

# 2025 Legislative Priorities

# 2025 Legislative Priorities

- Restore funding for the Long-Term Care and Dementia Care Navigation Program.
- Advance awareness of Alzheimer's treatment.
- Create a public health surveillance reporting process for Alzheimer's and other dementia in Maryland.

# Raising Awareness - Treatment

- Update existing statute to require public health outreach campaigns on dementia include information about treatment.

# Public Health Surveillance

- The ADRD State Plan recommends an annual data report using the State's Health Information Exchange (CRISP) to evaluate health characteristics and linked health utilization outcomes.
- The proposed legislation would establish a publicly available website with data on incidence and health utilization outcomes.
