Can-Do GERIATRIC TOUR

- The Need is Huge
- We Can Fund the Efforts and Sustain Them

CAN-DO GERIATRIC TOUR

- What I See – Real World Stuff

THE ISSUE BEFORE US:

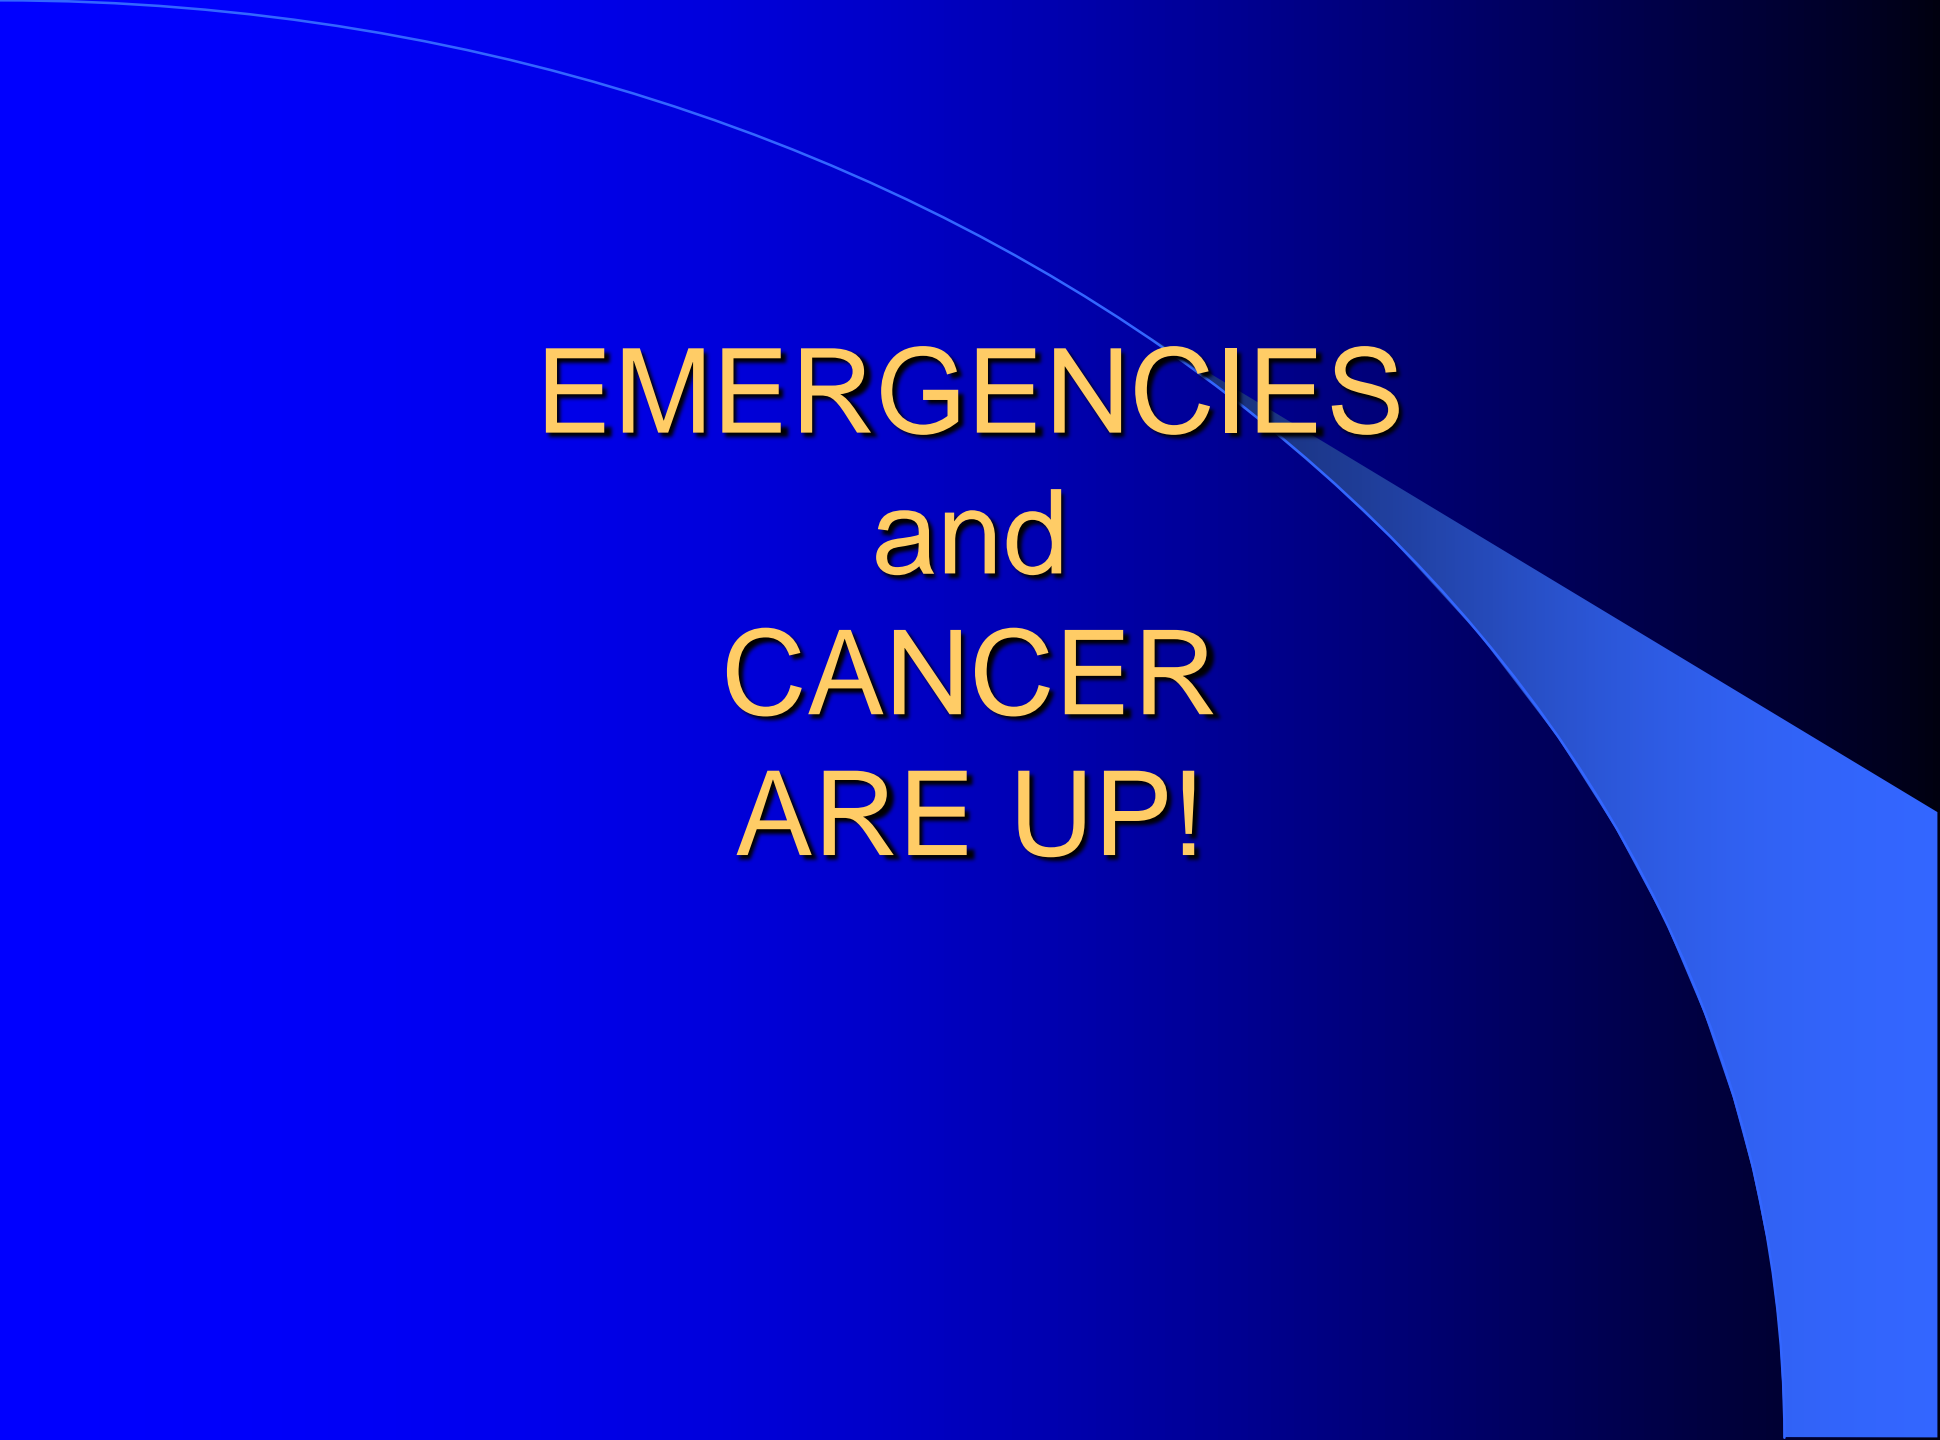

Many Needlessly Suffer

**TREATING AGING/SPECIAL
NEEDS PATIENTS IS A
GIFT FROM
GOD**

The background is a solid blue color. A thin, light blue curved line starts from the top left and arcs towards the right. On the right side, there is a light blue triangular shape pointing towards the center.

What's The Big Deal?

Poor Oral Health Kills Elderly Patients

EMERGENCIES
and
CANCER
ARE UP!

LEGAL ISSUES

- Disease Maintenance
VS
- Supervised Neglect

Oral Health / General Health Connections - CDC

- **1st Sign Of Disease**
 - Aids
 - Osteoporosis – Lower Jaw Resorption
- **Infective Endocarditis**
- **Oral Infections – Sepsis**
- **Gum Disease – Diabetes (Risk Factor)**
 - 6th Leading Complication – Goes Both Ways
- **Gum Disease – Heart Disease and Stroke (Risk Factor)**

Oral Health / General Health Connections

- Oral Cancer
- Gum Disease – Preterm, Low Weight Babies – 18% Moderate/Severe Gum Disease
- Pneumonia/Pulmonary and Lung Diseases

Reservoir of Respiratory Pathogens for Hospital-Acquired Pneumonia in Institutionalized Elders

Ali A. El-Solh, MD, MPH, FCCP; Et Al

- **Of 46 Patients In ICU 28 Had Colonization Of Their Dental Plaques With Aerobic Pathogens.**
- **13 Patients Developed Pneumonia**
- **8 Of The 13 Patients Had Respiratory Pathogens That Matched Genetically Those Recovered From Their Dental Plaques.**

Pneumonia In The Elderly

- **5-10 X More Likely To Get It**
- **7 Fold Mortality Rate**
- **4th Leading Cause Of Death In Elderly**
- **Hospitalization Mortality Rate Of 20-30%**

Reducing Bacterial Count

A large, abstract blue shape with a gradient from dark blue to light blue, resembling a stylized wave or a corner of a page, positioned on the right side of the slide.

Reducing Bacterial Count

- **Primary MUST for Aging and Vulnerable Patients**
- **Major Front-line Offence and Defense Player**
 - Hygienist
 - **Education**
 - **Treatment**
 - **Prevention**
 - **Core Oral Health Care Provider**

How Many?

Old Days 1992

- 68% No Teeth
- Dentate Patients Had Few Teeth – Anterior
- Dental Procedures Were Only Moderately In Demand

May 2017

- My Practice
 - 38 Nursing Facilities
 - 4000 Residents – 80% Are Dentate ~ 3600
- Of 3600 Dentate Patients Upon Admission – 50% or 1,800 Need Extractions due to Abscesses and/or Severe Gum Disease
- So ~ 50% of Dentate Residents or 40% of the Total Resident Population Need Surgical Care

May 2017

- Active Patients 45% so 1,800
- Resident Turnover Rate 35% = 1400 New Patients/
Year To Manage – 45% Will Become Active
- 630 New Patients/ year – 560 Surgical

CAN-DO GERIATRIC TOUR

- My Model

My Model

- Provide Mobile Oral Health Services for Residents in 38 Nursing Facilities
- Serve as Dental Director in All Facilities
- Mobile Equipment Carried In
- Regular Vehicles
- Set-Up in Rooms, Beauty Shops, Conference Rooms, Anywhere There Is Need
- Make House and Hospital Calls Routinely

My Model

- Hygienist - Scott
 - All Preliminary Evaluations With MDS, X-Rays
 - Refers Emergencies To Me Immediately
 - Identifies Patients Who Want Treatment
- Hygienist – Kimmy, Jaysie
 - Provide Mobile Hygiene Services – Direct Supervision
 - Assistant – Abby, Lauren
- Patient Relations/Billing – Ashley and Tammy
- Office Manager – Leah
- All are God Sent!!!

CAN-DO GERIATRIC TOUR

- Current Adult Dental Funding Mechanisms

Funding of Adult Dental Care

- Private Pay
- Dental Insurance
- Medicare
- Donated Services
 - MOM Events
 - Grant Funded Clinics
 - Non-Profit Practices
 - FQHC's
- Medicaid
- Incurred Medical Expenses

Funding of Adult Dental Care

- Private Pay
 - Dental Insurance
 - Medicare
 - Donated Services
 - MOM Events
 - Grant Funded Clinics
 - Non-Profit Practices
 - FOHC's
 - Medicaid
 - Incurred Medical Expenses
- 

Adult Medicaid

- Non-Disabled Poor

- Disabled Poor:
Aged, Blind, and
Disabled

Oral Health
Services
“Optional”

Adult Medicaid

- Non-Disabled Poor

- Disabled Poor:
Aged, Blind, and
Disabled

Oral Health
Services
“Optional”

“Societal Sin”

How Many Aged, Blind, or Disabled?

- Nationally (Kaiser -2015)
 - Medicaid Eligible 14,800,000
 - 1,350,000 Million Adults In Nursing Facilities
- And Growing

Older Population by Age: 1900-2050

Optional Oral Health Services
for ABD is WRONG

SPECIAL CARE DENTISTRY *ACT"*

CAN-DO GERIATRIC TOUR

- **Incurred Medical Expenses (IME)**
- **A Sustainable Funding Model For Nursing Facility Residents**

Nursing Facility Residents: Dental Care Funding

- Private Pay
- Medicaid
- Dental Insurance
- Incurred Medical Expenses (IME)

Nursing Facility Residents: Dental Care Funding

- Incurred Medical Expenses (IME)
 - Social Security Law
 - ADA Tool Kit
 - Assures Access to Dental Care Funding
(and Other Medically Necessary Services)
 - Google IME-ADA-Folse
 - Dental Offices
 - Patients
 - Facilities/Medicaid Case Workers

IME Funding of Dental Services

- Uses a Resident's Retirement income to Pay Dental Bills
- Dictated by Federal Law
- Cumbersome but Works
- How It Works.....
- Must Understand How Facilities are Paid

Facilities Pay

- Private Pay Residents
0-10% of the Population
- Total Medicaid Residents (No Retirement Income)
0-10% of the Population
- Part Medicaid – Part Resident Retirement Income
85-95% of the Population
IME Eligible

Facilities Pay

- Private Pay Residents
0-10% of the Population
- Total Medicaid Residents (No Retirement Income)
0-10% of the Population
- Part Medicaid – Part Resident Retirement Income
85-95% of the Population
IME Eligible

Facility Pay

The diagram features a dark blue background with a large, light blue wedge shape. The wedge is oriented horizontally, with its point on the left and its base on the right. The text 'Facility Pay' is centered above the wedge. On the left side of the wedge, there is a red arrow pointing upwards and to the right. On the right side of the wedge, there is a red arrow pointing upwards and to the left. Below the wedge, there are two yellow dots, one on the left and one on the right, each followed by text. The left text is 'Medicaid' and the right text is 'Resident Social Security or Pension Income'.

● Medicaid

● Resident Social
Security or Pension
Income

Facility Pay

The diagram features a blue background with a large, light blue curved arrow pointing from the right towards the center. At the top center, the text 'Facility Pay' is written in a yellow, bold, sans-serif font. On the left side, there is a red curved arrow pointing upwards and to the right. Below this arrow is a yellow dot followed by the word 'Medicaid' in white text. On the right side, there is a red curved arrow pointing upwards and to the left. Below this arrow is a red rectangular box containing a yellow dot followed by the text 'Resident Social Security or Pension Income' in white text. A large, light blue curved arrow originates from the right side of the slide and points towards the center, passing behind the 'Facility Pay' text and the red arrow on the right.

- Medicaid

- Resident Social Security or Pension Income

Resident SS or Retirement Income

- Resident Admitted
- Income is Assessed by a Medicaid Case Worker
- Case Worker Determines a Monthly “Patient Liability” - Amount They Must Pay the Facility Each Month
- The Entire Patient Liability is available for Paying Dental Bills

IME Example

- Dentist Performs a Service And Sends Invoice To Medicaid Case Worker.
- Patient's Liability Is Reassessed For Each Dental Bill And Adjusted For The Appropriate Length Of Time To Pay Bill.
- Patient's Finance Director Pays Provider
- Facility Is Reimbursed for the Difference By Medicaid

Treatment Example

- Resident Income \$1000/Month
- Exam, Extractions, Fillings, Preventive, and a Partial - \$3000
- Dentist Bill Sent to Case Worker
- Case Worker Reduces PLI to 0 for 3 Months
- Case Worker Increases Medicaid Facility Pay to \$4000 for 3 Months
- Next 3 Months:
 - Patient Pays \$1000 to Dentist Each Month

Initially - Facility Pay \$4000

- Medicaid
 - \$3000

- Resident Social Security or Pension Income
 - \$1000

During Dental Funding – Facility Still Pay \$4000

- Medicaid
 - \$4000

- Resident Social Security or Pension Income
- All Paid To Dentist For 3 Months
 - \$1000

How It Works

- Perform Service And Send Invoice To Medicaid Case Worker.
- Patient's Need Is Reassessed For Each Dental Bill And Adjusted For The Appropriate Length Of Time To Pay Bill.
- Patient Or Facility Pays Provider
- Facility Is Reimbursed By Medicaid

How Insurance Works

- Patient purchases Dental Insurance.
- Patient's Need Is Reassessed Only Once For The Monthly Insurance Bill.
- Patient Or Facility Pays Insurance Co.
- Facility Is Reimbursed By Medicaid

The background is a dark blue gradient. A thin, light blue curved line starts from the left edge and arcs downwards towards the bottom right. A larger, semi-transparent blue shape, resembling a spotlight beam or a stylized 'C', originates from the same area and points towards the bottom right corner.
