ORDER FOR SUMMARY SUSPENSION OF PHARMACY TECHNICIAN REGISTRATION

The Maryland Board of Pharmacy (the “Board”) hereby summarily suspends the registration of Jeda Williams (the “Respondent”), Registration Number T26042, to practice as a pharmacy technician in the State of Maryland. The Board takes such action pursuant to the Board’s authority under Md. Code Ann., State Gov’t § 10-226(c)(2) (2021 Repl. Vol. & 2023 Supp.) and Code of Maryland Regulations (“COMAR”) 10.34.01.12F, concluding that the public health, safety, or welfare imperatively requires emergency action. This Order is based on the following investigative findings, which the Board has reason to believe are true:

INVESTIGATIVE FINDINGS¹

1. At all times relevant hereto, the Respondent was registered to practice as a pharmacy technician in the State of Maryland. The Respondent was originally registered

to practice as a pharmacy technician in Maryland on January 28, 2022, under registration number T26042. The Respondent's registration is scheduled to expire on August 31, 2025.

2. At all times relevant hereto, the Respondent was employed as a pharmacy technician at a pharmacy (the "Pharmacy")² located in Prince George's County, Maryland.

3. On February 8, 2024, the Pharmacy notified the Board that "[d]uring an internal investigation it was determined that [the Respondent] was stealing drugs from the pharmacy. She admitted to the theft during an interview with our loss prevention team. She has since been terminated."

4. The Pharmacy submitted an Amended DEA Form 106 – Report of Theft or Loss of Controlled Substances dated February 15, 2024. The report identified the type of theft or loss as "EMPLOYEE THEFT (OR SUSPECTED)."

5. The Board obtained a Pharmacy case report dated February 16, 2024. According to the report, on July 1, 2023, the Pharmacy discovered a drug shortage at the Pharmacy, but, after investigation, was unable to determine the cause. On August 17, 2023, the Pharmacy discovered a missing prescription in the ready bins, but, after investigation, was unable to determine the cause. The Pharmacy discovered a missing prescription in the ready bins on September 15, 2023, and then an additional missing prescription on September 16, 2023. After investigation, the Pharmacy obtained surveillance video showing the Respondent "remove both prescriptions from the bin, open the bag and conceal

the prescription bottles in her pocket on [September 15, 2023].” The Pharmacy then conducted additional investigations of the missing prescription discovered on August 17, 2023, and obtained surveillance video showing the Respondent “remove [the prescription] from the bin, open the bag and conceal the prescription bottle in her pocket on [August 12, 2023].”

6. On November 8, 2023, the Asset Protection Manager and the Store Manager for the Pharmacy interviewed the Respondent. During the interview, the Respondent “verbally admitted to removing drugs from the pharmacy on multiple occasions and selling them to a dealer.” The Respondent further provided a written statement, which stated, in part, “I did take some drugs. I do not do drugs. I was giving them to anothe[r] employee.”

7. Based on the above information, the Board has reason to believe that the Respondent diverted multiple controlled dangerous substances while employed as a pharmacy technician at the Pharmacy.

CONCLUSION OF LAW

Based on the foregoing Investigative Findings, the Board concludes as a matter of law that the public health, safety, or welfare imperatively requires emergency action in this case, pursuant to State Gov’t. § 10-226(c)(2) and COMAR 10.34.01.12F.
