# Medicaid and MCHP Enrollment and Applications

2024 Joint Chairman's Report (pg.127)

Maryland Department of Health

**April 2025** 

### Introduction:

The Maryland Department of Health (MDH) completed its 12-month unwinding period following the COVID-19 Public Health Emergency (PHE) on April 30, 2024. Normal operations resumed on May 1, 2024. MDH will continue to report required metrics to the Centers for Medicare and Medicaid Services (CMS) as required through June 2025. This data is made available to the public by CMS. The following metrics are submitted in accordance with the requirements of the 2024 Joint Chairmen's Report (p. 126).

<u>JCR Metric 1</u>: The number of eligibility renewals completed, including the number and share that were automatically renewed.

Table 1. Total Number of Eligibility Renewals Completed by Month (May 2024 - February 2025)

Month	Completed Redetermination	Automatically Renewed (#)	Automatically Renewed (%)
May 2024	117,954	53,588	45.43%
June 2024	114,818	62,481	54.42%
July 2024	129,878	65,179	50.18%
August 2024	126,711	59,347	46.84%
September 2024	124,332	58,965	47.43%
October 2024	97,960	49,262	50.29%
November 2024	137,609	64,836	47.12%
December 2024	123,300	58,682	47.59%
January 2025	102,728	47,852	46.58%
February 2025	94,976	43,386	45.68%
Total	1,170,266	563,578	48.16%

#### Notes:

This table includes participants who went through an eligibility renewal during the month because they were scheduled for a renewal. The table does not include people who reported a change in application in the middle of their enrollment period. Changes may trigger a redetermination resulting in the extension of coverage or disenrollment from Medicaid. This table indicates the number and share of those who completed a redetermination through the ex parte, or automatic, process. This table does not indicate the number of people who were renewed through a manual process.

<sup>&</sup>lt;sup>1</sup> During the unwinding of the PHE, CMS authorized Maryland Medicaid to extend certain Disaster State Plan authorities and adopt strategies authorized under Section 1902(e)(14)(A) of the Social Security Act ("1902(e)(14)(A) strategies"). Maryland applied for 14 waivers through CMS and implemented four additional strategies to support participants during the unwinding period. These temporary flexibilities enhanced Maryland's ability to ensure eligible individuals remained covered by Medicaid or transitioned to other appropriate coverage during the unwinding period.

<sup>&</sup>lt;sup>2</sup> See appendix: Medicaid Enrollment Data Tracker.

# JCR Metric 2: The number of new individuals enrolled.

Table 1. Total Number of Newly Enrolled Medicaid Participants from May 2024, by Last Coverage Group

	Last Coverage Category				
Eligibility Category	Number	Percent			
Aged, Blind, or Disabled	42,682	29.6%			
Affordable Care Act	10,546	7.3%			
Families and Children	71,770	49.7%			
МСНР	10,586	7.3%			
Other	8,721	6.0%			
Total	144,305	100.0%			

<sup>\*</sup>Data as of January 2025

# Notes:

This metric presents individuals who were newly enrolled from May 2024 to January 2025. Participants included in the above tables have an eligibility span that started on or after May 1, 2024. These individuals were not enrolled as of April 2024. In addition, to be considered enrolled in the data, a participant must have been enrolled for at least three months.

<u>JCR Metric 3</u>: Measures of churn that reflect the number of individuals enrolled who previously received Medicaid or MCHP coverage and the timeframe of when they were last enrolled.

Table 1. Cumulative Percentage of Medicaid Participants Who Reenroll in Medicaid Following Disenrollment by Disenrollment Month

Use the key to the left when interpreting Table 1. For example, 23.3% of the 44,785 participants disenrolled in May 2024, reenrolled in Medicaid in June, indicating a zero-month gap in coverage (0 months). 26.3% of the 44,785 had reenrolled in coverage as of July 2024 (1 month), 28.7% as of August 2024 (2 months), and 29.9 % as of September 2024 (3 months).

#### Notes:

Medicaid implemented a 120-day reconsideration period in which a participant who is disenrolled for a procedural reason may return to their applicable enrollment system (Maryland Health Connection or myMDThink) and complete their renewal without needing to begin a new application. Eligible participants will be reenrolled automatically in the last coverage they had. The coverage begins 10 days from the date of the eligibility decision. Any services rendered during the period after disenrollment and prior to reenrollment are eligible for fee-for-service reimbursement.

For participants who were reenrolled without a gap in coverage (i.e., reenrollment in the same month as disenrollment), these participants may have been disenrolled and reapplied for coverage. The start date was retroactively applied to the date their case was closed. Alternatively, a participant may have been terminated for a non-procedural reason (e.g., aging out of HealthChoice) and was re-enrolled into a new type of coverage (e.g. dually eligible for Medicare and Medicaid).

29.9% of participants disenrolled in May 2024 returned to coverage within 90 days. 33.6% of those disenrolled in June 2024 returned to coverage within 90 days. 34.1% of participants disenrolled in July 2024 returned to coverage within 90 days. 34.1% of participants disenrolled in August 2024 returned to coverage within 90 days. 32.8% of participants disenrolled in September 2024 returned to coverage within 90 days. 33.0% of participants disenrolled in October 2024 returned to coverage within 90 days.

<u>JCR Metric 4</u>: The number of individuals disenrolled, shown by reason for disenrollment, identifying procedural disenrollments and disenrollments due to overscale income, aging out, and other common reasons for disenrollment.

<sup>\*</sup>Other procedural disenvollment reasons include if a participant was identified as procedurally disenvolled by the MHBE or the following: Mail for this individual was returned and a change of address was not reported as required by COMAR 10.09.24.12B (551); Rights and responsibilities - Did not agree to the assignment of interest in application (556); Medicaid coverage expired for non-MAGI only (339).

#### Notes:

MDH has suppressed cell values less than 11 in compliance with the CMS Cell Suppression Policy.

Overall Medicaid disenrollment rates increased from May 2024 to January 2025 (n=342,525) compared to the same period last year (n=207,912). The increased disenrollment rate is attributed to two factors. First, temporary eligibility waivers that were enacted during the PHE unwinding ended in April 2024, resulting in participants losing Medicaid eligibility following their second redetermination beginning in May 2024. One waiver that participants benefited from allowed ex parte renewals for participants with no income returned by state reporting methods and/or

their most recently reported income was at or below 100% of the federal poverty level (FPL). While this waiver was available to participants enrolled in coverage groups for families and children, a large portion of participants enrolled in ACA expansion coverage groups used this waiver to expand coverage during the PHE unwinding, and this group experienced declines in enrollment after May 2024.

<u>JCR Metric 5</u>: Call center volume, average wait times, and any other data related to call center activities that are required to be submitted to the Centers for Medicare and Medicaid Services.

Table 1: Aggregate Call Center Data, May 2024 - February 2025

Total Call Center Volume	654,993
Average Call Center Wait Time (H:MM:SS)	0:09:32
Average Call Center Abandonment Rate	19.42%

#### Notes:

Call center metrics are provided by the Maryland Health Benefit Exchange. Data at the eligibility group level is unable to be collected as it relates to the call center.

# Notes:

Data was provided by the Maryland Health Benefit Exchange (MAGI participants) and DHS (non-MAGI participants). This table depicts average processing time only and case-by-case scenarios may impact application processing time.

Please note that the average processing time is weighted based on the number of applications processed.
