

MARYLAND MEDICAID PHARMACY PROGRAM

No. 39
Wednesday, August 29, 2007

ADVISORY

In an effort to give timely notice to the pharmacy community concerning important pharmacy topics, the Department of Health and Mental Hygiene's (DHMH) **Maryland Pharmacy Program** (MPP) has developed the **Maryland Pharmacy Program Advisory**. To expedite information timely to the pharmacy and prescriber communities, an email network has been established which incorporates the email lists of the Maryland Pharmacists Association, EPIC, CARE, Long Term Care Consultants, headquarters of all chain drugstores and prescriber associations and organizations. It is our hope that the information is disseminated to all interested parties. If you have not received this email through any of the previously noted parties or via DHMH, please contact the MPP representative at 410-767-1455.

Changes to the Preferred Drug List (PDL) Effective October 2, 2007

Below you will find the PDL changes for October 1, 2007. Because October 1 falls on a Monday this year and Mondays are normally hectic for pharmacies, the revised PDL will go into effect on Tuesday, October 2, 2007.

Approximately 31 therapeutic categories inclusive of 3 new categories were reviewed at the P&T Committee meeting held on Thursday, August 9, 2007. Decisions in the newly added Atypical Antipsychotics class will not be implemented until January 1, 2008 and will be posted at a later date. A preview of the PDL that will go into effect on October 1, 2007 is included in this newsletter. There were 18 drugs added to the previously included classes on the PDL and 17 drugs were removed. Please refer to the charts below showing those PDL decisions. Highlighted drugs denote a change or addition.

Eight new drugs (only the new drug, not the whole class) were reviewed; the following decisions were made:

| Therapeutic Category | Drug Name | PDL Status |
|--------------------------------------|-----------------------|---------------|
| Acne agents, Topical | Ziana | Non-preferred |
| Analgesics, Narcotics (Short-Acting) | Fentora | Non-preferred |
| Antihistamines, Minimally Sedating | Allegra Syrup | Preferred |
| Antihistamines, Minimally Sedating | Claritin Chewable OTC | Preferred |
| Beta Blockers | Coreg CR | Preferred |
| Growth Hormones | Omnitrope | Preferred |
| Proton Pump Inhibitors | Nexium Suspension | Preferred |
| Ulcerative Colitis Agents | Lialda | Non-Preferred |

Preferred Brand Name Drugs/Non-preferred generics

At this time Duragesic® patches and Flonase® are the two brand name drugs on the PDL which also come in generic form. The generics fluticasone and fentanyl patches are non-preferred and require Prior Authorization. These are exceptions to the State's policy for Medicaid prescriptions requiring substitution of the generic for brand name drugs. After October 2, these two will continue to be preferred, and two more such exceptions will be on the PDL: Omnicef® and Zofran®. The table below summarizes the status of these drugs. We urge all participating pharmacies to make an effort to keep these brand names drugs on hand in order to better serve the Medicaid population.

| Therapeutic Category Name | Drug Name | PDL |
|-------------------------------------|------------------------------|--------------------------------|
| Intranasal Rhinitis Agents | Flonase® | Preferred |
| Intranasal Rhinitis Agents | Fluticasone | Non-Preferred |
| Analgesics, Narcotics (Long-Acting) | Duragesic® | Preferred |
| Analgesics, Narcotics (Long-Acting) | Fentanyl patch | Non-Preferred |
| Cephalosporins and Related Agents | Omnicef® | Preferred (until 1/1/08)* |
| Cephalosporins and Related Agents | Cefdinir | Non-Preferred (until 1/1/08) * |
| Antiemetics, Oral | Zofran/Zofran ODT® | Preferred (until 1/1/08) * |
| Antiemetics, Oral | Ondansetron/ondansetraon ODT | Non-Preferred (until 1/1/08) * |

**NOTE: On 1/1/08, the generics (cefdinir, ondansetron and ondansetron ODT) will become preferred, and the brands (Omnicef, Zofran and Zofran ODT) will require a Brand Medically Necessary Medwatch form.*

Maryland Preferred Drug List

Only drugs that are part of the listed therapeutic categories are affected by the PDL. Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid patients.

Note: For most multi-source products, the generic product(s) are usually preferred and branded innovator product(s) are non-preferred. PDL products that are new to market require prior authorization until they are reviewed
