May 5, 1999

HAND DELIVERY AND FIRST CLASS MAIL.

Robb Vincent Foote, P.D.
5027 Middlesmoor Court
Ellicott City, Maryland 21043

Re: Order to Summarily Suspend
License #12098

Dear Mr. Foote:

Enclosed is an executed Order for Summary Suspension (the “Order) of your license to practice pharmacy in the State of Maryland issued pursuant to the State Government Article, §10-226(c) of the Annotated Code of Maryland.

Please be advised that on April 14, 1999 a majority of the Maryland State Board of Pharmacy (the "Board") voted to immediately suspend your license as of May 5, 1999. You have the opportunity to appear before the Board on May 27, 1999 at 10:00 a.m., 4201 Patterson Avenue, Baltimore, Maryland 21215, for a Show Cause hearing. This limited appearance is intended to provide you with an opportunity to show cause why the Order to Summarily suspend your pharmacy license should be lifted. You are not required to appear at this hearing. An evidentiary hearing on the merits of the summary suspension will be held within a reasonable time period of said Show Cause Hearing, if requested by you.

At the Show Cause Hearing scheduled for May 27, 1999, you will have the opportunity to address the Board before its final deliberations on the matter. You will have a half hour to address the Board. Following your presentation, Sherrai Hamm, Assistant Attorney General will present the State’s argument in favor of continuing the Summary Suspension.

At the time of delivery of this letter, you are required to surrender to the Board investigator the following items:

4201 Patterson Avenue - Baltimore, Maryland 21215-2299 - (410) 764-4755
Fax (410) 358-6207 - TDD (800) 542-4964 - Maryland Relay Service (800) 735-2258

Healthy People in Healthy Communities
(1) your original Maryland pharmacy display license, number 12098;

(2) your current wall license, number 12098.

This opportunity to address the Board is not intended as a substitute for any subsequent hearing which you may request as to the merits of the Summary Suspension. Moreover, if you choose to meet with the Board on May 27, 1999, it will be without prejudice to any of your rights in this matter. If you intend to appear at the Show Cause hearing, please let Norene Pease, Executive Director, know on or before May 24, 1999.

As previously stated, the Administrative Prosecutor in this case is Sherral Hamm, Assistant Attorney General. If you have any questions about the summary suspension or your appearance at the Board meeting, then please contact Ms. Hamm at (410) 767-1872. Because your license is suspended, please be advised that you are entitled to be represented by an attorney and that attorney must be qualified to practice in Maryland.

Yours truly,

W. Irving Lottier, Jr., P.D.
Secretary
State Board of Pharmacy

    Gloria Toney, Legal Secretary
IN THE MATTER OF

ROBB VINCENT FOOTE

License Number 12098

Respondent

BEFORE THE

STATE BOARD

OF

PHARMACY

ORDER FOR SUMMARY SUSPENSION
OF LICENSE TO PRACTICE PHARMACY

The State Board of Pharmacy hereby SUMMARY SUSPENDS the license of Robb Vincent Foote, P.D. (D.O. B. 12/9/64), to practice pharmacy in the State of Maryland. The Board takes such action pursuant to its authority concluding Md. Code Ann., State Gov't § 10-226 that the public health, safety and welfare require emergency action.

INVESTIGATIVE FINDINGS

The Board has reason to believe that the following facts are true:

1. At all times relevant hereto, the Respondent was and is licensed to practice pharmacy in the State of Maryland. The Respondent was originally licensed to practice pharmacy in Maryland on July 27, 1990.

2. At all times relevant hereto, the Respondent was employed as a pharmacist at NeighborCare Infusion Pharmacy ("NeighborCare") located at 9070 Junction Drive, Annapolis Junction, Maryland.

3. On or about December 29, 1998, McKesson Wholesale Drug Distributors ("McKesson") shipped NeighborCare forty-seven (47) one gram bottles of hydromorphone powder to NeighborCare. The Respondent signed for the shipment of hydromorphone powder when it arrived at Neighbor Care. However, the Respondent failed to record the receipt of the hydromorphone in NeighborCare's inventory log.
4. On or about January 8, 1999, NeighborCare discovered twenty-three (23) bottles of hydromorphone missing from inventory. The missing hydromorphone bottles were part of the December shipment from McKesson.

5. On or about February 19, 1999, NeighborCare discovered that several bottles of hydromorphone showed evidence of tampering. As a result of recent shortages of hydromorphone and other narcotics, and evidence of narcotic tampering, NeighborCare placed a video camera in the pharmacy.

6. On or about April 15, 1999, the Respondent was videotaped taking two bottles of discarded hydromorphone from a cabinet, removing the hydromorphone from the bottles with a syringe and placing the contents of the syringe into a container. The Respondent then placed the container of hydromorphone in his pocket.

7. On April 19, 1999, the Respondent was arrested by the Maryland State Police and charged in a three (3) count Statement of Charges with possession of a controlled dangerous substance ("CDS") of Schedule II to wit: hydromorphone; with intent to distribute in violation of Md. Ann Code art. 27, § 286; distribution of a CDS of Schedule II, to wit: hydromorphone; and theft, in violation of Md. Ann. Code. art. 27, §286 of hydromorphone with a value of over $300.00 in violation of Md. Ann. Code. art. 27, §342. (A copy of the statement of charges, application for statement of charges and the arrest warrant on charging document is attached hereto and incorporated herein as Exhibit A).

8. Based on the above-investigative facts, the Board has cause to believe that the Respondent has violated Md. Code Ann. Health Occ. §12-313(b) (1994). The pertinent provision of H.O. §12-313(b) provides as follows:
Subject to the hearing provisions of §12-315 of this subtitle, the Board, on the affirmative vote of a majority of its members then serving, may deny a license to any applicant, reprimand any licensee, place any licensee on probation, or suspend or revoke a license if the applicant or licensee:

(14) Dispenses any drug, devise, or diagnostic for which a prescription is required without a written, oral, or electronically transmitted prescription from an authorized prescriber;

(20) Is professionally, physically, or mentally incompetent.

CONCLUSIONS OF LAW

Based on the foregoing investigative facts, the Board concludes that the public health, safety and welfare imperatively require emergency action in this case, pursuant to Md. Code Ann., State Gov't §10-226(c)(2) (1995).

ORDER

Based on the foregoing, it is this ___ day of May 1999, that a majority of the fully authorized membership of the State Board of Pharmacy:

ORDERED that pursuant to the authority vested by Md. Code Ann., State Gov't Art. § 10-226, Respondent's license to practice pharmacy in the State of Maryland be and is hereby SUMMARILY SUSPENDED; and be it further

ORDERED that upon the request of the Respondent in writing within ten (10) days of the issuance of this SUMMARY SUSPENSION, and a hearing will be scheduled to consider this SUMMARY SUSPENSION, will be held at the Board of Pharmacy, 4201 Patterson Avenue, Baltimore, Maryland 21215, within thirty (30) days after the Respondent's request for a hearing; and be it further
ORDERED that on presentation of this Order, the Respondent SHALL SURRENDER to the Board’s Executive Director, the following items:

(1) Respondent’s original Maryland display license, number 12098;

(2) Respondent’s current wallet license, number 12098; and be it further

ORDERED that this is a Final Order of the Board and, as such is a PUBLIC DOCUMENT pursuant to Md. Code Ann., State Gov’t § 10-611 et seq. (1995).

Tracking No. 991001181413
APPLICATION FOR STATEMENT OF CHARGES (CONTINUED)  Page 2 of 6

On 04/16/99, DFC Leslie Stickles was contacted by Sgt. Thomas McElroy of the Maryland State Police who provided the following information:

On Wednesday, March 16, 1999, Sgt. Thomas G. McElroy (Maryland State Police, assigned to the D.E.A. Tactical Diversion Squad) responded to 2070 Junction Drive, Suite K, Annapolis Junction, Howard County, Maryland 20701 (Neighborcare Infusion Services) and contacted Marc Strausz (Regional Managing Director). Strausz advised McElroy that in December 1998, a Pharmaceutical distributor delivered forty seven (47) bottles of Dilaudid (Hydromorphone-Narcotic Controlled Dangerous Substance of Schedule II) to the pharmacy.

The defendant, Robb Vincent Foote received the delivery and signed for the package but failed to put it into inventory. Twenty-four of these bottles were placed into inventory, however the signature on the logbook is illegible. When questioned about the delivery, Foote advised his superiors that he had left the package unattended and that he had not put the items into inventory.

This incident was reported to the Howard County Police Department, Officer Mood (ID# 4924) who conducted an initial investigation (R#99013561). Officer Mood interviewed Foote on January 8, 1999, and Foote stated that he had not counted the number of items that had been delivered and that upon receipt of the delivery he placed the items on the floor next to a walk-in refrigerator. Foote then stated that he had not seen the items since. Foote further told Officer Mood that everybody who was working that day had access to the items. Officer Mood states in his report that he spoke with employees at Neighborcare Pharmacy and concluded that there were numerous employees who had access to the items and would need additional information to continue the investigation.

Strausz further advised that on February 15, 1999, another pharmacist achieved a 1 gram bottle of Hydromorphone powder to compound a prescription for a patient. This powder failed to dissolve in the solution and clumped up in the syringe. The pharmacist attempted the procedure with a second bottle of Hydromorphone with the same results. These bottles were removed from the shelves. Later examination of all the Hydromorphone bottles by Strausz and other pharmacists at Neighborcare revealed a total of fifteen bottles that appeared suspicious or possibly tampered with; these bottles were quarantined.

DCCR 1A (Rev. 994)
Stranz advised that they (Neighborhood) contacted a private security firm and had an overt surveillance camera installed. Initial installation of the camera and review of the tapes found no suspicious activity but failed to fully display activity behind the dispensing counter and with the narcotics cabinet. A covert camera was then installed. This covert camera gives a clear view of the dispensing/preparation counter, and the narcotics cabinet.

Stranz told Sgt. McElroy that these tapes were regularly reviewed by Barbara Church, R.N., CRNL, who discovered some suspicious activity on the tapes. Stranz described Neighborhood's Narcotics Cabinet to Sgt. McElroy. He stated that on the top part of the cabinet are stored the narcotics that have not been opened or used at all. These are the drugs that the pharmacist would use for mixing the infusion solution. The bottom part of the cabinet is for returned drugs (from patients who either die or no longer need the drugs), and partially dispensed drugs. Stranz advised that typically, when filling a prescription for infusion, the compounding/preparing pharmacist will remove the drug from the top part of the cabinet and dilute it or mix it with some saline solution. The proper amount of that mixed solution would then be further placed in the patient's infusion bag. The remainder of the drug would be sealed, labeled as being the leftover/drug discarded from that particular patient's prescription, double sealed in a plastic bag, and locked in the lower part of the narcotics cabinet. In short, a 1 gram dosage of powdered Hydromorphone would be diluted into liquid. If the patient's prescription called for a 400 mg dosage, 300 mg would be placed in an infusion bag and the remaining 100 mg would be discarded and placed in the bottom part of the narcotics cabinet. This leftover waste would then be collected monthly by representatives of the Maryland State Department of Health and Mental Hygiene, Division of Control and destroyed.

Stranz advised that Foote was the night pharmacist, who usually worked from 6:00 P.M. to 4:00 A.M. He also advised that Foote normally worked alone. Stranz advised that Foote, has the keys to the narcotics cabinet, would have no reason to go into the lower part of that cabinet. With that, Stranz placed the video tapes dated 1/4/1999 and 2/1/1999 on the date tapes clearly show Foote going into the bottom part of the narcotics cabinet and removing packages. Foote carries the packages out of the view of the camera and returns a short while later. Foote then seals these packages and returns them to the bottom part of the narcotics cabinet.
On Thursday, March 15, 1999, surveillance was initiated at the Neighborcare Pharmacy, 9070 Junction Drive, Suite K. Parked in the rear of the building by the exit door is a dark colored 1997 Honda, four (4) door, Maryland Registration 043-AYW. (A check with the Maryland Motor Vehicle Administration reveals this vehicle to be registered to Robb Vincent Foote, W/M, 12/09/64, and Elizabeth Marie Foote, W/F, 08/09/65, 5027 Middlemoor Court, Ellicott City, Howard County, Maryland 21043). At approximately 5:10 A.M., Foote was observed exiting the pharmacy and entering the above mentioned vehicle. The vehicle was then followed and observed pulling onto Junction Drive. Prior to Dorsey Run Road, the vehicle pulled onto a parking lot. Surveillance observed Foote parked on the lot for approximately fifteen (15) minutes during which time he could be seen leaning to the passenger seat and fumbling with objects. Reaching into his lap and into the console, he then was observed leaning forward and putting his face in his lap. Shortly thereafter he sat straight up, then laid back in the seat. Foote continued this manner several times indicative of a person who was getting high.

At 5:25 A.M., Foote pulled from the parking lot and proceeded onto Route 32 (west bound). He was then followed to a parking lot near Snowden River Parkway and Broken Land Parkway, where he parked his car and laid back in his seat. At approximately 6:05 A.M., he proceeded to a donut shop on Snowden River Parkway, followed into shop and observed during his speech,dropping his money, and swaying while he walked. Foote then returned to his vehicle and was followed to Brampton Road. Upon pulling onto Brampton Road, Foote was observed stopping under a street lamp and again fumbling with items on the passenger seat and in the console. Shortly thereafter he was observed driving his Honda to his residence and into the garage at 5027 Middlemoor Court, Ellicott City, Howard County, Maryland 21043.

On Friday, March 16, 1999, surveillance was again initiated at the pharmacy. Parked in the rear of the building was a dark colored Dodge Van, Maryland Registration 4BA-92P. (A check with the Maryland Motor Vehicle Administration reveals this vehicle to be registered to Robb Vincent Foote, W/M, 12/09/64, and Elizabeth Marie Foote, W/F, 08/09/65, 5027 Middlemoor Court, Ellicott City, Howard County, Maryland 21043). At approximately 3:25 A.M., Foote was observed leaving the pharmacy and entering this van. The vehicle was followed from the Neighborcare Pharmacy to Brampton Road where Foote stopped under a street light as he had on prior visits.
the previous evening and again was observed fumbling with items on the passenger seat. After
several minutes, Foote pulled away from under the street lamp and headed toward his home.
Foote then turned onto a street and began driving away from his home. Foote was temporarily
unobserved by surveillance units, but at approximately 4:12 A.M. was observed pulling the van
into the garage of his home located at 5027 Middlemoor Court, Howard County, Maryland
21043.

On Friday, April 16, 1999, Sgt. McElroy responded to the Neighborhood Pharmacy and
again contacted Mark Stranz. Stranz and McElroy then viewed a surveillance tape from
Thursday, April 15, 1999. This tape clearly shows Foote pulling two (2) packages from the
bottom part of the narcotics cabinet, removing the labels, and opening the packages. The contents
of each of the two (2) packages (500 mg of Hydromorphone) were then removed via a syringe by
Foote and placed in another container which Foote put into the pocket. These empty containers
previously labeled as Dilaudid are then filled with another solution (possibly saline or sterile water).
These containers are then recycled, and the original labels placed back on the packages. These
packages are then returned to the bottom part of the narcotics cabinet where they would eventually
be destroyed. According to Marc Stranz and Barbara Church, each package contained
approximately 500 mg of Hydromorphone for a total of 1000 mg. The wholesale cost of this
product to Neighborhood is approximately $15.00.

The current street value of the drug ranges from $5.00 to $10.00 per mg.

As a result of this information, DFC Leslie Sackles will obtain search and seizure warrants
for the residence located at 5027 Middlemoor Court and both of the aforementioned vehicles.

Due to the aforementioned facts and circumstances the following charges are requested:

C-0233
Did possess a controlled dangerous substance of Schedule II, to wit:
Hydromorphone, a narcotic drug, in sufficient quantity to indicate an
intent to distribute.
