MADAP Request for Early Refill/Extra Medication

MADAP provides standard coverage for prescription medications dispensed by a pharmacy for a 30-day supply for each fill. Before a refill is allowed, at least 80% of the supply of medication must be exhausted (i.e., 24 days of a 30-day supply). Under MADAP's pre-authorization policy, a client may receive an early refill or extra medication with a request being reviewed and approved by a MADAP Pharmacy Specialist team member.

Please note: The Extra Med/Early Refill Request Form is no longer required, requests should be made by following the steps below.

To initiate an Early Refill/Extra Medication request:

- Call Client Services at (410)767-6535 to be connected to a MADAP Pharmacy Specialist
- Please have all information readily available to help expedite this process such as:
 - Client Services ID
 - Dates of travel (if applicable)
 - Email/phone number where client can be contacted with final determination of the request
- Approval subject to primary insurance covering the medication (if applicable).
- All requests are subject to MADAP eligibility period. Expected turnaround time for a response within 24 hours (may take longer depending on the circumstances and depth of research required to make a decision).
- All requests will be reviewed and a determination will be provided on a case by case basis.
