

# MDPCP at a Glance

## *Program Year 1 Snapshot*

The Maryland Primary Care Program (MDPCP) is now in its first program year and recruiting for the 2020 Performance Year. The MDPCP is a voluntary program open to all qualifying Maryland primary care providers that provides funding and support for the delivery of advanced primary care throughout the state. The MDPCP supports the overall health care transformation process and allows primary care providers to play an increased role in prevention, management of chronic disease, and preventing unnecessary hospital utilization.

### **380 Practices Officially Participating as of Jan 1, 2019:**

~220,000 Fee-For-Service Medicare Beneficiaries

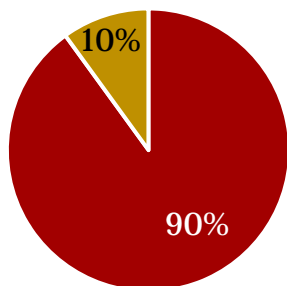

All Maryland Counties & Jurisdictions Represented

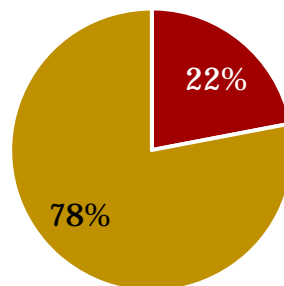

~1,500 Primary Care Practitioners

Practice Tracks

■ Track 1 ■ Track 2

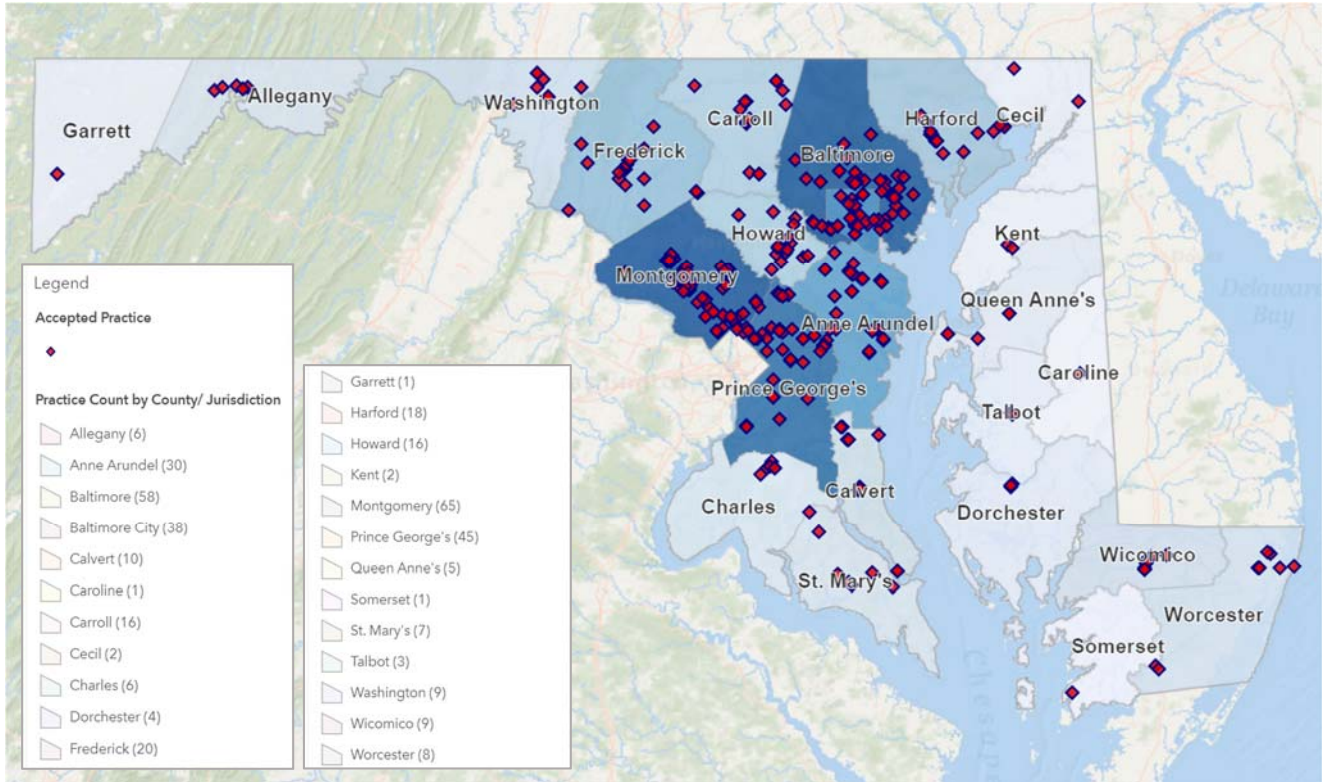

Practices Partnered with a CTO

■ Non-CTO ■ CTO

**Practices are equipped for success:**

Practices Transformation Coaches Deployed State-wide  
21 Care Transformation Organizations (CTOs): 6+ per county  
Online and In-Person Learning Network

**Care is being transformed for Maryland's patients:**

Expanded Access to Care – Integrated Behavioral Health – Enhanced Care Management

The Maryland Primary Care Program's annual enrollment period opens during spring/summer every year. Interested CTO's and Practices are encouraged to apply.
