Children deserve to be healthy and happy.

Learning to make healthy choices during childhood is essential for a good start in life. Dental team members can help parents and children choose healthy behaviors to build healthy mouths and bodies for a lifetime.

Start making healthy choices today!

✔ Eat healthy

Prepare nutritious meals. Eliminate high calorie temptations. Eat healthy snacks. Cut down on sugar. High sugar means high calorie.

✔ Be active

Be active for 60 minutes every day. Families can be active together. Run, walk, play, ride, dance — make activity fun!

✔ Limit screen time

Screen time is sedentary time. Limit phone, TV, gaming, computer, and other screen time to one or two hours a day. Choose activities with friends or family instead.

✔ Drink water

Eliminate sugary beverages. Make tap water your beverage of choice. Most tap water in Maryland contains fluoride, which prevents cavities.

✔ Brush teeth

Brush twice a day. Brush with a toothpaste that contains fluoride. Fluoride strengthens teeth and prevents cavities. Floss daily.

Healthy Mouth, Healthy Body

Making Healthy Choices for Life
