ABA Fee Schedule (Effective July 1, 2022)	10

ABA Overview

Effective January 1, 2017, the Maryland Department of Health (MDH) began covering medically necessary Applied Behavior Analysis (ABA) therapy services for Medicaid enrolled participants under the age of 21.

In order for a child/adolescent to receive ABA therapy services, he/she must be diagnosed with an Autism Spectrum Disorder (ASD) by a qualified health care professional (QHCP);

- A developmental pediatrician;
- A pediatric neurologist;
- A child psychiatrist;
- A clinical psychologist;
- A neuropsychologist;
- A pediatrician; or
- A nurse practitioner.

The QHCP must have training and experience to diagnose ASD through the use of a comprehensive diagnostic evaluation (CDE) and with the help of validated instruments, resulting in a referral for ABA therapy services.

ABA services are only available under the Early Periodic Screening, Diagnosis, and Treatment (EPSDT) program. The EPSDT program offers comprehensive and preventive health care services for individuals under age 21 who are enrolled in the Maryland Medical Assistance Program (The Program). ABA services will be covered and reimbursed by the Medical Assistance fee-for-service program through its Behavioral Health Administrative Service Organization (BHASO), Optum Maryland.

Regulatory Authority

This manual derives its legal authority from the following Code of Maryland Regulations (COMAR).

Governing COMAR Regulations	Title
10.09.28	Applied Behavioral Analysis Services
10.09.36	General Medical Assistance Provider Participation Criteria
10.09.49	Telehealth Services

The regulations may be viewed in their entirety online at the Maryland Division of State Documents website: <http://www.dsd.state.md.us/COMAR/ComarHome.html>.

Purpose

The purpose of this manual is to provide policy and billing instructions for providers who render ABA services. ABA providers will bill on the CMS-1500 claim form if billing on paper or, if billing electronically, bill on the CMS 837P (professional) claim format. Providers of ABA services are reimbursed in accordance with the *ABA Fee Schedule* that can be found at the end of this manual or on the [ABA webpage](#).

HIPAA

The Administrative Simplification provisions of the **Health Insurance Portability and Accountability Act (HIPAA)** of 1996 require that standard electronic health transactions be used by health plans including private, commercial, Medical Assistance (Medicaid), Medicare, health care clearinghouses and health care providers. A major intent of the law is to allow providers to meet the data needs of every insurer electronically, with one billing format, using health care industry standard sets of data and codes.

In January 2009, the Federal government mandated the implementation of HIPAA-compliant 5010 transaction standards to support the mandated upgrade to the ICD-10-CM classification system. 5010 compliance allows for improved technical coordination, accommodation for evolving business needs, and consistency in reporting requirements. The 5010 compliance was implemented on July 1, 2012.

Any questions regarding 5010 compliance should be directed to [Optum Maryland](#).

More information on HIPAA may be obtained from:
<https://www.hhs.gov/hipaa/for-professionals/index.html>.

National Provider Identifier (NPI)

All health care providers that render ABA services must have a NPI. The NPI is a unique, 10-digit, numeric identifier that does not expire or change. NPI's are assigned to improve the efficiency and effectiveness of the electronic transmission of health information. Implementation of the NPI impacts all practice, office, or institutional functions including billing, reporting and payment.

The NPI is administered by the Centers of Medicare and Medicaid Services (CMS) and is required by HIPAA. Apply for an NPI by using the web-based application process via the National Plan and Provider Enumeration System (NPPES) at <https://nppes.cms.hhs.gov/NPPES/Welcome.do>.

Provider Enrollment and Registration

All ABA providers must first enroll with Maryland Medicaid to receive a Medicaid provider number and then must register with the BHASO. ABA providers may enroll in the Program as an individual ABA provider and/or a group ABA provider.

To enroll with the Program, all ABA group practices and individual licensed psychologists, Board Certified Behavior Analysts-Doctorate (BCBA-D), Board Certified Behavior Analysts (BCBA), Board Certified Assistant Behavior Analysts (BCaBA), Registered Behavior Technicians (RBT) and Behavior Technicians (BT) must enroll through the Maryland Medicaid's electronic Provider Revalidation and Enrollment Portal (ePREP) at <https://eprep.health.maryland.gov/>.

ePREP is the one-stop shop for provider enrollment, re-enrollment, revalidation, information updates and demographic changes. Licensed psychologists who provide ABA services to Maryland Medicaid participants must complete the *ABA Attestation Form* on the [ABA webpage](#).

Background Checks

ABA providers must have a completed Criminal Justice Information System's criminal background check as part of enrollment in ePREP, and complete the CJIS Private Parity Petition form, which can be found on the [DPSCS website](#).

Guidelines for Educational Coursework and Supervisory Experience of Licensed Psychologists

Listed below are some guidelines on coursework and experience for psychologists who wish to provide ABA services to Maryland Medical Assistance Program participants:

- **Coursework:** Master's degree or doctoral degree in psychology that includes, at a minimum, 40 coursework hours in behavior analysis, behavior management theory, techniques, interventions and ethics, and autism spectrum disorders; *and*
- **Supervisory experience*:** At a minimum, one year (1,500 hours) of supervised clinical experience inclusive of:
 - a. Minimum one year direct care services to children; *and*
 - b. Minimum one year direct care utilizing applied behavior analysis, behavior techniques, interventions and monitoring of behavior plan implementation; *and*
 - c. Experience must have included work with individuals with ASD.

*The Behavior Analyst Certification Board (BACB) outlines additional supervisory requirements including documentation, an 8-hour training course, and oversight by a

Requirements Coordinator. For more information and to complete the *Noncertified RBT Supervisor Form*, please see the RBT Supervision and Supervisor Requirements at: <https://www.bacb.com/supervision-and-training/>.

Preauthorization of Services

All ABA services require prior authorization from the BHASO. The BHASO will only authorize ABA services if a QHCP completes a CDE and prescribes medically necessary ABA services. The CDE must include:

- A direct observation of the participant;
- Interviews with the participant's parent or caregiver;
- Documentation of developmental history, psychosocial history, and current functioning across major domains of development; and
- A confirmed diagnosis of Autism Spectrum Disorder (ASD).

After a CDE has been completed, a psychologist, BCBA-D, or BCBA must complete an assessment of the child/adolescent and develop a detailed treatment plan.

Preauthorization for services from the BHASO are valid for a maximum of 180 days. Prior to the end of the authorization period, the psychologist, BCBA-D, or BCBA must administer a reassessment of the child/adolescent's need for ABA services in order to determine if services continue to be medically necessary. A reassessment and subsequent preauthorization will be required every 180 days for the duration of the child/adolescent's treatment.

Medical Assistance Payments

All payments made by the BHASO to providers shall be considered payment in full for services rendered. Providers are prohibited from collecting additional payment from Program participants or participants' families for either covered or denied services. Such action constitutes an overpayment and is in violation of both Federal and State regulations.

The Program shall provide fee-for-service reimbursement for covered ABA services to the following ABA providers:

- An ABA group; and
- An individual ABA provider (psychologist, BCBA-D or BCBA).

BCaBAs, RBTs and BTs rendering ABA services cannot bill directly to the Maryland Medical Assistance Program and receive reimbursement.

Claims for all ABA services must be submitted to the BHASO for reimbursement.

Documentation of Services

The provider must maintain documentation of each service delivered under the participant's treatment plan, which, at a minimum, includes:

- Consent to treatment from the participant or the participant's parent or guardian;
- The location, date, start time, and end time of the service;
- A brief description of the service provided, including reference to the treatment plan;
- A description of the participant's behaviors or symptoms in measurable terms;
- A description of the participant's parent or caregiver's participation in the ABA treatment sessions, including the parent or the caregiver's name and relationship to the participant, date and time of participation OR notification of the participant's parent or caregiver's consent to be absent and;
- A legible signature, along with the printed or typed name of the individual providing care, with the appropriate title.

Covered Services

ABA services must be administered by a licensed psychologist, a BCBA-D, a BCBA, a BCaBA, RBT and/or a BT working within his/her scope of practice. When services are provided by a BCaBA, RBT or BT, they must be performed under the direction of a psychologist, BCBA-D, or BCBA.

The following ABA services are available to eligible children/adolescents with ASD when the ABA services are determined to be medically necessary:

- An ABA assessment by a psychologist, BCBA-D or BCBA;
- An ABA reassessment administered to a child/adolescent every 180 days by a psychologist, BCBA-D or BCBA;
- A behavior identification supporting assessment administered to a child/adolescent by a BCaBA, RBT, or BT under the direction of a psychologist, BCBA-D, or BCBA;
- A behavior identification supporting assessment and adaptive behavior treatment with four required components for specific, severe destructive behaviors conducted in a structured and safe environment by two or more BCaBAs, RBTs, or BTs with the psychologist, BCBA-D, or BCBA onsite;
- ABA therapy that consists of individual, group and social skills therapies, which may be administered by various providers. To see which providers may provide which service, go to COMAR 10.09.28.04;

- ABA parent training that consists of individual training with or without the child present and multiple-family group training. To see which providers may provide which service, go to COMAR 10.09.28.04;
- Direction or remote direction* of a BCaBA, RBT, or BT, performed by a psychologist, BCBA-D, or BCBA. The direction must be performed on an ongoing basis, equal to at least 10 percent of the amount of hours that the BCaBA, RBT, or BT is providing direct ABA services to the participant, or group of participants.

*Please note that the provider must obtain approval by MDH or the BHASO for remote direction; and

- ABA treatment planning performed by a psychologist, BCBA-D or BCBA and consisting of the development and revision of treatment plan and goals, data analysis, and real-time, direct communication with the participant's other service providers. Treatment planning can be utilized for a maximum of four hours per month.
- The following services may be rendered via a two-way audio-visual telehealth delivery model:
 - Direct supervision of a BCaBA, RBT, or BT;
 - Parent training; and
 - Group parent training.

Limitations

ABA services must be delivered in a home or community setting, including a clinic, when medically necessary.

The ABA provider may not bill the Program for the following services:

- Services rendered when measurable functional improvement or continued clinical benefit is not met, and treatment is not deemed medically necessary;
- Services not preauthorized by the BHASO;
- Services rendered that are beyond the provider's scope of practice;
- Services rendered but not documented in accordance with COMAR 10.09.28.04;
- Services rendered by mail or telephone;
- Services whose purpose is vocationally- or recreationally-based;
- Respite services;
- Services that duplicate a service that a participant is receiving under another medical care program; and
- Services provided in a 24-hour, 365-day residential program funded with federal, State, or local government funds.

The ABA provider may also not bill Maryland Medical Assistance program for:

- Custodial care;
- Completion of forms and reports;
- Broken or missed appointments;
- Travel to and from site of service; and
- Telehealth services that don't meet the requirements in COMAR 10.09.49.

Services shall be discontinued if:

- No longer medically necessary;
- Long-term treatment goals and objectives are achieved; or
- The participant is not demonstrating progress towards treatment goals and objectives and measurable functional improvement is no longer expected.
