

Welcome to Maryland MyIR Mobile!

MyIR™ stands for My Immunization Record, a public portal that can securely pull vaccination records from ImmuNet, Maryland's Immunization Information System (IIS). All users must be 18 years or older. Once registered with MyIR Mobile, you will be able to obtain official vaccination records for daycare, camps, schools, employment or travel, if you or your children were vaccinated in the State of Maryland.

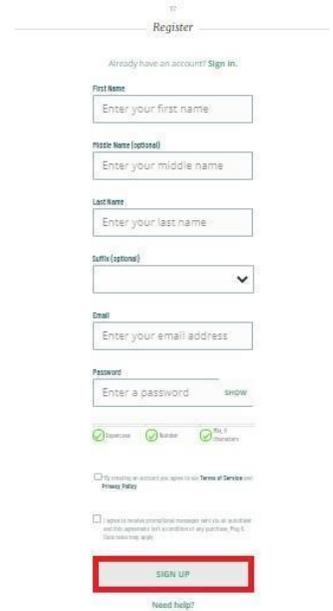

By referring to this **Maryland MyIR Mobile User Guide** you will be able to:

- [Register in MyIR Mobile](#)
- [Find Your Vaccination Records](#)
- [View/Print Your Immunization Records](#)
- [Download Certification of COVID-19 Vaccination](#)
- [View/Print COVID-19 Proof of Vaccination with QR Code](#)
- [Add Dependent\(s\)/Children](#)
- [Request Assistance When a Match Is Not Found](#)
- [Multi-State Functionality \(Add Connection to Other States\)](#)

1. Register in MyIR Mobile

The Maryland MyIR portal is at www.MyIRMobile.com

- Select the **Register** button and choose **'Maryland'**.
- Enter your **First Name, Middle Name (optional), Last Name, Email Address, and Password**, read and agree to their Terms of Service, then select the **'Sign Up'** button.
- Check that your name and email address are correct and enter the **mobile phone number** where you can receive the verification code. Ensure the mobile phone number is correct before selecting **'Send The Code'**.
- Enter the 6-digit verification code and **select 'Continue'**. Enter the 6-digit authentication code and **select 'Continue'**. Select your answer to 'How did you find out about MyIR Mobile' from the drop-down menu then click **'Continue'**.

MyIR Mobile now uses **Multi-Factor Authentication (MFA)** to provide stronger login security for all users. MFA requires you to provide an authentication code that is texted to your phone. Existing users can update their phone number for MFA once and can reach out to MyIR Mobile technical support team by using the MyIR Help Desk Chat Bot (at the bottom of the screen) then click **'Need Help?'** or submit a [MyIR Mobile Support Services](#) for further assistance. Users may be asked to update their **'Notification Settings'** (notification preferences by type and delivery method) upon login.

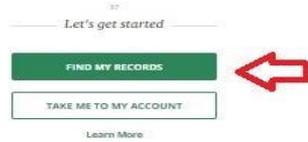

Spanish language is available under the drop down menu found at the top right corner of the screen.

Note: Make sure to **verify your email address** to be able to use MyIR's password reset functionality.

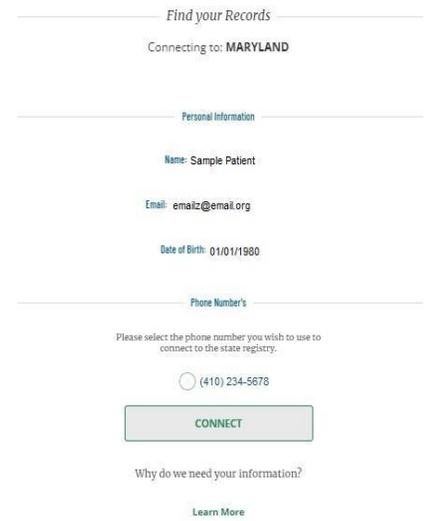

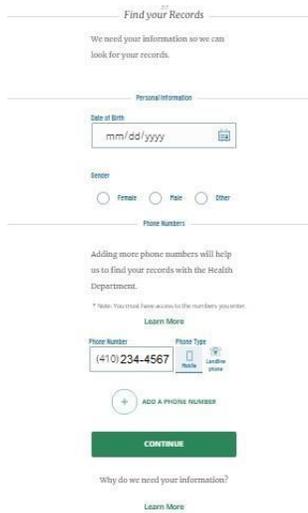

2. Find Your Vaccination Records

A. Select 'Find My Records'

B. Enter the required demographic information (**date of birth and gender**). Ensure that the listed phone number is correct. Select 'Add a Phone Number' to add additional phone numbers. Please remember that when filling out these fields, the system will attempt to match your personal information with what is on record in ImmuNet. Identify whether the number is a mobile number or landline. Review your demographic information (note that adding your middle name can help find a match), click 'Continue' then select the phone number you wish to use then click '**Connect**'.

C. When a match is found or your record is located in ImmuNet, you will see a message '**We've linked your records**'. Select '**Take Me to My Account**' to view your immunization history.

Good news Sample Patient

We've linked your records!

Now you can:

- Review your immunization history and what else you might need.
- Add your kids and check out their immunization history.
- Download your family's official immunization records.

TAKE ME TO MY ACCOUNT

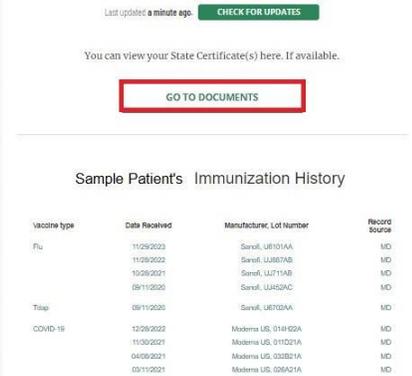

3. View/Print Immunization Records

A. To view/print your immunization history, select **'Go To Documents'** or **'Documents'** to view and print the following (if available):

- Immunization History and Needs
- Maryland Certificate of Immunization (Form 896)
- Certification of COVID-19 Vaccination

Note: If you are logging back into MyIR Mobile, please click **'Check For Updates'** to view your updated immunization history then go to 'Documents' to view/download your Certification of COVID-19 Vaccination or Maryland Certificate of Immunization.

B. All documents are in pdf format and can be downloaded, printed and saved on your computer, tablet or phone.

4. Download Certification of COVID-19 Vaccination

- Select **'Certification of COVID-19 Vaccination'** to download it as a pdf file. You can also save this file on your computer, tablet or phone.

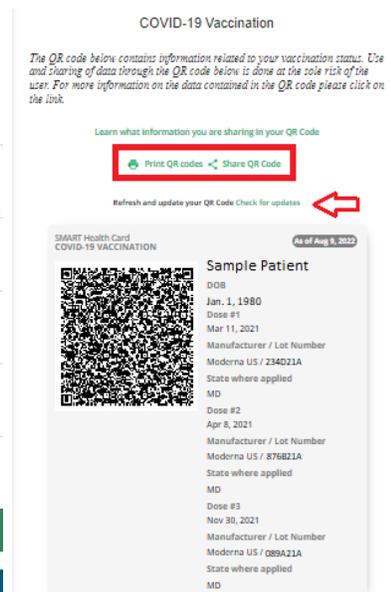

5. View/Print COVID-19 Proof of Vaccination with QR Code

- Select **'COVID-19'** on the left menu under 'Immunizations' to view the SMART Health Card QR Code for your COVID-19 vaccinations. If you wish to print or share your QR code, select **'Print QR codes'** or **'Share QR code'**. You can also take a photo of the QR code and save it on your mobile device.

If you recently received a second or booster COVID-19 dose, select **'Check For Updates'** to generate a new QR code.

Note: You can save your QR code on your smartphone. You can also scan/verify it with the Smart Health Card Verifier App (info [here](#)). Refer to MyIR Mobile Help Page ([here](#)) for more information about QR Codes.

6. Add Dependent(s)/Children

- To request records for your child who is under the age of 18, select the green button **'Add A Child'**.
- Type in the demographic information for the child that you are requesting records for.
- If you need to add more dependents, select the **'Add a Child'** button and repeat the process for each additional dependent.

7. Request Assistance When a Match Is Not Found

If you do not get a record match, try any of the following:

- A.** Enter a different phone number. If you are not able to find a match after three attempts, select **'Help Me Match'** to submit a MyIR Mobile support request or select **'Take Me To My Account'** then click **'Try Again'**.

Sample Patient we have a problem

We couldn't verify your identity. The phone number you entered does not match what's on file with the Health Department. Try another phone number and we'll look again.

Phone Number Phone Type Mobile Landline

You have 3 attempts left.

Sample Patient's Immunization Needs

You will see your immunization history and needs once you are linked to the state health department.

[Learn More](#)

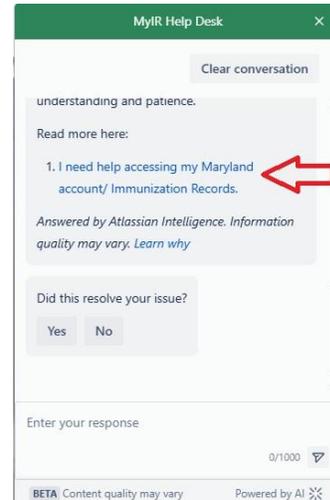

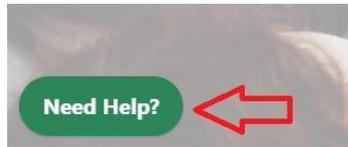

Try Again

- B.** Complete and submit a **'Maryland Records Request Form'** to update your information in ImmuNet (Maryland's Immunization Information System)

- Click on **'Contact Us'** (found on the upper right corner of the screen) then **'Customer Request'**, scroll down to **'Assistance Needed'** and choose **'Help with People Records'** then select **Maryland** under **'Your State'**. Click on **'Maryland MDH Form'** to submit a Records Request.

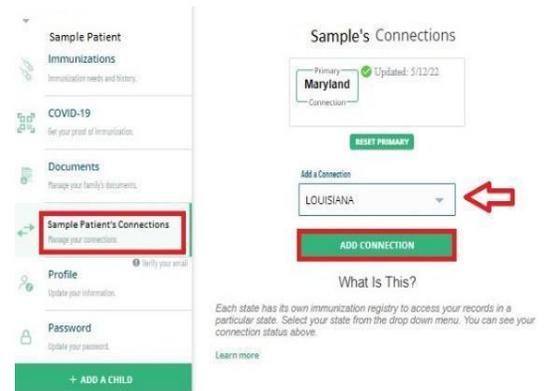

C. Click **'Need Help ?'** and type **'Maryland'** then scroll down and click the link **'I need help accessing my Maryland account/Immunization Records'** then select the link for **'Maryland ImmuNet Records Request Form'**.

8. Multi-State Functionality (Add Connection to Other States)

- In addition to your connection to Maryland, MyIR Mobile allows you to connect to the following states: Arizona, Louisiana, Mississippi, North Dakota and Washington. If you or your children have vaccination records from any of the above-mentioned states, you can add a connection by following the steps below:

- Select **'Manage Your Connections'** found on the left menu;
- Choose the state you want to connect to under the drop down menu;
- Select **'Add Connection'** and follow the same process under **'Finding Your Vaccination Records'**;
- If you do not get a match from your added state, select the green chat circle and follow the prompts to request matching assistance.

NOTE: Your **'Primary Connection'** refers to the state where your updated immunization history will be pulled from each time you select **'Check for Updates'** under **'Immunizations'**.

Refer to [MyIR Mobile Help Center](#) for more information or submit a [MyIR Mobile Support Service Request](#) for additional assistance.
