**CASE RESOLUTION CONFERENCE (“CRC”)**

On May 11, 2022, the Respondent and his attorney, and the Assistant Attorney General - Administrative Prosecutor, attended a Case Resolution Conference (“CRC”) with members of the Board in an effort to resolve the pending charges in lieu of an evidentiary hearing. At the CRC, the Respondent and the CRC Committee agreed to, and the Board hereby accepts, the following Findings of Fact, Conclusions of Law, and Order.

**I. FINDINGS OF FACT**

The Board finds:

**I. BACKGROUND**

1. At all relevant times, Pharmacy held a permit to operate as a pharmacy in the State of Maryland. On or about March 24, 2020, Pharmacy was issued a permit in Maryland and the permit is scheduled to expire on May 31, 2024. The co-owners of Pharmacy during the relevant period related to the Charges were the Respondent, Pharmacist A and Pharmacist C.

2. At all relevant times, Pharmacist A was licensed to practice pharmacy in the State of Maryland. On or about August 6, 2013, Pharmacist A was issued a license to practice pharmacy in Maryland and the license is due to expire on January 31, 2023.

3. At all relevant times, the Respondent was licensed to practice pharmacy in the State of Maryland. On or about July 12, 2013, the Respondent was issued a license to practice pharmacy in Maryland and the license is due to expire on May 31, 2023.

4. At all relevant times, Pharmacist C was licensed to practice pharmacy in the State of Maryland. On or about December 28, 2005, Pharmacist C was issued a license to practice pharmacy in Maryland and the license is due to expire on July 31, 2023.

**II. MARYLAND OFFICE OF CONTROLLED SUBSTANCES ADMINISTRATION (OCSA) INSPECTIONS**

5. On April 7, 2021, OCSA conducted a remote regulatory inspection of Pharmacy. One of the documents provided by Pharmacy was a dispensing report of controlled dangerous substances (CDS) prescriptions dispensed by the pharmacy. A review of the dispensing report revealed multiple red flags for potential diversion or abuse for the prescriptions dispensed.

6. On July 14, 2021, OCSA conducted an in-person red flag inspection of Pharmacy.

7. During the July 14, 2021 inspection, two hundred and eighty-two (282) schedule II hard copy prescriptions were examined and one hundred and forty-eight (148) were found to have at least one red flag. The most frequent red flags were suspected fraudulent prescriptions and high dose/high quantity opioid prescriptions.

8. The suspected fraudulent prescriptions were dispensed between April 2021 and July 2021 and most of the prescriptions had sequential prescription numbers indicating that the prescriptions were filled on the same date at or around the same time. All the suspected fraudulent prescriptions were filled, identified the prescriber as MD, and were written for immediate release oxycodone,<sup>2</sup> in strengths of 10 mg and 20 mg and in quantities from 90 to 120.

9. Inspectors obtained copies of one hundred and ten (110) prescriptions written in MD's name.<sup>3</sup> Of the 110 prescriptions obtained and reviewed, one hundred and eight (108) were dispensed by Pharmacist A and the other two were dispensed by Pharmacist C.<sup>4</sup>

10. During an interview on July 14, 2021 with OCSA investigators, Pharmacist A stated that he verified the suspected fraudulent prescriptions by calling the telephone number printed on the prescriptions. After Pharmacist A was informed that the telephone number on the prescriptions was not a valid number for MD, Pharmacist A

---

<sup>2</sup> A Schedule II CS.

<sup>3</sup> Investigators suspected that the prescriptions were fraudulent by the type of paper used (no watermark or security features); the incorrect phone number for the prescriber's office; and the incomplete address for the prescriber's office.

<sup>4</sup> The two prescriptions were filled/dispensed on May 13, 2021.

stated that he called the number on file for MD but admitted that he never verified any of the prescriptions directly with MD.

11. During a visit at MD's practice on July 15, 2021, MD provided investigators with a sample of his prescription pad and it was noted to be ¼ the size of the suspected fraudulent prescriptions presented to Pharmacy. MD stated that only his receptionist answered the office phone and the receptionist informed investigators that she never heard of Pharmacy and had not verified any prescriptions from Pharmacy.

12. On July 26, 2021, inspectors visited MD's office and MD reviewed the prescriptions.

13. On July 26, 2021, MD signed an affidavit and affirmed that he reviewed the (110) prescriptions individually and that he did not write any of the prescriptions.

### **III. SEPTEMBER 21, 2021 BOARD INSPECTION**

14. On September 21, 2021 the Board conducted an annual inspection at Pharmacy. A review of CDS prescriptions filled between September 8, 2021 and September 20, 2021, revealed twenty-five (25) hard copy and e-prescribed prescriptions with high strength (10 mg – 15 mg) and high quantity (100 – 120) red flags.

16. The Respondent's conduct, as set forth above, constitutes violations of Health Occ. § 12-313 (b) (25); and COMAR 10.34.10.01 A (1) and B (1).

## **II. CONCLUSIONS OF LAW**

Based on the foregoing Findings of Fact, the Board concludes as a matter of law that the Respondent violated §12-313 (b) (25); and COMAR 10.34.10.01 A (1) and B (1).

## **III. ORDER**
