**Reports for Quality Assurance (QA): Client Database (CDB) Guidance #70
March 2014**

This guidance provides local CDB users with a list of reports that can be run in order to perform QA activities on records in the CDB. These reports will identify records that need correction or further follow-up and should be run at least quarterly. This guidance can be used in conjunction with the guidance and instructions provided in Health Officer Memo #06-23 on Quality Assurance in the CDB: What You Can Do to Combat Errors.
