#### **A. Welcome / Introductions**

#### **B. Mission Statement:**

The mission of the Maryland Diabetes Action Committee is to improve the health of the communities we serve through a coordinated and meaningful initiative to address the prevention and management of diabetes in Maryland. As a collaboration of organizations and partners, across multiple sectors, we come together to identify opportunities to improve health outcomes in those identified as at risk for diabetes or diabetes complications. We will act in our areas of influence to align efforts and resources to reduce the burden of diabetes.

#### **C. Diabetes Dashboard Updates**

- a. Snehal Gawhale, Epidemiologist for the Cancer and Chronic Disease Bureau

#### **D. Review of Diabetes Activities from Other Jurisdictions**

- a. Olivia Massa, Diabetes Coordinator for the Center for Chronic Disease Prevention and Control

#### **E. Review of the selected Dashboard Measures**

- a. Set Goals for the Following Measures (Aligned with SHIP and PHS)
  - i. Population Measure: Ever Attended a Diabetes Management Class
  - ii. Hospital Measures: Diabetes Emergency Department Visits
- b. Discussion about the activities to reach the goals.

#### **F. Next Meeting: Wednesday, October 30, 2024 at 5:00 p.m**
