The Maryland State Board of Pharmacy (the “Board”) hereby **SUMMARILY SUSPENDS** the registration of **JORDAN MCMURTRIE** (the “Respondent”), Registration Number **T32254**, to practice as a pharmacy technician in the State of Maryland. The Board takes such action pursuant to its authority under Md. Code Ann., State Gov’t § 10-226(c), and Md. Code Regs. (“COMAR”) 10.34.01.12, having concluded that the public health, safety, or welfare imperatively requires emergency action.

INVESTIGATIVE FINDINGS¹

1. At all times relevant, the Respondent was registered to practice as a pharmacy technician in the State of Maryland under registration number T32254.
2. The Respondent’s pharmacy technician registration was initially issued on or about August 4, 2025. The Respondent’s registration expires on July 31, 2027, subject to renewal.

7. In response, the Board initiated an investigation of the Respondent under case number 26-370.
8. As part of its investigation, the Board obtained and reviewed records from the Pharmacy's internal investigation.

Pharmacy Internal Investigation

9. The Pharmacy's internal investigation revealed that on or about March 26, 2026, the pharmacy manager (the "Manager") notified the District Pharmacy Supervisor, District Manager, and Asset Protection Manager of a potential drug loss. It further revealed that between March 22, 2026, and April 6, 2026, prescriptions were unable to be located during bin reconciliation or when a patient came to pick their prescription up. Additionally, while filling prescriptions, completing exception counts, and inventory, the Manager reported losses. The Asset Protection Manager and Manager reviewed drug loss

investigation procedures, removed blockages from cameras, and put in a request for a camera reposition. There were no additional losses reported from April 6, 2026, to May 10, 2026.

10. After reporting two prescriptions missing from the ready bins on May 11, 2026, a video review was conducted. The video taken on May 10, 2026, showed the Respondent pouring alprazolam pills into his hand and putting them in his pocket. During the interview and in a voluntary written statement, the Respondent admitted to stealing other patients' prescriptions to self-medicate after moving and losing access to his doctor approximately one year ago.

11. At the conclusion of the interview, the Respondent was immediately terminated from his employment at the Pharmacy. The Respondent completed a voluntary statement, a promissory note to repay \$9,347.61, and was given a Civil Demand Notice. The Pharmacy also reported the theft to the local county police department.
