

Maryland Medical Assistance Program
IEP/IFSP Provider Alert
Follow-up Guidance on Telephone Telehealth Services
and Expansion of Medicaid Telehealth Regulations

On March 11 and March 21, the Maryland Department of Health Medical Assistance Program (“Maryland Medicaid”) updated its Telehealth Program for certain provider types and to permit a distant site to deliver certain health care services to an individual in their own home. These changes are effective as of March 5, 2020, and will remain in place until the end of the state of emergency.

- COVID-19 #1 -- [Expansion of Medicaid Telehealth Regulations -- March 11, 2020](#)
- COVID-19 #4a -- [Authorization of Telephone Telehealth Services for General Health Care Services -- March 21, 2020](#)
- COVID-19 #4b -- [Authorization of Telephone Telehealth Services for Behavioral Health Services -- March 21, 2020](#)
- COVID-19 #4c -- [Authorization of Telephone Telehealth Services for Psychiatric Rehabilitation Services -- March 21, 2020](#)

As our partners respond with clarifying questions to this temporary guidance, the Medicaid Program is releasing this document to provide further information.

Below is the list of procedure codes for psychotherapy, physical therapy, occupational therapy, speech language pathology, and nutritional counseling services that may be provided by Part B (IEP) and Part C (IFSP) providers via telehealth if the services are identified on the child’s IEP/IFSP. Providers must continue to follow the frequency outlined in the IEP/IFSP or the IEP/IFSP must be amended. Documentation rules and regulations already in place must be followed (see the Medicaid School-Based Provider Manual at: <https://mmcp.health.maryland.gov/epsdt/Pages/Home.aspx>).

Maryland Medicaid will not require prior authorization for the services listed below. Providers must bill services delivered via telehealth using two-way audiovisual technology assisted communication using the “GT” modifier.

Nursing, audiology, therapeutic behavior service, and transportation services are not billable through a telehealth model. All service coordination procedures (T1023, T1023-TG, T2022, W9322, W9323, and W9324) have an audio-only component and may continue to be provided and billed in this manner. Providers may render individual psychotherapy services (90832 and 90834) using audio-only technology.

Maryland Medicaid Fee-for-Service Approved IEP/IFSP Telehealth Services– Psychotherapy		
Procedure Code	Procedure Description	Qualified Provider

W9324	Autism Waiver Plan of Care Reassessment; Risk Assessment	Qualified Service Coordinator per COMAR 10.09.52

Clarification of Previous Guidance

Parental Consent to Bill Medicaid for IEP/IFSP Services: At this time, Maryland Medicaid will accept verbal parental consent in lieu of written consent. However, Autism Waiver participants must still provide consent for Plans of Care in writing. Providers should read all elements of the consent document to the parent prior to obtaining their verbal consent. Documentation of how the parent consented is required. This should be followed up in the future, with written consent, noting the date verbal consent was granted.

Notification of a Change in Service Coordinator: During the state of emergency Maryland Medicaid will allow schools to provide verbal notification of a change in service coordinator in lieu of the written requirement. Documentation of how the parent was notified of the change in service coordinator is required. Providers are encouraged to follow up this contact in writing through the mail or email.

Supervision: Supervision of lesser qualified providers is still required but may be conducted via telehealth. Co-treatment may also be provided via telehealth.
