Reminders for Parents & Caregivers	
	Do: Talk with your child’s health care provider if you are not sure about what is safe for your baby.
	Do NOT: Water down formula.
	Do NOT: Try to make formula at home.
	Do NOT: Use toddler formula for younger babies.
	Some babies can’t take standard or “regular” formula. Specialty formula is a specifically recommended product to manage or treat medical conditions.
	Purchase no more than a 10 to 14-day supply so that product is available for all infants.
