Handy Guide to Portion Sizes

1	3 ounces of meat is about the size and thickness of a deck of playing cards or an audiotape cassette.	\
2	A medium apple or peach is about the size of a tennis ball.	
3	1 ounce of cheese is about the size of 4 stacked dice.	
4	1/2 cup of ice cream is about the size of a racquetball or tennis ball.	
5	1 cup of mashed potatoes or broccoli is about the size of your fist.	\$ = \$
6	1 teaspoon of butter or peanut butter is about the size of the tip of your thumb.	
7	1 ounce of nuts or small candies equals one handful.	₩ =1 0 z .

The secret to serving size is in your hand.

A fist or cupped hand = 1 cup

1 cup = 11/2-2 servings of fruit juice 1 oz. of cold cereal 2 oz. of cooked cereal, rice or pasta 8 oz. of milk or yogurt

Handful = 1-2 oz. of snack food

Consuming low-fat cheese helps you

meet the required servings from the milk, yogurt and cheese group. 1½ oz. of low-fat cheese counts as 8 oz. of milk or yogurt.

> Snacking can add up. Remember, 1 handful equals 1 oz. of nuts and small candies. For chips and pretzels, 2 handfuls equal 1 oz.

Because hand sizes vary, compare your fist size to an actual measuring cup.

Palm = 3 oz. of meat

Choose lean poultry, fish, shellfish and beef. One palm size portion equals 3 oz. for an adult and $1\frac{1}{2}$ oz. for a child under 5.

Thumb tip = 1 teaspoon

Keep high-fat foods, such as peanut butter and mayonnaise, at a minimum. One teaspoon is equal to the end of your thumb, from the knuckle up. Three teaspoons equals 1 tablespoon.

tennis ball = $\frac{1}{2}$ cup of fruit and vegetables

Healthy diets include a variety of colorful fruits and vegetables every day.
