**PRE-CHARGE CONSENT ORDER**

**Background**

The Maryland Board of Pharmacy (the "Board") conducted an annual inspection of Fort Washington Medical Center’s pharmacy (the "Pharmacy"), Permit No. P01619, on February 25, 2011. The inspection report indicated that the Pharmacy was not in compliance with Board regulations (COMAR 10.34.19) and federal USP 797 standards governing sterile compounding. Specifically, the inspector noted that the Pharmacy was performing sterile compounding without a required clean room or anteroom area.

In lieu of instituting formal proceedings against the Pharmacy, in accordance with the Maryland Pharmacy Act, Md. Code Ann., Health Occ. § 12-101 et seq., the Board held a Pre-Charge Case Resolution Conference with the Pharmacy and its counsel on August 24, 2011. As a result, the Board and the Pharmacy have agreed to resolve this matter as set forth in this Consent Order.
FINDINGS OF FACT

1. At all times relevant hereto, the Pharmacy possessed a Maryland pharmacy permit, Permit No. P01619, and operated on the medical center premises located at 11711 Livingston Road, Fort Washington, Maryland.

2. On February 25, 2011, the Board performed an annual inspection of the Pharmacy in accordance with Md. Code Ann., Health Occ. § 12-604(b).

3. The February 25, 2011 inspection noted that the Pharmacy was performing sterile compounding using an LAW hood without a clean room or anteroom area. The Pharmacy was alerted to the violation.

4. The Pharmacy has been awaiting the expansion of the medical center prior to building the clean room and anteroom area for the Pharmacy. The Pharmacy performed a gap analysis to identify deficiencies in compliance. While the Pharmacy has not resolved the deficiencies, it has taken some steps towards resolution and appeared at the Pre-Charge Case Resolution Conference with proposals to bring the Pharmacy into compliance.

5. The Pharmacy performed environmental testing on an inconsistent basis.

6. The Pharmacy does not compound chemotherapy solutions or sterile pediatric products.

7. The Pharmacy compounds a low volume of sterile preparations, approximately 15-25 per day. The majority of the Pharmacy's sterile preparations are purchased pre-mixed.
CONCLUSION OF LAW

Based on the foregoing Findings of Fact, the Board concludes that the Pharmacy is subject to disciplinary action in accordance with Md. Code Ann., Health Occ. §§12-403(b)(1), (2), and (11), and COMAR 10.34.19.09.

ORDER

Based on an affirmative vote of a majority of the Board, it is this ___/___ day of January, 20___, hereby:

ORDERED that the Pharmacy shall pay a fine in the amount of $2,000.00, payable to the Maryland Board of Pharmacy, within thirty (30) days of the date of this Order; and be it further,

ORDERED that the Pharmacy shall conduct training and testing of pharmacy staff on the compounding aseptic isolator prior to its use; and be it further,

ORDERED that, within sixty (60) days of the date of this Order, the Pharmacy shall develop a training and performance evaluation program in accordance with CCMAR 10.34.19.14;

ORDERED that the Pharmacy shall submit to the Board documentation evidencing compliance with the above terms within sixty (60) days of the date of this Order; and be it further,

ORDERED that failure to pay the above fine or fully comply with the terms of this Order shall be considered a violation of this Order, and after notice and opportunity for a show
cause hearing may subject the Pharmacy to further discipline such as suspension, revocation or additional fines based on the violations cited in this Order; and be it further.

ORDERED that this is a formal order of the Maryland Board of Pharmacy and as such is a public document pursuant to the Maryland Annotated Code, State Government Article, Section 10-617 (h).
