabbing</u>
- ☐ Locate well-ventilated areas in or around your practice to examine and screen patients safely
 - Outdoor area such as a parking lot with tent
 - Indoor designated room (Consider HVAC, exhaust capability)
- ☐ Locate non-office-based local entities to refer patients for testing ☐ Ensure adequate environmental cleaning products and procedures for all clinical and waiting room areas; educate minimal person-to-person contact

PATIENT EDUCATION (Care Management Workflow)

- ☐ Post signage outside of entrances and in waiting rooms about prevention
- ☐ Reach out and educate your patient population via <u>waiting room flyers</u>, <u>patient flyers</u>, Patient Portal, telephone, email, and social media
- ☐ Encourage patients to call ahead prior to visiting in person and promote
- ☐ Educate patients with cough to wear a mask
