

Public Notice for Residential Treatment Centers Rate Rebasing

The Maryland Department of Health (the Department) proposes to amend its Medicaid reimbursement methodology for Residential Treatment Centers (RTCs). Specifically, effective July 1, 2021, the Department will rebase the maximum rate for RTCs serving individuals ages 12 through 21 years old and individuals ages 12 and under from \$300 and \$600 per day, respectively, to \$750 per day. The maximum rate will be updated annually based on the Centers for Medicare and Medicaid Services' (CMS) published federal fiscal year market basket increase percentage relating to hospitals excluded from the prospective payment system and include a 1 percent update factor.

The Department anticipates a total fiscal impact of \$6,535,391 during the period July 1, 2021 through June 30, 2022. This amount is subject to a 64.2 percent federal match (\$4,195,721 federal funds and \$2,339,670 in general funds).
