

A battery-powered radio with extra batteries to receive emergency information.
Flashlights or battery-powered lanterns with extra batteries-don't use candles as they pose a serious fire risk.
Water to last three days-at least one gallon per person per day for drinking and sanitation. Start with one gallon this week.

Tips for Week One

- Start with these items that our local emergency responders consider most critical to getting you through the first 72 hours until basic services may be restored.
- Don't be overwhelmed by a huge list of items. We've identified the most important ones.
 Just buy a few items each week for seven weeks, and you'll be prepared for the most likely emergencies.
- Commercially bottled water is recommended to ensure safety. Replace before "use by" date expires.

Manual can opener
First Aid Kit - should include gauze and bandages, tweezers, scissors and antiseptic ointment
Airtight bags, storage containers, and a permanent marker
Extra prescription medications, and glasses, or contact lens solution
Bring home another gallon of water
Non-perishable food - start with a few cans of meat, fruits, peanut butter and crackers.
Plastic sheeting, tarp, and duct tape

Tips for Week Two

- Even if you have supplies throughout your house, it's important to keep an emergency supply kit in a designated place in case you have to leave your home quickly.
- Consider having at least two emergency supply kits one at home and one in your vehicle.
- Rotate your stock of food, water, medicines and batteries every six months to ensure freshness.

Dust filter masks
Whistle to signal for help
Finish buying water - at least one gallon per person per day
Cash and important family documents like copies of credit cards, insurance policies and deeds. Consider a water/fire proof container in your "go bag"
Regular household bleach, unscented, and an eye dropper - 16 drops to disinfect one gallon of water
Juice - single-serve size is best since you may not have refrigeration
Nutrition/high energy bars

Tips for Week Three

- Plan and discuss how you will escape your home in case of fire or a sudden emergency.
- Tap water may need to be purified with bleach following a disaster.
- Plan to have at least one can of meat or main entree' for each family member per day.
- Select two places to meet with your family after an emergency or disaster-one near your home and the other outside of your neighborhood in case it's not safe to return.

Disposable camera with flash to document damage
Utility knife and/or scissors
Trash bags - heavy duty
Matches in waterproof container
Sanitizing wipes
Extra set of car and house keys
Fruit - canned or snack-pack

Tips for Week Four

- Pack a "go bag" with a condensed version of your home emergency kit in case you need to relocate temporarily. If evacuating a note with detailed information.
- Dried fruit can be a good substitute for canned fruit.
- Stay in the habit of keeping your gas tank half full and keeping your cell phone charged.
- If you evacuate, remember your home or car phone charger.

Gloves - latex/non-latex
Plastic or paper plates, cups and utensils
Canned vegetables, soup/stew
Toilet paper and paper towels
Travel sizes of personal hygiene items - dental care, soap, feminine care, deodorant, etc.
Disinfectant - non-aerosol
Supplies for baby, elderly, or disability needs

Tips for Week Five

- Select an emergency contact person outside of the area for family members to call in case they are separated.
- Keep a copy of this seven-weeks list in your car to have handy when shopping. Check off items as you go.
- Make sure that all adults and teens in the family know how to turn off water and electric utilities. Always have a professional turn them back on.
- **Never** use a portable home generator in an enclosed area. Follow manufacturer's instructions.

Blankets and small pillows
Towels
Extra clothing, outerwear and comfortable footwear
Small photo album with current photos of family members and pets
Assorted crackers and nuts (low-salt or salt-free are best to reduce thirst)

Tips for Week Six

- Do you have home fire extinguishers (rated ABC)? Ask your local volunteer fire company to show you how to check them and when to replace them.
- Use a permanent marker to label storage containers. Circle or mark expiration dates and plan to rotate supplies every six months perhaps in the spring and fall when you change the clocks.

Small tool kit including wrench or pliers to shut off utilities, plus a hammer and nails
Signal flares
Insect repellant
Sunscreen
Granola or dry cereal
Food and extra water for pets
Fire extinguisher

Tips for Week Seven

- Print out emergency references pages from <u>Ready? Set? Good.</u> web site and keep in your emergency kit.
- Include pets in your plan. The <u>Humane Society</u> has pet preparedness tips for your pets.
- Take your "go bag" along on vacation.

Congratulations!

You now have a basic 72-hour home emergency preparedness kit. Practice your family plan and look for more information on our web site.
