RE: New Electronic 1184 Process  
Hospital's Responsibility to Complete the Hospital Report of Newborns  
(DHMH 1184)

The purpose of this transmittal is to inform you of a change to the newborn<sup>1</sup> enrollment process. The Hospital Report of Newborn (DHMH 1184) process is vital in initiating Medicaid enrollment of a newborn. Without timely enrollment, a newborn cannot easily access needed services and providers cannot be paid. A newborn is not enrolled in Medicaid until the DHMH 1184 is submitted and processed.

In May and June 2012, the Department of Health and Mental Hygiene (DHMH), Medical Assistance Program (the "Program") piloted an online enrollment of newborns through the DHMH 1184 accessed by the Program's e-Medicaid application on the Internet. The Program has developed a manual entitled "1184 Newborn Processing on e-Medicaid" that provides step by step instructions. The manual can be accessed on the DHMH website at the following link:  
<http://mmcp.dhmh.maryland.gov/SitePages/Provider%20Information.aspx>.

The Program is expanding online enrollment to all hospitals. Hospitals should begin newborn processing on e-Medicaid according to the dates listed on the **attached schedule**. Staggering the adoption of this new process will facilitate a smoother transition for every hospital.

In the electronic form, the following required fields must be completed. If any of the required fields are left blank, an error message will appear:

1. Mother's Name-Last Name and First Name
2. Mother's Medical Assistance number
3. Mother's Date of Birth
4. Mother's Address
5. Mother's Social Security Number
6. Newborn's Name-Last Name and First Name

<sup>1</sup> The newborn does not need to go home with the mother in order to receive Medical Assistance coverage.

7. Newborn's Date of Birth
8. Newborn's Sex
9. Newborn's Weight
10. Newborn's Race
11. Phone Number of the Hospital
12. Fax Number of the Hospital
13. Indicate if newborn will be discharged to the Mother (Y/N)

\*The pediatrician information should be completed if available; however, this is an optional field and completing the form should not be delayed in order to obtain this information.

The DHMH 1184 forms will be processed as follows:

- All hospitals should complete and submit the electronic DHMH 1184 within 24 hours after birth.
- DHMH will process the DHMH 1184 and send the newborn's Medicaid number back to the hospital electronically, in most cases within minutes of submission. In cases where the information on the 1184 needs to be reviewed, the hospital will be notified that the Medical Assistance number is "pending" and the reason why. These cases will be subjected to a manual review.
- When processed, the newborn will receive immediate fee-for-service (FFS) coverage with MCO coverage in 10 days or immediate MCO coverage depending on mother's status at time of delivery.
- On the day after the DHMH 1184 is processed, DHMH will fax the DHMH 1184 and the Daily MCO Newborn Enrollment Report to the MCO to confirm that the newborn has been enrolled in Medical Assistance. Also the newborn's eligibility information will be on the Eligibility Verification System (EVS) at DHMH.

The paper DHMH 1184 form can still be faxed until all hospitals are using e-Medicaid. For your convenience, the most recent revised copy is attached. Complete all required sections of the form and fax to the Division of Recipient Eligibility Programs (DREP). The fax number remains the same: 410-333-7012.

Please direct any questions about the DHMH 1184 process to Ms. Janet Smith, Division of Recipient Eligibility Services at 410-767-5377 or [jsmith@maryland.gov](mailto:jsmith@maryland.gov). For technical assistance or troubleshooting issues, please call 410-767-5503. For provider application and password support, please call 410-767-5340.
