# HealthChoice Overview

---

# History of HealthChoice

---

- HealthChoice, first implemented in 1997 under the authority of §1115 of the Social Security Act, is Maryland's statewide mandatory managed care program for Medicaid enrollees.
- The HealthChoice §1115 demonstration waiver was last renewed in 2016; the current waiver term extends for five years (calendar years (CY) 2017-2021).
- The HealthChoice program is a mature demonstration that has been proven to increase access to quality health care and reduce overall health care spending.

# History of HealthChoice

---

- In December 2016, CMS approved Maryland's application for a sixth extension of the HealthChoice demonstration.
- This waiver renewal period is particularly focused on testing cost-effective, innovative programs that target the significant, complex health needs of individuals enrolled in Medicaid.
- CMS approved two amendments during the waiver period, in 2019 and 2020.
- The current waiver application will be submitted to CMS in June for approval by and implementation on January 1, 2022.

# COVID-19 Impact

- Expansion of services delivered via telehealth, including audio-only telehealth visits
- Waived enforcement of monthly premium payments for the Maryland Children's Health Program Premium and Employed Individuals with Disabilities, and introduced other flexibilities surrounding the delivery of long-term services and supports.
- Relaxed provider enrollment and registration requirements and collaborated with the MCOs to establish a global risk corridor as a fiscal safeguard

- There were 1,368,070 individuals enrolled in HealthChoice—representing 85.8 percent of total Maryland Medicaid enrollment and an increase of more than 155,752 in the past year.
