

Vaccines Administered with Counseling Elsewhere in the HD

Immunizations may be provided in a different clinic within a HD and include a office visit, such as:

- HIV Clinic
- STI Clinic
- Reproductive Health - Family Planning Clinic
- School Based Health Center

Clinic office and preventative visits are reported/billed using the appropriate Evaluation & Management (E/M) codes (99201-99215) and or Preventative medicine codes (PM) 99381-99397 codes

E/M and PM services may be reported on the same date of service as immunization services but will require Modifier “25” to be appended to the visit CPT code.

Reporting/Billing Example

For 2 yrs old **well-child/preventative** care to **non-Medicaid** patient with counseling:

CPT CODE	DESCRIPTOR	ICD-10 CODE	QTY
99392 -25*	Routine PE 1-5 years old	Z00.129	1
90680	Rotavirus oral	Z23	1
90645	Hib	Z23	1
90460	Administration w/counseling	Z23	2

*Modifier 25 should only be appended to the visit code and is invalid if appended to the vaccine or administration code.
