¹ Participants may report changes to the system, e.g., birth of a child, increases in income due to a new job, at any time during the year. Additional participants may have had their coverage extended due to reporting of a change. Disenrollment rates also reflect participants appropriately disenrolled from coverage due to reporting a change because they are no longer eligible for Medicaid coverage.

² Pending review cases may differ here than in other publicly released data sets due to differences in measure specifications from CMS and timing of data generation.
