IN THE MATTER OF

HEYWARD GLISSON III, P.D.

LICENSE NO. 12475

BEFORE THE MARYLAND

STATE BOARD OF

PHARMACY

CONSENT ORDER

HISTORY

On June 3, 2010, the Maryland Board of Pharmacy (the “Board”) received credible information indicating that Heyward Glisson III, License Number 12475, had a substance abuse problem that was affecting his performance as a pharmacist. The Board’s investigation into this matter determined that Mr. Glisson may have a mental or physical ailment that may be affecting his ability to safely practice pharmacy. As a result, the Board referred Mr. Glisson for an evaluation by a Board-appointed evaluator to determine if he is mentally competent to practice pharmacy. The Board received a report on Mr. Glisson from the evaluator with certain recommendations which have been incorporated herein.

In lieu of instituting formal proceedings against Mr. Glisson, in accordance with the Maryland Pharmacy Act, Md. Code Ann., Health Occ. § 12-313, and Board regulations, COMAR 10.34.01, a Pre-charge Case Resolution Conference (“CRC”) was held with members of the Board, Board Counsel, Mr. Glisson, and his counsel on April 11, 2012. Thereafter, the Board and Mr. Glisson agreed to resolve this matter as set forth in this Consent Order.

FINDINGS OF FACT

1. At all times relevant hereto, Mr. Glisson was a licensed pharmacist with the Board, Pharmacist License No. 12475. He was originally licensed by the Board on July 31, 1991.

2. On June 3, 2010, the Board received an anonymous complaint from a co-worker of Mr. Glisson expressing concern that Mr. Glisson had a substance abuse problem that was affecting his performance as a pharmacist.

3. Mr. Glisson’s hospital employer also received the anonymous complaint, and set a meeting with Mr. Glisson to discuss the suspected substance abuse problem. At that meeting, which took place on June 18, 2010, Mr. Glisson admitted that he had a substance abuse problem and disclosed that he was already seeking professional assistance. Mr. Glisson was referred to both his employer’s staff assistance program and the Pharmacists’ Education and Advocacy Council of Maryland (“PEAC”).

4. Following the meeting with his employer on June 18, 2010, Mr. Glisson was removed from the schedule at his place of employment. His employer’s staff assistance program recommended that he remain off the schedule for a number of weeks to commit to recovery.

5. In August 2010, Mr. Glisson was cleared to return to work by his employer’s staff assistance program, provided he sign an agreement with a number of conditions,
including continued substance abuse treatment and regular urine screens. Mr. Glisson returned to work in September 2010, and he returned to his schedule of evening shifts in January 2011.

On June 28, 2011, the Board referred Mr. Glisson for an evaluation by a Board-appointed evaluator to determine if he is mentally competent to practice pharmacy. On January 5, 2012, the Board received the evaluator’s report. According to the evaluator, Mr. Glisson appeared to be progressing well in treatment, was fully compliant in his agreement with his employer, and did not have any positive urine screens with his employer. The evaluator commended Mr. Glisson’s progress but stressed that his continued success depended on continued structured monitoring. The evaluator suggested that to ensure success, Mr. Glisson should continue a professional treatment program, continue group therapy, seek treatment for any underlying medical or behavioral health conditions, and continue weekly testing.

On April 11, 2012, the Board held a CRC with Mr. Glisson and his counsel. At the CRC, Mr. Glisson informed the Board that he was continuing to work with his employer’s staff assistance program and PEAC, as well as a substance abuse clinic. Mr. Glisson provided the Board with letters from his employer’s staff assistance program, PEAC, the substance abuse clinic, and his employer, all of which indicated that he was fully compliant with his treatment program and that he was showing good progress to date.

At the CRC, Mr. Glisson displayed to the Board that he is serious about his recovery and willing to do whatever it takes to overcome his substance abuse issue, although the Board agrees with the evaluator that strict monitoring is necessary to ensure Mr. Glisson’s continued success.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the Board concludes that Mr. Glisson is subject to discipline pursuant to Md. Code Ann., Health Occ. §§ 12-313(b)(21) and (25).
