IN THE MATTER OF

KATHERINE EMERY, P.D.

LICENSE NO. 11691

BEFORE THE MARYLAND

STATE BOARD OF

PHARMACY

CONSENT ORDER TERMINATING
SUMMARY SUSPENSION

Procedural Background

Based on information received and a subsequent investigation by the State Board of Pharmacy (the “Board”), and subject to the Maryland Pharmacy Act (the “Act”), Md. Code Ann., Health Occ. §§ 12-101, et seq., and the Maryland Administrative Procedure Act, Md. Code Ann., Health Occ. §§ 10-201 et seq., the Board issued an Order for Summary Suspension dated November 17, 2010, in which it summarily suspended the pharmacist’s license held by Katherine Emery, P.D. (the “Respondent”) based on a violation of the terms of probation in accordance with a Consent Order, dated August 17, 2009. The Consent Order required that the Respondent submit to Board-ordered urinalysis which “shall be negative for drugs and alcohol”. Specifically, the Board received laboratory reports for July 1, 8, and 22, 2010, indicating diluted and abnormally diluted urines. Based on this information, the Board relied on reliable evidence that demonstrated that the public health, safety or welfare imperatively required emergency action, pursuant to Md. Code Ann., State Gov’t §10-226(e)(2)(2004 Repl. Vol.).

On February 9, 2011, the Board held a hearing before a quorum of the Board to allow the Respondent the opportunity to show cause why the Respondent did not pose an imminent threat to the health, safety and welfare of the public. As a result of the Respondent’s oral argument that other medical conditions may have affected the urinalysis reports, the Board ordered the Respondent to submit to an evaluation by a Board-appointed physician. The Board is in receipt of the evaluation report which concludes that the diluted urine results were associated with a
conscious act. Notwithstanding, and in lieu of a continued summary suspension, the Board has determined that public health and safety is not in imminent danger provided that the Respondent complies with the terms contained in this Consent Order.

**FINDINGS OF FACT**

1. At all times relevant hereto, the Respondent has held a license to practice pharmacy in Maryland. The Respondent was first licensed on May 15, 1989.

2. The Board entered into a Consent Order with the Respondent on October 18, 2010, based on a previous violation by the Respondent of a prior Consent Order, dated August 17, 2009. Specifically, the Respondent’s urinalysis on February 11, 2010, tested positive for the presence of alcohol metabolites, ethylglucuronide and ethyl sulfate. The Board held a show cause hearing on July 8, 2010, at which time the Respondent maintained that the alcohol metabolites in her system were the result of having ingested a fondue meal prepared with alcohol.

3. On July 1, 8, and 22, 2010, the Respondent submitted to urinalysis screenings also pursuant to the probationary conditions in the August 17, 2009 Consent Order, all of which indicated diluted urines. The Board received the results of these screenings on July 14 and 28, 2010, after the show cause hearing on the February 22, 2010, urinalysis laboratory report. The Board thus issued an Order for Summary Suspension on November 17, 2010, and held a show cause hearing on February 9, 2011.

4. On February 22, 2011, the Board ordered the Respondent to submit to a full evaluation by a Board-appointed physician. The Board received the evaluation report on August 22, 2011. The evaluation indicates that the Respondent’s diluted urines were “associated with a
conscious act”. Further, the evaluation concludes that the urinalysis screens could not be classified as negative.

5. The Respondent has been undergoing Board-ordered urinalysis screenings pending the resolution of this matter, all of which have been negative. The Respondent has also been fully compliant with all other probationary conditions set forth in the Consent Order, dated October 18, 2010.

6. As a result of the most recent violation regarding the Respondent’s urinalysis screenings, the Respondent’s license has been suspended since November 17, 2010.

7. The Respondent has not practiced pharmacy since 2007.

CONCLUSIONS OF LAW

Based upon the foregoing Findings of Fact, the Board finds that the Respondent is subject to discipline in accordance with Md. Code Ann., Health Occ. §§ 12-313(b)(21).

ORDER

Based on agreement of the parties, it is this 19th day of January, 2012, by an affirmative vote of the Board, hereby

ORDERED that in the event that the Respondent fails to fully cooperate with the Board, violates any condition of probation, or if the Board receives credible evidence that the Respondent has relapsed, the Respondent shall be immediately summarily suspended with an opportunity for a post-deprivation show cause hearing; and be it further,

ORDERED that the Respondent may petition the Board for release from probation on or after August 17, 2014, provided that she has been fully compliant with all of the terms of probation and there are no pending complaints against her; and be it further,

ORDERED that this document constitutes a formal disciplinary action of the Maryland State Board of Pharmacy and is therefore a public document for purposes of public disclosure, pursuant to the Public Information Act., State Gov’t § 10-611 et seq. and COMAR 10.34.01.12.
