INTRODUCTION

This report highlights data from births occurring to Maryland residents in 2011 collected through the Pregnancy Risk Assessment Monitoring System (PRAMS). PRAMS is a surveillance system established by the Centers for Disease Control and Prevention (CDC) in 1987 to obtain information about maternal behaviors and experiences that may be associated with adverse pregnancy outcomes. Data are collected by surveying women who have recently delivered live born infants.

PRAMS projects are conducted through cooperative agreements between the CDC and state health departments. PRAMS projects are currently underway in 40 states and New York City, representing 78% of all U.S. live births. All surveys include a core set of standardized questions, which allows for multi-state analyses. In addition, each state can add questions tailored to meet its needs. The core section of the survey includes questions relating to prenatal care, obstetric history, smoking, alcohol use, physical abuse, contraception, economic status, maternal stress, and infant health. The Maryland-specific section of the survey includes questions on assisted reproduction, pre-pregnancy health, co-sleeping, contraceptive use, depression, oral health, chronic disease, physical activity, and infections.

The PRAMS project in Maryland is a collaborative effort of the Maternal and Child Health Bureau (MCHB), the Vital Statistics Administration (VSA) of the Maryland Department of Health and Mental Hygiene, and the CDC. Maryland began collecting PRAMS data from mothers who delivered in 2000.

METHODOLOGY

Sampling and Data Collection

Women eligible to participate in PRAMS are selected from Maryland’s live birth certificate files and need to be Maryland residents who have delivered in the state. Each month, a stratified, random sample of approximately 200 live births is selected. The sample is stratified by maternal age (<35 years, ≥35 years) and infant birth weight (<2500 grams, ≥2500 grams). This sampling frame over-samples mothers who have delivered a low birth weight infant (<2500 grams) as well as mothers who are 35 years of age or older.

PRAMS combines two modes of data collection, a survey conducted by mailed questionnaire with multiple follow-up attempts, and if mail is not successful, a survey conducted by telephone interview. Survey questionnaires and other materials are available in both English and Spanish.

The first mailing, which is done two to four months after delivery, is a letter that introduces PRAMS to the mother and informs her that a questionnaire will soon arrive. Within seven days of this letter, the questionnaire packet is mailed. This packet includes the 73-item main survey along with a 12-question flu supplement, informed consent page, calendar, and resource brochure. In addition, a pocket calendar is sent as an incentive for completing the
survey. Seven to 10 days after the initial packet is mailed, a tickler that serves as a thank you and reminder note is sent. Mothers who do not respond to the tickler within seven to 14 days are mailed a second questionnaire packet. A third questionnaire packet is mailed to all remaining nonrespondents seven to 14 days later. Telephone follow-up is initiated for all nonrespondents.

Data collected through PRAMS are linked to birth certificate data, which allows for the survey data to be weighted to reflect the total birth population. Sampling, nonresponse and noncoverage adjustment factors are applied to the data in order to make the results generalizable to the state’s population of women delivering live born infants during the study period. Further information on PRAMS methodology, including weighting procedures, may be found on the CDC website at http://www.cdc.gov/reproductivehealth/methodology.htm.

Survey Response and Data Analysis

CDC recommends that states obtain a response rate of at least 65% for analysis of PRAMS. The weighted response rate among women delivering in Maryland between January 1, 2011 and December 31, 2011 was 65%. During this period, 1,466 mothers completed the PRAMS questionnaire with a weighted response reflecting 66,202 mothers. The weighted figure included 30,084 births to white non-Hispanic, 20,813 births to black non-Hispanic, 4,771 births to Asian, and 9,186 births to Hispanic women. Survey findings in this report are shown by race/Hispanic origin (White Non-Hispanic, Black Non-Hispanic, Asian and Hispanic), maternal age and maternal years of education.

ACKNOWLEDGMENTS

The Maryland PRAMS Project would like to acknowledge the CDC PRAMS Team for their technical assistance and support, especially Denise D’Angelo, MPH, our project manager who has expertly guided and assisted our program. Additionally, our thanks go to the Maryland PRAMS Steering Committee for their invaluable input to many aspects of our project.

Most importantly, we very much appreciate all the 1,466 mothers who took the time to complete the questionnaires that are represented in this report. Their answers will contribute greatly towards our continuing efforts to improve the health of Maryland mothers and babies.

Maryland PRAMS Highlights--2011

Preconception factors

- Forty-six percent of all live births were unintended.
- Seventy-one percent of women reported having health insurance just before pregnancy, 17% reported they were covered by Medicaid or Health Choice and 16% were uninsured.
- According to their body mass index (BMI) just before pregnancy, 22% of mothers were overweight and 23% were obese.
- Thirty percent of women reported taking a multivitamin daily in the month before conception.
- Six percent of mothers used fertility treatments to help conceive.
- In the 12 months before pregnancy, 41% of women had not had a dental cleaning.
- Thirty percent of mothers reported they had a preconception health visit.

Prenatal factors

- Eighty-two percent of mothers began prenatal care during the first trimester of pregnancy, and 1% began in the third trimester or received no care.
- Forty-four percent of women participated in the WIC program during pregnancy.
- Sixty-three percent of mothers reported one or more medical complications during pregnancy; severe nausea and bladder or kidney infection were the most common complications.
- Seventy-two percent of mothers reported that HIV testing was discussed during prenatal care visits; 69% reported getting an HIV test.
- Physical abuse by a current husband or partner was reported by 3% of mothers.
- Seven percent of women smoked during the last three months of pregnancy. Nine percent of women reported using alcohol and 1% of women reported a binge-drinking episode during the last three months of pregnancy.
- Forty-six percent of women were vaccinated for seasonal flu during pregnancy.
- The delivery method for 36% of mothers was by cesarean section.
- Sixty-four percent of women reported that health insurance or an HMO paid for their delivery; 36% used Medicaid or Health Choice for their delivery; 2% were uninsured.

Infant health and related factors

- Twelve percent of newborns were admitted to a neonatal intensive care unit.
- Fifty-three percent of newborns were discharged from the hospital within two days of delivery, 8% remained in the hospital for 6 or more days.
- Eighty-five percent of infants were breastfed after delivery, and 63% were breastfed eight weeks or longer.
- In terms of sleeping position, 77% of infants were usually placed on their backs to sleep.

Maternal postpartum factors

- Seventeen percent of mothers reported they were not using postpartum contraception.
- Twelve percent of mothers smoked postpartum.
- Eight percent of mothers reported that they were told by their health provider that they had postpartum depression.

*PRAMS data includes only information on pregnancies that end in live birth
**First trimester defined by PRAMS as <13 weeks
*** Binge drinking = 4 or more drinks in a two hour sitting, starting 2009 births.
Prior to 2009, binge drinking = 5 or more drinks in one episode.
Pre-Pregnancy Factors
“No, I didn’t use (birth control) because I thought that I wasn’t able to get pregnant because my other girl is already 13 years old.”

“I didn’t know I had to take them (vitamins) before getting pregnant and I wasn’t planning to get pregnant.”

“He doesn’t want to use a condom. He would be okay with me using an oral contraceptive, but when it comes to using a condom....”

PRAMS mothers
INTENDEDNESS OF PREGNANCY

Question 15: Thinking back to just before you got pregnant with your new baby, how did you feel about becoming pregnant?

Distribution of Mothers by Intendedness of Pregnancy

- Wanted to be pregnant sooner: 18%
- Wanted to be pregnant later: 32%
- Didn't want to be pregnant then or later: 14%
- Wanted to be pregnant then: 36%

Unintended pregnancies 46%

Intended pregnancies 54%

PREGNANCY INTENTION AND BIRTH CONTROL USE

Question 16: When you got pregnant with your new baby, were you trying to get pregnant?
Question 17: When you got pregnant with your new baby, were you or your husband or partner doing anything to keep from getting pregnant?
Question 18: What were your reasons or your husband’s or partner’s reasons for not doing anything to keep from getting pregnant?

Mothers Reporting Reasons for Not Using Birth Control

- Didn't mind getting pregnant: 44%
- Thought couldn't get pregnant at that time: 30%
- Partner didn't want to use: 27%
- Had side effects from birth control: 13%
- Had problems obtaining birth control: 7%
- Thought was sterile: 6%
FERTILITY TREATMENT

Question 19: Did you take any fertility drugs or receive any medical procedures from a doctor, nurse, or other health care worker to help you get pregnant with your new baby? (This may include infertility treatments such as fertility-enhancing drugs or assisted reproductive technology.)

Distribution of Mothers Who Were Attempting to Become Pregnant by Use of Fertility Treatment

- Not trying to get pregnant: 54%
- Trying to get pregnant, Didn't Use Fertility Treatment: 40%
- Trying to get pregnant, Used Fertility Treatment: 6%

Percentage of Mothers Who Reported Using Fertility Treatment

*Includes only mothers ages 20 and above.

Note: Percentages are not reported if the number of respondents was less than five.
Distribution of Mothers by Frequency of Multivitamin Use in the Month Before Pregnancy

- Didn't take: 54%
- Every day: 30%
- 1-3 times/week: 9%
- 4-6 times/week: 7%

Percentage of Mothers Who Reported Less Than Daily Multivitamin Use in the Month Before Pregnancy

*Includes only mothers ages 20 and above.
PRE-PREGNANCY BMI

Question 5: Just before you got pregnant with your new baby, how much did you weigh?
Question 6: How tall are you without shoes?

Distribution of Mothers by BMI Status Before Pregnancy

- **Underweight (<18.5)**: 3%
- **Normal (18.5-24.9)**: 52%
- **Overweight (25-29.9)**: 22%
- **Obese (30+)**: 23%

* Mothers <20 years of age had BMI >30 (and were not classified as obese via childhood growth charts)
**Includes only mothers ages 20 and above.

Note: Percentages are not reported if the number of respondents was less than five.

Percentage of Mothers Who Were Classified as Obese Before Pregnancy

Note: Percentages are not reported if the number of respondents was less than five.
PRE-PREGNANCY HEALTH PROBLEMS

Question 11: During the 3 months before you got pregnant with your new baby, did you have any of the following health problems?

Mothers Reporting Health Problems During the Three Months Prior to Pregnancy

- Anemia: 12%
- Anxiety: 12%
- Depression: 11%
- Asthma: 9%
- Thyroid Problems: 4%
- Hypertension: 4%
- Diabetes: 2%
- Heart Conditions: 1%
- Epilepsy: 1%
PRE-PREGNANCY ACTIVITIES
Question 1: At any time during the 12 months before you got pregnant with your new baby, did you do any of the following things?

Mothers Reporting Activities During the Twelve Months Prior to Pregnancy

- Had teeth cleaned: 59%
- Exercising 3+ days/week: 46%
- Discussed family medical history: 31%
- Dieting: 26%
- Taking Rx (other than birth control): 20%
- Checked for depression: 14%
- Checked for hypertension: 13%
- Checked for diabetes: 11%
TOPICS DISCUSSED DURING PRE-PREGNANCY HEALTHCARE VISITS

Question 8: Before you got pregnant with your new baby, did a doctor, nurse, or other health care worker talk with you about how to prepare for a healthy pregnancy and baby?

Mothers Reporting Topics Discussed During Pre-Pregnancy Visits

- Taking vitamins: 86%
- Healthy weight: 66%
- Safety of medications: 63%
- How alcohol affects baby: 63%
- How smoking affects baby: 60%
- How illegal drugs affect baby: 57%
- Updating immunizations: 45%
- Visiting a dentist: 44%
- Getting genetic counseling: 32%
- Controlling medical conditions: 31%
- Getting treatment for depression: 23%

Distribution of mothers reporting that a health care worker discussed how to prepare for a healthy pregnancy:

- Yes: 30%
- No: 70%
Question 40: This question is about things that may have happened during the 12 months before your new baby was born. For each item, circle YES if it happened to you or NO if it did not.

### Mothers Reporting Stress by Type of Event

- Moved to a new address: 32%
- Argued with partner more than usual: 24%
- Couldn't pay bills: 22%
- Family member hospitalized: 20%
- Someone close died: 12%
- Husband/partner lost job: 12%
- Mother lost job: 11%
- Someone close had alcohol/drug problem: 10%
- Husband/partner didn't want pregnancy: 10%
- Separation/divorce: 7%
- Homeless: 5%
- Was in a Physical Fight: 5%
- Mother, Husband or Partner Went to Jail: 3%

### Distribution of mothers by number of stressors

- None: 30%
- One or More: 70%
Within Past Year: 60%
12-23 months: 15%
24-59 months: 13%
5 or more years: 7%
Never: 5%

Distribution of Mothers by Time Since Last Teeth Cleaning

Percentage of Mothers Who Reported Having Had their Teeth Cleaned More than 5 Years Ago or Never

*Includes only mothers ages 20 and above.
Note: Percentages are not reported if the number of respondents was less than five.
Prenatal Factors
“More moms need prenatal care. I know a few people that didn’t get prenatal care which is unfortunate because the baby really needs it.”

“I don’t think anybody ever asked me about smoking, drinking, and illegal drugs. I am pretty educated and I knew about these things and I think young mothers need someone to talk about these things.”

PRAMS mothers
TRIMESTER PRENATAL CARE BEGAN

Question 22: How many weeks or months pregnant were you when you had your first visit for prenatal care?

Distribution of Mothers by Trimester Prenatal Care Began

First trimester 82%

Second trimester 17%

Third trimester <1%

No prenatal care <1%

Percentage of Mothers Who Did Not Begin Prenatal Care During the First Trimester of Pregnancy

*Includes only mothers ages 20 and above.

Race and ethnicity | Age | Years of education*
---|---|---
White Non Hispanic | 26 | 34 | 33
Black Non Hispanic | 28 | 34 |
Asian | 31 | 15 | 10
Hispanic | 34 | 17 | 15

Distribution of Mothers by the Number of Alcoholic Drinks During the Last Three Months of Pregnancy

Percentage of Mothers Who Reported Any Alcohol Use in the Last Three Months of Pregnancy

*Includes only mothers ages 20 and above.
Note: Percentages are not reported if the number of respondents was less than five.
ALCOHOL BINGES BEFORE PREGNANCY

Question 38b: During the 3 months before you got pregnant, how many times did you drink 4 alcoholic drinks or more in one sitting? (A sitting is a two hour time span.)

Distribution of Mothers by the Number of Alcohol Binges (4+ Drinks in One Sitting) During the Three Month Period Preceding Pregnancy

None 78%
One 9%
Two or more 13%

Percentage of Mothers Who Reported Any Binge Drinking in the Three Months Preceding Pregnancy

*Includes only mothers ages 20 and above.
ALCOHOL BINGES DURING PREGNANCY

Question 39b: During the last 3 months of your pregnancy, how many times did you drink 4 alcoholic drinks or more in one sitting? (A sitting is a two hour time span.)

Distribution of Mothers by the Number of Alcohol Binges (4+ Drinks in One Sitting) During the Last Three Months of Pregnancy

- No binges: 99%
- One or more binges: 1%

Percentage of Mothers Who Reported Any Binge Drinking in the Last Three Months of Pregnancy

*Includes only mothers ages 20 and above.
Note: Percentages are not reported if the number of respondents was less than five.
PHYSICAL ABUSE BEFORE PREGNANCY

Question 41: During the 12 months before you got pregnant with your new baby, did your husband or partner push, hit, slap, kick, choke, or physically hurt you in any other way?

Distribution of Mothers by Abuse Before Pregnancy by Husband or Partner

No abuse 97%

Abuse 3%

Percentage of Mothers Who Reported Being Physically Abused Before Pregnancy by a Husband or Partner

*Includes only mothers ages 20 and above.

Note: Percentages are not reported if the number of respondents was less than five.
PHYSICAL ABUSE DURING PREGNANCY

Question 42: During your most recent pregnancy, did your husband or partner push, hit, slap, kick, choke, or physically hurt you in any other way?

Distribution of Mothers by Abuse During Pregnancy by Husband or Partner

No abuse 97%
Abuse 3%

Percentage of Mothers Who Reported Being Physically Abused During Pregnancy by a Husband or Partner

*Includes only mothers ages 20 and above.
Note: Percentages are not reported if the number of respondents was less than five.
Postpartum Factors
Maternal and Infant Health
“I think facilities (stores, restaurants, etc.) should have designated areas to nurse their babies. This reduces the need for ‘shy’ mothers, such as myself, to formula feed because they don’t want to nurse in public.”

“She always sleeps with me, but she has her crib. I lay her in her crib every once in awhile.”

“If you feel depressed, say something!”

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2. During the month before you got pregnant with your new baby, were you covered by any of these health insurance plans? Check all that apply

- [ ] Health insurance from your job or the job of your husband, partner, or parents
- [ ] Health insurance that you or someone else paid for (not from a job)
- [ ] Medicaid or HealthChoice
- [ ] TRICARE or other military health care
- [ ] Other source(s) ——— Please tell us: ________________________________

- [ ] I did not have any health insurance before I got pregnant

3. During the month before you got pregnant with your new baby, how many times a week did you take a multivitamin, a prenatal vitamin, or a folic acid vitamin? Check all that apply

- [ ] I didn’t take a multivitamin, prenatal vitamin, or folic acid vitamin at all
- [ ] 1 to 3 times a week
- [ ] 4 to 6 times a week
- [ ] Every day of the week

4. What were your reasons for not taking multivitamins, prenatal vitamins, or folic acid vitamins during the month before you got pregnant with your new baby? Check all that apply

- [ ] I wasn’t planning to get pregnant
- [ ] I didn’t think I needed to take vitamins
- [ ] The vitamins were too expensive
- [ ] The vitamins gave me side effects (such as constipation)
- [ ] Other ——— Please tell us: ________________________________

Please mark your answers. Follow the directions included with the questions. If no directions are presented, check the box next to your answer or fill in the blanks. Because not all questions will apply to everyone, you may be asked to skip certain questions.
5. *Just before* you got pregnant with your new baby, how much did you weigh?

- Pounds OR Kilos

6. How tall are you without shoes?

- Feet Inches OR Meters

7. What is your date of birth?

- Month Day Year

8. *Before* you got pregnant with your new baby, did a doctor, nurse, or other health care worker talk with you about how to prepare for a healthy pregnancy and baby?

- No -> Go to Question 10
- Yes

9. *Before* you got pregnant with your new baby, did a doctor, nurse, or other health care worker talk with you about any of the things listed below? *Please count only discussions,* not reading materials or videos. For each item, circle Y (Yes) if someone talked with you about it or circle N (No) if no one talked with you about it.

- Taking vitamins with folic acid before pregnancy. N Y
- Being a healthy weight before pregnancy. N Y
- Getting my vaccines updated before pregnancy. N Y
- Visiting a dentist or dental hygienist before pregnancy. N Y
- Getting counseling for any genetic diseases that run in my family. N Y
- Controlling any medical conditions such as diabetes and high blood pressure. N Y
- Getting counseling or treatment for depression or anxiety. N Y
- The safety of using prescription or over-the-counter medicines during pregnancy. N Y
- How smoking during pregnancy can affect a baby. N Y
- How drinking alcohol during pregnancy can affect a baby. N Y
- How using illegal drugs during pregnancy can affect a baby. N Y
10. Before you got pregnant with your new baby, were you ever told by a doctor, nurse, or other health care worker that you had Type 1 or Type 2 diabetes? This is not the same as gestational diabetes or diabetes that starts during pregnancy.

- No
- Yes

11. During the 3 months before you got pregnant with your new baby, did you have any of the following health problems? For each one, circle Y (Yes) if you had the problem or circle N (No) if you did not.

<table>
<thead>
<tr>
<th>No</th>
<th>Yes</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Asthma</td>
<td>N Y</td>
</tr>
<tr>
<td>b. High blood pressure (hypertension)</td>
<td>N Y</td>
</tr>
<tr>
<td>c. Anemia (poor blood, low iron)</td>
<td>N Y</td>
</tr>
<tr>
<td>d. Heart problems</td>
<td>N Y</td>
</tr>
<tr>
<td>e. Epilepsy (seizures)</td>
<td>N Y</td>
</tr>
<tr>
<td>f. Thyroid problems</td>
<td>N Y</td>
</tr>
<tr>
<td>g. Depression</td>
<td>N Y</td>
</tr>
<tr>
<td>h. Anxiety</td>
<td>N Y</td>
</tr>
</tbody>
</table>

12. Before you got pregnant with your new baby, did you ever have any other babies who were born alive?

- No
- Yes

13. Did the baby born just before your new one weigh more than 5 pounds, 8 ounces (2.5 kilos) at birth?

- No
- Yes

14. Was the baby just before your new one born more than 3 weeks before his or her date?

- No
- Yes

The next questions are about the time when you got pregnant with your new baby.

15. Thinking back to just before you got pregnant with your new baby, how did you feel about becoming pregnant?

- I wanted to be pregnant sooner
- I wanted to be pregnant later
- I wanted to be pregnant then
- I didn’t want to be pregnant then or at any time in the future

16. When you got pregnant with your new baby, were you trying to get pregnant?

- No
- Yes

17. When you got pregnant with your new baby, were you or your husband or partner doing anything to keep from getting pregnant? (Some things people do to keep from getting pregnant include not having sex at certain times [natural family planning or rhythm] or withdrawal, and using birth control methods such as the pill, condoms, vaginal ring, IUD, having their tubes tied, or their partner having a vasectomy.)

- No
- Yes

Go to Page 5, Question 21
Go to Page 4, Question 18
18. What were your reasons or your husband’s or partner’s reasons for not doing anything to keep from getting pregnant?

- I didn’t mind if I got pregnant
- I thought I could not get pregnant at that time
- I had side effects from the birth control method I was using
- I had problems getting birth control when I needed it
- I thought my husband or partner or I was sterile (could not get pregnant at all)
- My husband or partner didn’t want to use anything
- Other ———— Please tell us:

Check all that apply.

If you were not trying to get pregnant when you got pregnant with your new baby, go to Question 21.

19. Did you take any fertility drugs or receive any medical procedures from a doctor, nurse, or other health care worker to help you get pregnant with your new baby? (This may include infertility treatments such as fertility-enhancing drugs or assisted reproductive technology.)

- No ———— Go to Question 21

- Yes ———— Go to Question 20

Go to Question 21

Go to Question 20

20. Did you use any of the following fertility treatments during the month you got pregnant with your new baby?

- Fertility-enhancing drugs prescribed by a doctor (fertility drugs include Clomid®, Serophene®, Pergonal®, or other drugs that stimulate ovulation)
- Artificial insemination or intrauterine insemination (treatments in which sperm, but NOT eggs, were collected and medically placed into a woman’s body)
- Assisted reproductive technology (treatments in which BOTH a woman’s eggs and a man’s sperm were handled in the laboratory, such as in vitro fertilization [IVF], gamete intrafallopian transfer [GIFT], zygote intrafallopian transfer [ZIFT], intracytoplasmic sperm injection [ICSI], frozen embryo transfer, or donor embryo transfer)
- Other medical treatment ———— Please tell us:

- I wasn’t using fertility treatments during the month that I got pregnant with my new baby
DURING PREGNANCY

The next questions are about the prenatal care you received during your most recent pregnancy. Prenatal care includes visits to a doctor, nurse, or other health care worker before your baby was born to get checkups and advice about pregnancy. (It may help to look at the calendar when you answer these questions.)

21. **How many weeks or months pregnant were you when you were sure you were pregnant?** (For example, you had a pregnancy test or a doctor or nurse said you were pregnant.)

   - Weeks]
   - Months
   - I don’t remember

22. **How many weeks or months pregnant were you when you had your first visit for prenatal care?** Do not count a visit that was only for a pregnancy test or only for WIC (the Special Supplemental Nutrition Program for Women, Infants, and Children).

   - Weeks]
   - Months
   - I didn’t go for prenatal care

   Go to Question 24

Go to Question 23

23. **Did you get prenatal care as early in your pregnancy as you wanted?**

   - No
   - Yes

   Go to Page 6, Question 25

24. **Did any of these things keep you from getting prenatal care at all or as early as you wanted?** For each item, circle T (True) if it was a reason that you didn’t get prenatal care when you wanted or circle F (False) if it was not a reason for you or if something does not apply to you.

   | a. I couldn’t get an appointment when I wanted one | T | F |
   | b. I didn’t have enough money or insurance to pay for my visits | T | F |
   | c. I had no transportation to get to the clinic or doctor’s office | T | F |
   | d. The doctor or my health plan would not start care as early as I wanted | T | F |
   | e. I had too many other things going on | T | F |
   | f. I couldn’t take time off from work or school | T | F |
   | g. I didn’t have my Medicaid or HealthChoice card | T | F |
   | h. I had no one to take care of my children | T | F |
   | i. I didn’t know that I was pregnant | T | F |
   | j. I didn’t want anyone else to know I was pregnant | T | F |
   | k. I didn’t want prenatal care | T | F |

If you did not go for prenatal care, go to Page 7, Question 27.
25. **Did any of these health insurance plans help you pay for your prenatal care?**

- [ ] Health insurance from your job
- [ ] Health insurance that you or someone else paid for (not from a job)
- [ ] Medicaid or HealthChoice
- [ ] TRICARE or other military health care
- [ ] Other source(s) : Please tell us:

- [ ] I did not have health insurance to help pay for my prenatal care

26. **During any of your prenatal care visits, did a doctor, nurse, or other health care worker talk with you about any of the things listed below?** *Please count only discussions, not reading materials or videos.* For each item, circle **Y** (Yes) if someone talked with you about it or circle **N** (No) if no one talked with you about it.

27. At any time during your most recent pregnancy or delivery, did you have a test for HIV (the virus that causes AIDS)?

☐ No
☐ Yes
☐ I don’t know

28. Did you get a flu vaccination during your most recent pregnancy?

☐ No
☐ Yes

29. During your most recent pregnancy, were you on WIC (the Special Supplemental Nutrition Program for Women, Infants, and Children)?

☐ No
☐ Yes

30. During your most recent pregnancy, were you told by a doctor, nurse, or other health care worker that you had gestational diabetes (diabetes that started during this pregnancy)?

☐ No
☐ Yes

31. Did you have any of the following problems during your most recent pregnancy? For each item, circle Y (Yes) if you had the problem or circle N (No) if you did not.

   a. Vaginal bleeding
   b. Kidney or bladder (urinary tract) infection
   c. Severe nausea, vomiting, or dehydration
   d. Cervix had to be sewn shut (cerclage for incompetent cervix)
   e. High blood pressure, hypertension (including pregnancy-induced hypertension [PIH]), preeclampsia, or toxemia
   f. Problems with the placenta (such as abruptio placentae or placenta previa)
   g. Labor pains more than 3 weeks before my baby was due (preterm or early labor)
   h. Water broke more than 3 weeks before my baby was due (premature rupture of membranes [PROM])
   i. I had to have a blood transfusion
   j. I was hurt in a car accident
The next questions are about smoking cigarettes around the time of pregnancy (before, during, and after).

32. Have you smoked any cigarettes in the past 2 years?
   - No
   - Yes

33. In the 3 months before you got pregnant, how many cigarettes did you smoke on an average day? (A pack has 20 cigarettes.)
   - 41 cigarettes or more
   - 21 to 40 cigarettes
   - 11 to 20 cigarettes
   - 6 to 10 cigarettes
   - 1 to 5 cigarettes
   - Less than 1 cigarette
   - I didn’t smoke then

34. In the last 3 months of your pregnancy, how many cigarettes did you smoke on an average day? (A pack has 20 cigarettes.)
   - 41 cigarettes or more
   - 21 to 40 cigarettes
   - 11 to 20 cigarettes
   - 6 to 10 cigarettes
   - 1 to 5 cigarettes
   - Less than 1 cigarette
   - I didn’t smoke then

35. How many cigarettes do you smoke on an average day now? (A pack has 20 cigarettes.)
   - 41 cigarettes or more
   - 21 to 40 cigarettes
   - 11 to 20 cigarettes
   - 6 to 10 cigarettes
   - 1 to 5 cigarettes
   - Less than 1 cigarette
   - I don’t smoke now

36. Which of the following statements best describes the rules about smoking inside your home now?
   - No one is allowed to smoke anywhere inside my home
   - Smoking is allowed in some rooms or at some times
   - Smoking is permitted anywhere inside my home

The next questions are about drinking alcohol around the time of pregnancy (before, during, and after).

37. Have you had any alcoholic drinks in the past 2 years? A drink is 1 glass of wine, wine cooler, can or bottle of beer, shot of liquor, or mixed drink.
   - No
   - Yes

Go to Question 38a
38a. During the 3 months before you got pregnant, how many alcoholic drinks did you have in an average week?

- 14 drinks or more a week
- 7 to 13 drinks a week
- 4 to 6 drinks a week
- 1 to 3 drinks a week
- Less than 1 drink a week
- I didn’t drink then

38b. During the 3 months before you got pregnant, how many times did you drink 4 alcoholic drinks or more in one sitting? A sitting is a two hour time span.

- 6 or more times
- 4 to 5 times
- 2 to 3 times
- 1 time
- I didn’t have 4 drinks or more in 1 sitting

39a. During the last 3 months of your pregnancy, how many alcoholic drinks did you have in an average week?

- 14 drinks or more a week
- 7 to 13 drinks a week
- 4 to 6 drinks a week
- 1 to 3 drinks a week
- Less than 1 drink a week
- I didn’t drink then

39b. During the last 3 months of your pregnancy, how many times did you drink 4 alcoholic drinks or more in one sitting? A sitting is a two hour time span.

- 6 or more times
- 4 to 5 times
- 2 to 3 times
- 1 time
- I didn’t have 4 drinks or more in 1 sitting

Pregnancy can be a difficult time for some women. The next questions are about things that may have happened before and during your most recent pregnancy.

40. This question is about things that may have happened during the 12 months before your new baby was born. For each item, circle Y (Yes) if it happened to you or circle N (No) if it did not. (It may help to look at the calendar when you answer these questions.)

41. During the 12 months before you got pregnant with your new baby, did your husband or partner push, hit, slap, kick, choke, or physically hurt you in any other way?

- No
- Yes
42. During your most recent pregnancy, did your husband or partner push, hit, slap, kick, choke, or physically hurt you in any other way?

☐ No  ☐ Yes

The next questions are about your labor and delivery. (It may help to look at the calendar when you answer these questions.)

43. When was your baby due?

Month  Day  Year

44. When did you go into the hospital to have your baby?

Month  Day  Year

☐ I didn’t have my baby in a hospital

45. When was your baby born?

Month  Day  Year

46. How was your new baby delivered?

☐ Vaginally  ➔ Go to Question 48

☐ Cesarean delivery (c-section)

47. What was the reason that your new baby was born by cesarean delivery (c-section)?

☐ I had a previous cesarean delivery (c-section)
☐ My baby was in the wrong position
☐ I was past my due date
☐ My health care provider worried that my baby was too big
☐ I had a medical condition that made labor dangerous for me
☐ My health care provider tried to induce my labor, but it didn’t work
☐ Labor was taking too long
☐ The fetal monitor showed that my baby was having problems during labor
☐ I wanted to schedule my delivery
☐ I didn’t want to have my baby vaginally
☐ Other reason(s) ➔ Please tell us:

48. When were you discharged from the hospital after your baby was born?

Month  Day  Year

☐ I didn’t have my baby in a hospital
49. Did any of these health insurance plans help you pay for the delivery of your new baby?

☐ Health insurance from your job or the job of your husband, partner, or parents
☐ Health insurance that you or someone else paid for (not from a job)
☐ Medicaid or HealthChoice
☐ TRICARE or other military health care
☐ Other source(s) ——— Please tell us:

☐ I did not have health insurance to help pay for my delivery

---

AFTER PREGNANCY

The next questions are about the time since your new baby was born.

50. After your baby was born, was he or she put in an intensive care unit?

☐ No
☐ Yes
☐ I don’t know

51. After your baby was born, how long did he or she stay in the hospital?

☐ Less than 24 hours (less than 1 day)
☐ 24 to 48 hours (1 to 2 days)
☐ 3 to 5 days
☐ 6 to 14 days
☐ More than 14 days
☐ My baby was not born in a hospital
☐ My baby is still in the hospital ——— Go to Page 12, Question 54

52. Is your baby alive now?

☐ No ——— Go to Page 12, Question 61
☐ Yes

53. Is your baby living with you now?

☐ No ——— Go to Page 12, Question 61
☐ Yes ——— Go to Page 12, Question 54
54. Did you ever breastfeed or pump breast milk to feed your new baby after delivery, even for a short period of time?

- No
- Yes  Go to Question 57b

55. Are you currently breastfeeding or feeding pumped milk to your new baby?

- No
- Yes  Go to Question 57a

56. How many weeks or months did you breastfeed or pump milk to feed your baby?

- Weeks
- Months
- Less than 1 week

57a. How old was your new baby the first time he or she drank liquids other than breast milk (such as formula, water, juice, tea, or cow’s milk)?

- Weeks
- Months
- My baby was less than 1 week old
- My baby has not had any liquids other than breast milk

57b. How old was your new baby the first time he or she ate food (such as baby cereal, baby food, or any other food)?

- Weeks
- Months
- My baby was less than 1 week old
- My baby has not eaten any foods

58. In which one position do you most often lay your baby down to sleep now?

- On his or her side
- On his or her back
- On his or her stomach

59. How often does your new baby sleep in the same bed with you or anyone else?

- Always
- Often
- Sometimes
- Rarely
- Never

60. Was your new baby seen by a doctor, nurse, or other health care worker for a one week check-up after he or she was born?

- No
- Yes

61. Are you or your husband or partner doing anything now to keep from getting pregnant? (Some things people do to keep from getting pregnant include not having sex at certain times [natural family planning or rhythm] or withdrawal, and using birth control methods such as the pill, condoms, vaginal ring, IUD, having their tubes tied, or their partner having a vasectomy.)

- No
- Yes  Go to Question 63

If your baby is still in the hospital, go to Question 61.
62. What are your reasons or your husband’s or partner’s reasons for not doing anything to keep from getting pregnant now?

[Check all that apply]

- I am not having sex
- I want to get pregnant
- I don’t want to use birth control
- My husband or partner doesn’t want to use anything
- I don’t think I can get pregnant (sterile)
- I can’t pay for birth control
- I am pregnant now
- Other: [Please tell us: ]

63. Below is a list of feelings and experiences that women sometimes have after childbirth. Read each item to determine how well it describes your feelings and experiences. Then, write on the line the number of the choice that best describes how often you have felt or experienced things this way since your new baby was born. Use the scale when answering:

<table>
<thead>
<tr>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
<th>5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Never</td>
<td>Rarely</td>
<td>Sometimes</td>
<td>Often</td>
<td>Always</td>
</tr>
</tbody>
</table>

- a. I felt down, depressed, or sad . . ___
- b. I felt hopeless . . . . . . . . . . . . . ___
- c. I felt slowed down . . . . . . . . . . ___
- d. I felt panicky . . . . . . . . . . . . . . ___
- e. I felt restless . . . . . . . . . . . . . . ___

64. Since your new baby was born, has a doctor, nurse, or other health care worker told you that you had depression?

- No
- Yes

65. Since your new baby was born, has a doctor, nurse, or other health care worker told you that you had anxiety?

- No
- Yes

66. How old were you when you had your first menstrual period?

____ Years old

67. How old were you when you got pregnant for the first time?

____ Years old

68. How old were you when your first baby was born?

____ Years old
69. Have you ever had your teeth cleaned by a dentist or dental hygienist?

- No  Go to Question 71
- Yes

70. How long has it been since you had your teeth cleaned by a dentist or a dental hygienist?

- Within the past year (less than 12 months)
- 1 to less than 2 years (12 to 23 months)
- 2 to less than 5 years
- 5 or more years

The last questions are about the time during the 12 months before your new baby was born.

71. During the 12 months before your new baby was born, what was your yearly total household income before taxes? Include your income, your husband’s or partner’s income, and any other income you may have received. (All information will be kept private and will not affect any services you are now getting.)

- Less than $10,000
- $10,000 to $14,999
- $15,000 to $19,999
- $20,000 to $24,999
- $25,000 to $34,999
- $35,000 to $49,999
- $50,000 or more

Please use this space for any additional comments you would like to make about the health of mothers and babies in Maryland.

Thanks for answering our questions!

Your answers will help us work to make Maryland mothers and babies healthier.
These next questions are about the flu shot.

F1. At anytime during your most recent pregnancy, did a doctor, nurse, or other health care worker offer you a flu shot or tell you to get one?
- No
- Yes

F2. Since August 1, 2010, did you get a flu shot?
- No
- Yes

F3. Did you get this flu shot during or after your most recent pregnancy?
- During my pregnancy
- After I delivered my baby

F4. During what month and year did you get the flu shot?
- August 2010
- September 2010
- October 2010
- November 2010
- December 2010
- January 2011
- February 2011
- March 2011
- April 2011
- May 2011
- June 2011
- I don’t remember

F5. Where did you get your flu shot?
- My obstetrician or gynecologist’s office
- My family doctor or other doctor’s office
- A health department or community clinic
- A hospital
- A pharmacy, drug store or grocery store
- My work place or school
- Other
  Please tell us:

F6. What were your reasons for not getting a flu shot since August 1, 2010? For each reason, check No if it was not a reason for you, or check Yes if it was.

a. My doctor didn’t mention anything about getting a flu shot.
   No Y
b. I was worried about side effects of the flu shot for me.
   No Y
c. I was worried that the flu shot might harm my baby.
   No Y
d. I was not worried about getting sick with the flu.
   No Y
e. I do not think the flu shot works.
   No Y
f. I don’t normally get a flu shot.
   No Y
g. Other reason.
   Please tell us:

F7. At any time during your most recent pregnancy, were you sick with a fever?
- No
- Yes

F8. At any time during your most recent pregnancy, did a doctor, nurse or other health care worker tell you that you had the flu?
- No
- Yes

F9. Were you hospitalized for the flu during your most recent pregnancy?
- No
- Yes

Thank you for answering these final questions! Your answers will help us learn how to keep pregnant women healthy.
