Linkage to Care Within 1 Month of Diagnosis, Jan 2021-Jun 2022,
Among Persons Aged 13+

Source: CDC. HIV Surveillance Tables 2022; 3 (No 4), Tables 2b, 2c

Persons Prescribed PrEP

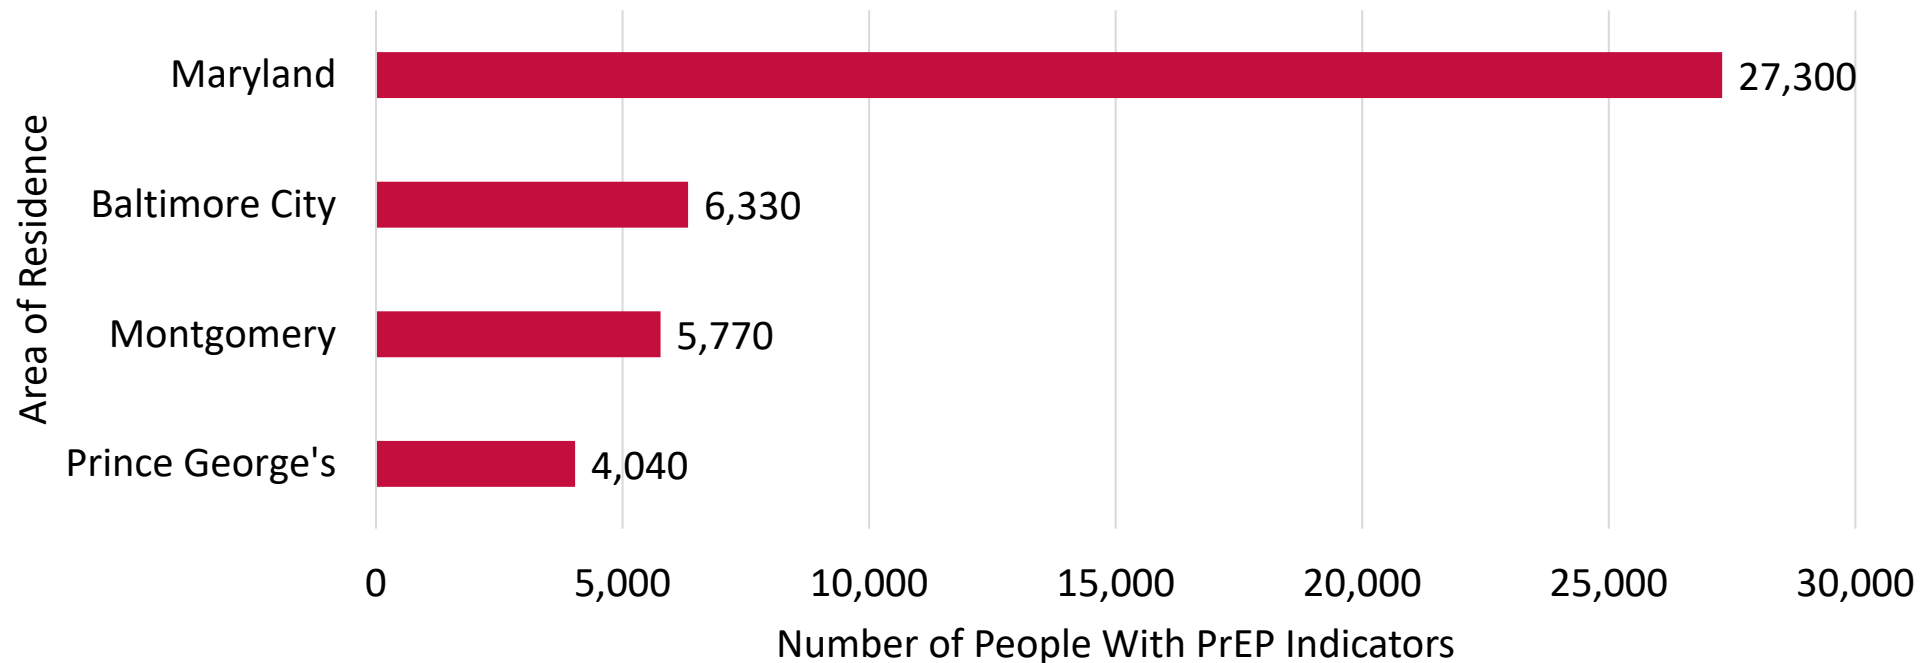

Source: CDC. HIV Surveillance Tables 2022; 3 (No 4), Tables 3b, 3c

PrEP Indicators

Number of People With PrEP Indicators, Jan 2019-Jun 2022,
Among Persons Age 16+

Source: CDC. HIV Surveillance Tables 2022; 3 (No 4), Tables 3b, 3c

PrEP Coverage

Estimated PrEP Coverage, Jan 2019-Jun 2022, Among Persons Aged 16+

Source: CDC. HIV Surveillance Tables 2022; 3 (No 4), Tables 3b, 3c

Additional Data

- Please see the reports for details on variables, data sources, and estimation methods
 - <https://www.cdc.gov/hiv/library/reports/surveillance-data-tables/index.html>
- Additional data are available in the reports for the other states, territories, and EHE jurisdictions, by demographics and HIV transmission categories
- Differences between CDC surveillance reports and Maryland epidemiological reports are due to differences in reporting lags, deduplication processes, and reporting requirements at the state and national level
