A. Welcome / Introductions

B. Mission Statement:

The mission of the Maryland Diabetes Action Committee is to improve the health of the communities we serve through a coordinated and meaningful initiative to address the prevention and management of diabetes in Maryland. As a collaboration of organizations and partners, across multiple sectors, we come together to identify opportunities to improve health outcomes in those identified as at risk for diabetes or diabetes complications. We will act in our areas of influence to align efforts and resources to reduce the burden of diabetes.

C. Review of Chronic Disease Action Plan

- a. Nkeiruka Ashiedu, Healthy Weight Coordinator

D. Diabetes Dashboard Updates

- a. Snehal Gawhale, Epidemiologist for the Cancer and Chronic Disease Bureau

E. Follow-Up from 9/25/24 Meeting

- a. Common themes from diabetes activities in other jurisdictions
- b. Population Measure Follow-Up:
 - i. Data on Spanish speaking classes in Maryland
 - ii. Barriers to accessing diabetes classes
- c. Hospital Measure Follow-Up:

- i. What should the focus of this data be?
 - 1. Diabetes versus prediabetes?
 - 2. Are there certain codes that are pre-populated to look for?
 - 3. How is it being determined if it is a “diabetes related” visit?
 - 4. Can the visits be broken down on diagnostic codes?
 - 5. Which ICD 10 codes should be a focus?

F. ADA State of Diabetes Conference

- a. Darryl Heggans, Executive Director (DC-MD-NOVA Region)

G. Next Meeting: Wednesday November 20, 2024 at 5:00 p.m
