

**Office of Pharmacy Services**  
**Medicaid Pharmacy Program**  
**Preferred Drug List**

Effective Date: 07/01/2022

**Only drugs that are part of the listed therapeutic categories are affected by the Medicaid Preferred Drug List (PDL). Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid participants.**

**Note: Brand names listed in parentheses are only listed as a reference.** For most multi-source products, the generic products are usually preferred and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as “***generic only***”. PDL products that are new to market require prior authorization until they are reviewed.
