

LTSSMaryland Monthly Spotlight

May 21, 2022

Welcome to the latest newsletter! Your guide to new functionalities, upcoming upgrades, and bug fixes.

Updates to LTSSMaryland

Upload HRST information directly into the LTSS system

Programs: Developmental Disabilities Administration (DDA)

MDH is updating the HRST process to exchange information directly to and from the LTSS system rather than using PCIS2.

Update 2T code definition

Programs: Developmental Disabilities Administration (DDA)

MDH is redefining the 2T code to apply to participants under 18 years old rather than 21.

Other Updates

Select minor enhancements and bug fixes in LTSSMaryland

- Corrected an issue where the POS Unit Staff Assignment page results were not pulling the client's latest POS when the user limited the search parameters to Budget Group, POS Type and/or Service Requested.
- Corrected an issue causing the 'Delete' action hyperlink to be missing for Plan of Service – Attachments.
- Corrected an issue causing the CCS State Activities Report to sometimes return no results.

Select minor enhancements and bug fixes in *Provider Portal*

- Corrected an issue where providers could not select more than one location when using the real time CLOCK IN/OUT SEARCH under the services tab.
- Corrected an issue where multiple lines were showing in the SRR and SRR-A reports when more than one exception existed.
- Corrected an issue where clicking on Request Adjustment was causing error messages to display
- Corrected an issue where the services in the exception search would not show in chronological order.

May Maintenance Window

Friday, May 20th 8:00 pm
to
Saturday, May 21st 8:00 am

LTSSMaryland updates will be available after this maintenance window

Future Release News!

Next major release: June 2022!

Look out for the next newsletter for more information on this release!

Any questions?

Please contact your MDH program liaison.

- Corrected an issue where the “Provider has exceeded the maximum authorization” exception was not triggered when claims exceeded the PCP authorization.
- Corrected an issue causing billing entries to remain stuck in queued status instead of generating a service activity.
- Corrected an issue causing an error when using the DDA Services Rendered Report.

LTSSMaryland’s Mission

“To provide an online solution to coordinating Medicaid Home and Community-Based Services across programs.”
